Professional development of tutors is offered online and they are mandated to view the training materials online once every twelve months.			Students who enrolled in the program for the 2007-08 school year completed pre-tests and post-tests by May of 2008 that demonstrated improvement. Students in this California program are assessed using pre- and post-tests and through student progress reports from tutors and teachers. Longer term gains were evident from students evaluated in the school years 2005-06 and 2006-07 which showed that they had increased their academic performance.

Recruiting of non-licensed tutors does occur, A+ Learning Solutions requires that tutors have a college degree (associate's degree or higher); have attended college with 60+ college credits; or are paraprofessionals. In those cases where a tutor is not a credentialed teacher, a credentialed teacher supports the tutor. All tutors undergo background checks and hold current, valid fingerprint clearance cards.			The Center for Research in Educational Policy at the University of Memphis reported that Learning Solutions had a statistically significant positive impact on the students it served with moderately large and notable adjusted effect sizes. Evidence of effectiveness in instruction was also comparatively found in a study by Litzenger Consulting, LLC through A+ Learning Solutions' use of the Leap Track assessment in English, language arts and mathematics.
