

## Help your students excel in Advanced Placement® examinations with Fuel Education’s AP® Exam Reviews

### Our subject-specific, self-study AP Exam Reviews:

- Are web-based and can be accessed online by students anytime.
- Include timed exam simulations that allow students to practice taking the test the way it will be given by the College Board.
- Feature four modules—Quick Review, Multiple Choice Practice, Free Response Practice, and Scored Essays.
- Allow students to target the exact content and question types they need to review and practice.
- Provide a condensed, outlined version of the course content for students to review.
- Create customized study plans by flagging topics to review based on incorrect answers on practice questions.
- Reflect the content emphasis and format of each specific College Board exam. FuelEd’s AP Biology Exam Review, for example, provides practice integrating the science and mathematical skills needed to calculate correct answers for the exam’s Grid-In style questions. Our AP English Exam Review includes a Scored Essays module to help students prepare for the Free Response portion of the exam.

### FuelEd currently offers AP Exam Reviews for:

- |                       |                                  |                       |
|-----------------------|----------------------------------|-----------------------|
| • AP Biology          | • AP English Literature          | • AP Spanish Language |
| • AP Calculus AB      | • AP Environmental Science       | • AP Statistics       |
| • AP Calculus BC      | • AP French Language and Culture | • AP U.S. Government  |
| • AP English Language | • AP Psychology                  | • AP World History    |

Students already enrolled in our AP courses will have access to the new courses at no additional charge. For students not enrolled in our AP courses, the cost is \$35 per student/per course. The exam reviews are a valuable study tool for all AP students whether they take their courses online or in the school building.
