These “K12 Florida LLC Policies and Procedures Related to Participation in State Testing” are posted on our disclosure website www.k12.com as required in the Virtual Instruction Program Application for Provider Renewal.

**District Virtual Instruction Programs**

In compliance with 1002.45 (6)(b) F.S, every student enrolled in a district virtual instruction program or cyber charter school must take state assessments within the school district in which the student resides and the resident district must provide the student with access to the district’s testing facilities.

Students enrolled as full time (active in 4 or more courses) in district virtual instruction programs must participate in all state testing. Parents/Legal Guardians are responsible for providing transportation to and from testing site(s) for their enrolled student. School districts which have contracted with K12 Florida LLC (“K12”) for a virtual instruction program have the option to mandate that virtual instruction program students be present either at locally zoned schools (based on physical addresses of the students) or at a local testing facility. This can include the district office or other education buildings that are located in the school district of the enrolled students. Contracted districts must provide student access to the district’s testing facilities.

The K12 virtual instruction program administration works closely with the district’s virtual program testing coordinator to account for all students’ testing requirements, testing dates, times and locations. K12 and the district work together to ensure students have the necessary testing information. This information is communicated with the families in various ways including, but not limited to email, regular teacher communication, and telephone. It is necessary for zoned schools to work with the district’s virtual testing coordinators, K12 virtual instruction program’s administration, and the families to provide a positive testing experience for each student.

Students must participate in all testing modules, even when they occur on multiple days. Students in grade 3 must participate in the Grade 3 English Language Arts Florida State Assessment. In grades other than grade 3, districts will determine which assessment students will take when enrolled in courses above grade level.

**Assessment and Accountability Manager**

The Assessment Coordinator works closely with district’s virtual testing coordinators to comply with all testing requirements. The Assessment Coordinator will attend annual state assessment meetings and will work to provide all data to families, teachers and staff. Teachers and administrators work closely with students and families to provide an understanding of the district
and state testing requirements.

**Participation**

K12’s virtual instruction program will participate in statewide assessments per 1008.22 F.S. and Florida’s education performance accountability system under 1008.31 F.S. It is the policy of the K12 virtual instruction program that any student not participating in state mandated testing will not be permitted to participate in the K12 virtual instruction program the following year. The K12 virtual instruction program will work closely with the zoned district’s virtual administrator to ensure K12 stays within the guidelines provided by the Florida Department of Education. K12 teachers and testing coordinators will create a participation file, ensuring that all students participate in testing and, if necessary, take advantage of any make up dates. The K12 Testing Coordinator will collect all data, prepare a participation file, and work with each district to compare the participation file to the tests collected within each district to ensure accuracy. The final student participation list will be available upon receipt of the INDV accountability file from the Accountability Office showing the scores and participation percentage of that school year’s school membership.

**Students participating in the VIP for part time courses**

Students taking 1-3 courses with the K12 virtual instruction program are considered part time and will not be recorded or reported under the K12 virtual instruction program’s school number. These students will work with the primary school to participate in state testing.

**Cyber Charter Academies**

**SCHOOL ASSESSMENT AND ACCOUNTABILITY COORDINATOR**

FLCCA School Assessment and Accountability Coordinator (SAC) is the main point of contact for all state assessments. The SAC will meet with each District Assessment Coordinator at the beginning of the school year to discuss initial test plan. Test planning will be a collaborative effort between FLCCA and the Sponsor Assessment office when applicable and/or when required. FLCCA will notify the Charter Office by a mutually agreed upon date (late Fall) of testing plan and test sites. Written correspondence will serve as documentation that meetings and agreements are in place for each of the FLCCA’s.

**Testing Mode**

All assessments will be administered in the State mandated format (both PBT and CBT) per FLDOE State Assessment and Accountability. For FLCCA students, this means testing at a location outside of the student’s home, in-person, on select dates throughout the school year. FLCCA teachers, staff and contracted staff will administer assessments to all students who are required to test and enrolled in FLCCA during any administration window.

Note: CollegeBoard SAT Suite of Assessments and ACT are not administered by FLCCA but Guidance Counselors will provide information to all High school students on how to register and where to take these tests. See section for more information.

