Section: LEARNING COACH

We want to ensure that all enrolling families are aware of School Policies and Enrollment Expectations. School Name requires that each student has a designated adult, known as the Learning Coach, who will have the primary responsibility of being actively involved in all school related work and activities. Learning Coaches are the primary point of contact for all teachers and Academic Staff. If you choose to select someone other than yourself as the Learning Coach, please note that Legal Guardians are still ultimately responsible in ensuring adherence to school policies.

A Learning Coach actively monitors, assists, and motivates the student on a daily basis to ensure academic progress and adherence. The role and responsibilities of the Learning Coach varies based on the student's grade level.

- Grades K- 5th.** In grades K-5, the Learning Coach works side-by-side with a student to facilitate progress through daily lessons. While the teacher oversees all facets of the instructional experience for each subject, the Learning Coach's constant guidance and support through each lesson is critical for a young learner. The Learning Coach communicates regularly with the student's teacher and establishes proper scheduling, pacing and advanced preparation for lessons. A K-5 Learning Coach ensures that the student is making adequate progress in all courses and meeting program expectations. Learning Coaches of K-5 students can expect to spend 3–6 hours per day supporting their child's education..
- Grades 6th- 8th.** In Middle School students begin to develop more independence and take a more active role in their learning. The support of a Learning Coach is critical during this transition. A Middle School Learning Coach is responsible for working closely with the student's teacher(s) to monitor all aspects of a child's online schooling experience. The Learning Coach ensures that the student is engaged in schooling each day, meeting program requirements and deadlines, staying on track with scheduling and pacing, and collaborating with his teacher when additional support is needed. While students begin to gain independence in Middle School, they still need consistent guidance and support from a Learning Coach to ensure academic success. Learning Coaches of Middle School students can expect to spend 2–4 hours per day supporting their child's education.
- Grades 9th- 12th.** In High School the Learning Coach is referred to as the student's Mentor. The Mentor helps the student stay on task and ensure the student is following through on his or her assignments while the student is expected to manage his or her own time and schedule directly. High School courses are taught by teachers specifically experienced in their respective subjects, so the student has a different teacher for each subject. These teachers are responsible for reviewing all student work and providing instructional feedback. The student is expected to move at a consistent pace with her or his class in each subject.

Please review the Acknowledgement of Expectations and School Policies document before selecting the student's Learning Coach to ensure you fully understand this role and its responsibilities.

By signing below, you agree to the Acknowledgment of Expectations and School Policies

If another responsible adult will be the Learning Coach, please fill out Learning Coach Information.

Orientation

Orientation includes completing the Introduction to Online Learning Course. This course is designed to familiarize students and learning coaches with the Online School platform and other tools required to succeed in our school.

Dual Enrollment

The student is enrolling in a full-time public school and upon acceptance students may not be enrolled in any other full- or part-time public school.

Attendance

Attendance must be logged Monday through Friday; however, academic progress can be logged during the weekends as well. Progress is measured by completion of the online curriculum, offline assignments, and submission of work samples. Anytime during the school week that the student is not completing work must be reported to their homeroom teacher. We are required to track attendance according to state law. Students that do not meet attendance requirements or adequate progress may be found truant and/or withdrawn from school.

Teacher Support

Families are expected to maintain communication with the school and teachers on a regular basis. Kmail is our school's internal email system and serves as the primary means of communication with our school and teachers. Kmail must be checked on a daily basis by the Learning Coach. Phone conferences and/or live meetings via class connect will be initiated by the teacher as needed and all parties will be expected to have access to all curriculum materials and a computer for these conferences.

Family Contact Information

A working phone number, email address, and current physical, mailing and shipping addresses must be provided throughout school year. Families are required notify the teacher and/or school administration of any changes in contact information.

Coursework

Elementary grade level course work is mastery-based. This consists of lessons that are followed by assessments, ensuring the student has mastered a particular area before moving on. The online assessments are integrated with the planning and progress tools, making it easy to find the right pace by subject and to stay on track.

High School grade level course work is credit based and rigorous. Each course has a regular weekly schedule of assignments and activities which are graded by a teacher.

Testing

Students are required to participate in all state-mandated assessments according to their grade level. State testing is completed in person and it is the family's responsibility to provide transportation to the location. Specific testing dates, times and locations will be provided in advance. Please note that if a student fails to participate, it may result in the student being withdrawn from our school.

The **Scantron** assessment is a skills-based benchmark assessment that students will take upon enrollment approval. The parent, school academic team and teacher will receive the results. Based upon the students' strengths and weaknesses, teachers will develop an Individualized Learning Plan (ILP) for enrichment and/or remediation. The Scantron assessment

is not a placement test and does not change grade level or course placement. At the end of the year, the student will take another assessment to show academic progress.

Computer

All students must have a computer dedicated for schooling. Families that are using their own computer are responsible for ensuring their personal computer meets the required specifications for our Online School Platform. Please check the specifications by visiting the website below: http://www.k12.com/faqs/technical_requirements/

High Speed Internet

High Speed Internet access is required for enrollment for all students. It must be active by the first day of school and must be maintained for the duration of enrollment.

Withdrawing From Current School

Students must remain enrolled in their current school until the student's official start date. Withdrawing from the student's current school is the responsibility of the Legal Guardian.

In all cases, these vendors will have agreed to ensure the confidentiality of the student's name and address and to not use the information for purposes other than that contracted for the student's education needs.

- Suppliers of computers and educational materials for purposes of shipping to and from the student's home
- Customer care providers that handle support calls for K12 Inc.