**Test Sites**

A Site Survey team is deployed to visit each site during the contracting phase of securing test sites. A report is generated and shared with the SAC and School Director which includes the following information and ratings:
• Early Setup Availability/Flexibility, Tear Down Requirement
• Availability/Flexibility to Re-Setup after Tear Down
• Internet Quality
• Room Quality (Number of Outlets/Special Equipment Needs/Desk and chairs conducive to student testing)
• Multiple Staff/Emergency PoC
• Facility Cleanliness, Facility Safety
• What is the total student testing capacity at one time?
• POC Name POC Phone POC Email
• Loading Dock? UPS/FedEx Pickup Delivery? Can we ship equipment to the site at least 7 days BEFORE testing
• Is there a locked storage Room Available Onsite? Where will equipment be stored prior to first test day?
• Can we store equipment on site for a minimum of 4 days after testing? Who has Access to Secured Room?
• Can we do initial setup a couple days prior to start of testing (Sat/Sun)? What day can we do setup and what time can we gain access?
• Can we leave the equipment set up for the entire duration of testing?
• What are normal operating hours? What is the earliest time that we can get into the building and have access to the equipment?
• Are elevators available at the site? Is there any construction that would hinder arrival? Is rush hour a concern? Address / Name displayed on building? Is there sufficient parking?

The report is analyzed by the school and K12 determines which sites FLCCA will contract with for test administration each school year.

Beginning in School Year 2018-2019, in compliance of Senate Bill 7026 and the Marjory Stoneman Douglas High School Public Safety Act, each test site will contract with a School Safety Assistant to be on-site whenever FLCCA is testing FLCCA Students.

**STUDENTS TO BE TESTED**

All students enrolled in tested grade levels/subjects participate in the Spring 2019 FSA administration with or without accommodations, per Section 1008.22(3)(a), Florida Statutes (F.S.). Students who have received a GED diploma are not eligible to participate in FSA administrations.

Students must take the test(s) appropriate for the grade level/subject in which they are receiving instruction.

**FSA – Florida Standards Assessments**

For FSA ELA, students must take the **same** grade-level test for ELA Writing and ELA Reading to receive an ELA score. Students in middle grades take only one FSA Math assessment per school year based on grade level. If student is enrolled in Algebra 1 or Geometry, the student will take the EOC associated with that course and not the grade-level Math assessment. The following students are eligible to participate in FSA EOC administrations:
• Students who still need to pass an assessment for graduation purposes (Algebra 1 Retake only)
• Students who must earn a passing score on an assessment for a standard diploma with a scholar designation (Geometry only)
• Students who have not yet taken an assessment to be averaged as 30% of their course grades
• Students who are in grade forgiveness programs and wish to retake an assessment to improve their course grades
• Students in a credit acceleration program (CAP) who wish to take an assessment to earn course credit

NGSSS – Next Generation Sunshine State Standards
All students enrolled in and completing one of the following courses aligned to the NGSSS will participate in the appropriate assessment:
• Biology 1, Civics and US History.
• Statewide Science Assessment
• Students enrolled in grades 5 and 8 will participate in the Statewide Science Assessment.
• Students receiving accelerated instruction in science may participate in the appropriate Statewide Science Assessment.
• In accordance with section 1008.22(3)(b)2., Florida Statutes, middle grades students will not be tested on both the Statewide Science Assessment and the Biology EOC Assessment.
  o Students enrolled in Biology 1 must take the EOC assessment, not the Statewide Science Assessment.

STUDENTS WITH DISABILITIES
Students with disabilities participate in the statewide assessment program by taking one of the following:
• FSA without accommodations,
• FSA with accommodations, or
• Florida Standards Alternate Assessment.

All determinations regarding participation in the statewide assessment program must be documented in the student’s IEP or Section 504 plan.

MEDICAL EXEMPTIONS
Per s. 1008.212, F.S., a student with a disability whom the IEP team determines is prevented by a circumstance or condition from physically demonstrating the mastery of skills that have been acquired and are measured by the statewide standardized assessment, a statewide standardized EOC assessment, or an alternate assessment shall be granted an extraordinary exemption from the administration of the assessment. A learning, emotional, behavioral, or significant cognitive disability, or the receipt of services through the homebound or hospitalized program in accordance with Rule 6A-6.03020, Florida Administrative Code (FAC), is not, in and of itself, an adequate criterion for the granting of an extraordinary exemption. A written request for an extraordinary exemption must be submitted to the district school superintendent by the student’s IEP team no later than 60 calendar days before the first day of the administration window.
of the assessment for which the request is made. An exemption request for FSA ELA applies to both Writing and Reading assessments and should have been submitted no later than 60 calendar days before the first day of the FSA ELA Writing test administration. The Commissioner of Education shall determine whether the extraordinary exemption is granted or denied.

In addition to the extraordinary exemption option, a child with a medical complexity may be exempt from participating in statewide, standardized assessments pursuant to the provisions of s. 1008.22(10), F.S.

In the rare circumstances in which a student cannot take a state assessment during the entire testing window due to significant medical conditions, the Florida Cyber Charter Academy Head of School will submit on school letterhead a written request to Florida Department of Education for permission to medically exempt the student. Prior to developing the letter, parent/guardian consent will be obtained. The request will include the medical condition preventing participation in the respective administration window and make up period. In addition, the request will include the following:

- Student First and Last Name
- Student ID #
- Grade Level
- Name of the test which the exception is being requested
- Dates of the scheduled test administration/testing window
- If the student has an IEP, the Functional Behavioral Assessment (FBA), and Behavioral Intervention Plan (BIP), if applicable.
- If the student has a 504 that will be attached.
- Date of onset of illness/injury or condition.
- Expected duration of illness/injury or condition.
- A detailed explanation of how the significant illness/injury or condition affects the student daily including impact on instruction. If supporting evaluations, doctor’s notes are available they will be attached.

The Special Programs manager will handle the students that require medical exceptions and work alongside the SAC who will be in contact with the Florida Department of Education regarding these students. In many cases an emergency 504 plan can also be put in place to assist.

TEST SYSTEMS INFORMATION

Testing Nirvana – Internal Assessment Management System

Testing Nirvana is an Assessment Management System used by Florida Cyber Charter Academy to plan, schedule, assign, communicate, track and otherwise administer all state testing. This management system is also used for state accountability tracking for internal documentation.

About Testing Nirvana: Parents and Students are provided login information to access the site directly in addition to the electronic communications sent from Testing Nirvana. This system allows parents to select the test site that is nearest to their residence by showing the distance to each site from their address. Testing Nirvana sites and test dates are shared in Fall so families can plan to be out of their homes on the required test dates in Spring. The earlier communication
also allows the families to work with the school on any transportation needed before the test administration windows open. This will aid in preventing any student absences during the Spring 2019 test windows. Makeup dates are embedded within the schedule in Testing Nirvana so if a student is not in attendance on any given test day, a rescheduling communication will be sent and the student will need to attend on the alternate date(s).

**ROLES AND RESPONSIBILITIES OF TESTING PERSONNEL AND INFORMATION ON TRAINING FOR TEST ADMINISTRATIONS**

*Describe the roles and responsibilities of the positions listed below and indicate the test administration training each will receive prior to all test administrations.*

**Head of School**

1. Has ultimate responsibility for all testing activities for the school.
2. Appoints the FLCCA SAC.
3. Supervises Principals and FLCCA SAC to ensure that they fulfill their specific responsibilities for the administration of tests.
4. Maintains contact with FLCCA SAC to become thoroughly informed of all testing activities.
5. Conducts investigations of reported testing irregularities (e.g., student cheating, unethical professional conduct). Reports unethical professional conduct to the Educator Ethics Division.
6. Informs local board members, parents, and other citizens about requirements pertaining to statewide testing.
7. Ensures that appropriate local personnel attend Florida Standards Assessment/Pearson workshops concerning state assessment programs.
8. Reviews and returns certification/verification forms to the Office of Assessment and Accountability at the Districts by the due dates.
9. Ensures that Test Administration Forms are completed after each test administration and retained as required.
10. Approves all special administrations.
11. Informs citizens residing within the local system's area concerning the collective achievement of enrolled students by school.
12. Ensures that local calendars are planned so that all tests are administered according to the state-published testing calendar.

**School Assessment Coordinator (SAC)**

1. Coordinates all test administration activities within the school.
2. Serves as liaison between the school and the Districts for all test administration activities.
3. Assumes responsibility for carrying out the approved plan for administration of all tests.
4. Furnishes all information and submits all forms required by the Districts by specified dates.
5. Ensures Test Site Coordinators and Administrators complete the Test Administrator (TA) Certification for administration and maintains these forms for five years. (http://www.fsassessments.org/test-administration/ta-certification-course/)
6. Orders special format tests (Braille, large print, advanced reading aids).
7. Receives test materials from Testing Sites at a designated time.
8. Ensures that the Regional Site Managers account for the security of all test materials during the time the materials are in their building.
9. Ensures all materials are stored in a secure, locked location with restricted access, confirms Access is restricted by accounting for keys.
10. Ensures the number of test booklets assigned to each testing site is sufficient and accounts for material distribution and return.
11. Locates all testing sites.
12. Assists Principals in assigning testing roles (test administrator, proctors, volunteers, and attendance monitors). Test Administrators and Proctors are assigned appropriately within state guidelines.
13. Ensures that only staff members who have been trained on the proper management of secure test materials handle such materials.
14. Reviews and follows all procedures in all administration manuals and is familiar with administrators' roles and proctors' roles.
15. Adheres to state/system test dates, time schedules, and specified instructions set by the Florida Department of Education.
16. Ensures that each test site is suitable, has an assigned Regional Site Manager and a Test Site Coordinator.
17. Accounts for and distributes all test materials distributed to each Regional Site Manager and for the disposition of specific materials.
18. Attends statewide testing program meetings.
19. Arranges sites for staff to monitor schools during testing sessions.
20. Ensures that all the following personnel are trained: Teachers/school personnel involved in test administration, including RSMs, TSCs, Test Administrators, Proctors, the system Special Education Coordinator (on the administration of the Alternate Assessment), the system ESOL Coordinator (on the administration of ACCESS for ELLs/Alternate ACCESS), and any others who have responsibilities related to testing and/or testing materials.
21. Ensures that Principals and RSMs are aware of and follow the protocols or procedures prescribed in Student Assessment Handbook, testing manuals, and other materials.
22. Maintains a portfolio of all training session materials and rosters of attendees.
23. Answers questions of all RSMs, TSCs and Principals and makes decisions regarding testing, when appropriate.
24. Ensures that Regional Site Managers and TSCs account for all students in terms of testing requirements.
25. Ensures strict test security and reports to Head of School concerning testing irregularities (e.g., student cheating, unethical professional conduct).
26. Under supervision, ensures that the Site Coordinator checks for accuracy of the student ID numbers on each answer document.
27. Communicates to the Districts when testing irregularities occur.
28. Distributes test results to the Districts and to the schools in a timely manner and ensures that students are informed of the expected date for the return of the test results.
29. Interprets test results to school personnel and appropriate others.
30. Ensures that local calendars are planned so that all tests are administered according to the state- published testing calendar that provides testing dates for the current and future academic years.
31. Ensures that students, parents, and the governing boards have access to information concerning all test administrations and utilization of test results.
32. Works with school personnel to communicate to parents of students with IEPs, 504s and ELL plans pertinent information regarding all statewide tests.
33. Ensures that the Guidance Department submits the transfer of Alternate Assessment portfolios when students withdraw from or enrolls in the school system.
34. Ensures that students have only one opportunity to test during each session.
35. Use Online Requesting System (ORS) to order additional materials from district.

**Regional Test Site Manager (RSM)**
1. Is responsible for managing a group a test sites as assigned by the SAC.
2. Serves as first point of contact for all Test Site Coordinators in assigned region.
3. Ensures that each test setting (room) is suitable, has an assigned a test administrator, and has the appropriate number of proctors.
4. Works with SAC to obtain computers for each Test Site in assigned region.
5. Works with SAC to obtain all testing materials for each Test Site in assigned region.
6. Maintains records of all materials at each test site and ensures return of materials to the SAC.
7. Monitors Testing Nirvana for each test site in assigned region.
8. Pulls reports in Testing Nirvana for each test site in assigned region.
9. Attends daily and weekly meetings with other RSMs led by the SAC to report on test activity.
10. Reports on participation rates at each test site in assigned region.
11. Reports on makeup activity/needs at each test site in assigned region.
12. Alerts SAC of any invalidation requests.
13. Alerts SAC of any test irregularities to be reported to the district.

**Test Site Coordinator**
1. Has ultimate responsibility for testing activities at the local site.
2. Creates an atmosphere in which all staff members know that their cooperation is needed and expected for successful test administration.
3. Ensures proper environment for test administration.
4. Ensures that all testing sites are appropriately prepared: adequate student workspace, proper lighting, good ventilation, sufficient number of desks in good repair, instructional materials (e.g., posters, word walls, etc.) removed or covered, etc.
5. Ensures that the test accommodations identified in students' IEPs, 504s and ELL plans are provided for each student as specified.
6. Ensures that testing sites are free of interruptions during test administration (e.g., intercom messages, visitors, wandering students).
7. Receives test materials from assigned District and verifies numbers received.
8. Determines the number of test booklets to be assigned to each testing site and accounts for material distribution and return.
9. Assists in assigning Test Administrator(s).
10. Assigns Proctor(s) appropriately in accordance with state guidelines.
11. Accounts for the security of all test materials during the time the materials are in the building.
12. Under supervision, ensures the accuracy of student ID numbers on each answer document.
13. Ensures all materials are stored in a secure, locked location with restricted access, confirms access is restricted by accounting for keys.
14. Ensures that only staff members who have been trained on the proper management of secure test materials handle such materials.
15. Ensures the orientation sessions for Test Administrators and Proctors.
16. Ensures that students and parents/guardians are informed about the purpose of testing, dates and times for testing, and expected dates for return of test results.
17. Adheres to FLCCA testing schedule.
18. Distributes test materials to and collects from each Test Administrator on the testing days.
19. Ensures Test Administrators sign out (date and time) materials each testing day shortly before testing begins each day.
20. Ensures Test Administrators return (sign, date, and time) materials immediately after testing each day.
21. Ensures that a minimum of one certified administrator is present and witnesses the transcription of student responses when/where necessary (e.g. such as when a student has the accommodation of marking answers in the test booklet). Documentation of this process must be retained.
22. Provides each Test Administrator with a list of student ID numbers.
23. Gives Test Administrators additional No. 2 pencils, pens for writing tests, and resource materials, if appropriate.
24. Accounts for all students in terms of testing requirements.
25. Notifies FLCCA SAC of any emergency situation and helps to decide what action needs to be taken.
26. Conducts, coordinates, and supervises inspection of all completed answer documents before delivering them to the Designated District for the following purposes only: to ensure that student demographic/identification information is accurate, that necessary coding/labeling is complete, and that documents are in good condition for scanning.
27. Counts materials returned from Test Administrators each day and accounts for all materials distributed each day of testing.
28. Packages and returns materials to FLCCA SAC according to directions and time line.
29. Immediately notifies FLCCA RSM who will notify SAC of any testing irregularities and provides explanation of circumstances.
30. Maintains dated student sign-in/sign-out sheets for each test administration.
31. Maintains all other secure test documents per FLDOE in a binder at the site.
32. Reports to the assigned Regional Site Manager daily.

Test Administrator
1. Participates in all training and masters all assessments.
2. Reviews and follows all procedures in handling all administration materials.
3. Counts materials prior to testing and after testing to verify accuracy.
4. Ensures the security of test booklets while they are in the testing site before, during, and after testing.
5. Provides No. 2 pencils, erasers, pens for writing tests, and resource materials (if appropriate).
6. Follows procedures for testing as given in the Test Administrator's Manual, including reading all directions to students.
7. Maintains control of testing situation and keeps students on task. Test Administrators should actively circulate and monitor students throughout the testing session(s).
8. Confirms that all assigned students have entered and bubbled in the test form number correctly if one is required.
9. Allows no student to leave the test room unless there is an emergency.
10. Counts and verifies all testing materials each day prior to dismissing students.
11. With direct site coordinator supervision, at the conclusion of testing, inspects answer documents for the following purposes only: to ensure that student demographic/identification information is accurate, that necessary coding/labeling is complete, and that documents are in good condition for scanning.
12. Returns all test materials to Site Coordinators immediately after testing each day, including special format tests, such as Braille or large print.
13. Documents the daily receipt (date, time, and number received) of test materials and the daily return of test materials.
14. Ensures that no content-related instructional materials are displayed in the testing site. Charts, diagrams, and posters should not be visible. Whiteboards should be free of any writing except for test procedure information. Electronic devices are not allowed during testing administration. Devices should be collected and powered off prior to materials being distributed. (Follow script as written in FLDOE manuals).

Note: Certified educators (teachers, counselors, administrators, paraprofessionals) must administer all assessments. Educators without Florida certification from the Florida Department of education may not administer state assessments, unless otherwise communicated by the district sponsor Assessment and Accountability Department.

Proctor
1. FLDOE strongly recommends that proctors be assigned to rooms with fewer than 26 (Computer Based Test) or 31 (Paper Based Test accommodations) students whenever possible.
2. School personnel and non-school personnel may be trained as proctors. Prior to testing, proctors must be informed of their duties and of the appropriate test security policies and procedures.
3. School personnel proctor duties may include preparing and distributing materials (e.g., worksheets).
4. Non-school personnel may assist test administrators during test administration; however, they may NOT participate in any of the test administration procedures (e.g., distributing and collecting test materials, providing accommodations).
5. Volunteers (e.g., parents, retired teachers) may be trained as proctors and may perform non-school personnel duties.
6. All proctors may help monitor rooms during test administration; however, they may NOT assist in rooms where their family members are testing.

Proctors and anyone who assists with any aspect of test preparation or administration must be informed of the test security laws and rules prohibiting any activities that may threaten the
integrity of the test. Each proctor who monitors a testing room for any length of time must sign a Test Administration and Security Agreement and the Security Log for that room.

**Parent Notification of Test Administration Dates for the School Year**

*The school will share with teachers, students, and parents a schedule of the state test administration dates for the school year.*

- Testing administration dates will be noted in the parent/student handbook and will be also be communicated via Testing Nirvana, email, orientation sessions and phone messages throughout the year.
- Notification of testing location will be sent out via school email using Testing Nirvana 90 Days prior (12 weeks in advance) and phone calls 60 days prior (8 weeks in advance) and then 30 days (4 weeks in advance).
  - Confirmation of both test sites and test administration dates in managed within Testing Nirvana.
  - Teachers will follow up with parents to confirm receipt of testing location/time and address any concerns parents may have regarding location.

**Technology and Computers**

**Technology Requirements and Secure Browser Installation**

Computers are ordered through Testing Nirvana. K12 state assessment computers are updated each school year with the latest Secure Test Browsers including the FSA Secure Portal and TestNav. K12 Technology state testing department ensures all computers have the correct Voice Pack for Text-to-Speech(TTS) accommodations installed prior to shipping to the school. All information can be shared with this department through Testing Nirvana.

K12 computers will have the correct technical specifications install prior to FLCCA receiving them.

SAC will order the computers using Testing Nirvana. Number of computers is determined by the number of students that can be tested at any given time at each site will an overage of at least 5 student computers. SAC will have computers shipped directly to each Testing Site.

1. Site coordinators will verify the correct number of computers are received at the test site.
2. Site coordinator will scan the barcodes on each computer and upload into Testing Nirvana.
3. Site technology teams will visit and run an infrastructure trial at each site to ensure all test sites will function with the K12 computers and secure internet.
4. Computers will remain in possession of site coordinator and/or in a secure location at the test site.

**Computer Return**

1. Site Coordinator will package all computers and cradlepoints in original K12 test boxes.
2. Site Coordinator will scan the computers to be returned and upload into Testing Nirvana.
3. Site Coordinator will schedule a pick-up with UPS using the already printed return label provided.
MATERIALS INFORMATION

SECURE, LOCKED FACILITY FOR TEST MATERIALS

The tests will be stored in a secure, locked facility when not in use. Access to the storage area will be limited to one or two authorized school personnel when secure materials are being stored. Unauthorized personnel (e.g., cleaning staff, secretary) will not have access to the storage area where secure materials are stored. The location within each testing building of the secure, locked storage facility as well as the authorized school personnel given access to the storage facilities are listed below.

<table>
<thead>
<tr>
<th>Building</th>
<th>Personnel Granted Access</th>
</tr>
</thead>
<tbody>
<tr>
<td>School Office</td>
<td>Materials will be behind two locked doors with only director, School Assessment coordinator and operations manager with key.</td>
</tr>
<tr>
<td>All other test centers</td>
<td>Materials will be left at testing site. Test Site coordinator will have the key or code to the secure lock box for materials, excluding when the materials are checked out to the test administrators.</td>
</tr>
</tbody>
</table>

MATERIALS HANDLING SYSTEM (RECEIVING MATERIALS, CHECKING OUT, AND CHECKING IN TEST MATERIALS)

TEST TICKETS

All Test Tickets will be downloaded by the SAC from TIDE. The SAC will electronically separate the Test Tickets by site – this is where the student is testing. Each site will have a folder created in the FLCCA secure Sharepoint platform. The Test Site Coordinator will have access to the appropriate folder in Sharepoint where the Test Tickets will be housed for the week of September 17-21, 2018. The Test Site Coordinator will download and print the Test Tickets from Sharepoint and place in a locked box (Lockbox provided by FLCCA with a code only the SAC and the Test Site Coordinator know). The Lockbox will then be stored at the Test Site location for the duration of testing. The lockbox will be emptied at the end of the test administration window, in this case, on September 21, 2018. The materials are packaged on-site, sealed, and shipped back to the FLCCA school office. The boxes are to be opened by the SAC only.

Ordering Test Materials: Paper based test materials will be ordered, as applicable, by the SAC. This is done by ensuring all student information is up-to-date in FOCUS and working with the district assessment coordinator to ensure all students are accounted for within the test systems.

Ordering Accommodated Forms and Special Accommodation Requests:

Accommodation forms (Braille, large print, one test item per page) will be ordered at least 30 working days before the actual test administration date (or as soon as the ordering system becomes available, if less than 30 days before testing). The Accommodation Notification Form will be used if the Individualized Education Program (IEP) Team or Section 504 Committee determines a student needs a testing accommodation other than those specifically described in the Testing Students with Disabilities publication. This form will be received by the FLDOE
within 30 days of the IEP Team’s or Section 504 Committee’s decision or at least 3 weeks before the test administration, whichever occurs first.

Materials – Shipping and Delivery: FLCCA will verify with Clay, Duval, and Osceola Assessment offices the shipping address for all paper-based test materials – including manuals. Each district assessment office will ship or otherwise deliver all test materials to the FLCCA office. Materials will be prepared and shipped from the FLCCA office via FedEx to each test site facility.

The testing center will use the following system to account to the Sponsor and Florida Standards Assessment/Pearson TestNav for all test materials received and to ensure all materials are returned and accounted for. Access to secure tests must be limited to school personnel who have a legitimate need. Provide a narrative for each of the following processes regarding handling secure testing materials:

Receiving Materials: Only the SAC or the school director’s designee is permitted to sign upon delivery of secure test materials.

Each District Assessment Coordinator will be contacted by the SAC to ascertain when materials will be shipped or if the SAC will be picking the materials up from the district.

The SAC should expect the following for each test:

1. The following materials for this administration, as applicable (may not be packaged in the order indicated):

   School Boxes
   • School SAC Box (White)
   • School Cover Memo
   • School Packing List
   • School Box Range Sheet
   • School Order Summary
   • School Security Checklist
   • PreID Rosters
   • PreID Labels
   • Blank PreID Labels
   • Orange - Labels (TO BE SCORED regular print materials)
   • Striped - Labels (TO BE SCORED materials—for calibration schools ONLY)
   • White - Labels (TO BE SCORED large print/one-item-per-page materials)
   • Pink - Labels (TO BE SCORED braille materials)
   • Yellow- Labels (NOT TO BE SCORED materials)
   • Roll of Plastic Return Bags
   • Test Administration Manuals
   • Test and Answer Books (PBT accommodation)
   • Reading Passage Booklets (CBT accommodation)

   SAC will inventory all materials to ensure all needed material is provided upon receipt. SAC will
sort by site and prepare entire site materials to be picked up by site coordinators. Site coordinators will be assigned a designated time to pick up materials from office prior to administration of test (usually during our professional development times).

**Test Administrators receipt of materials**

1. Test materials (secure and not secure) will be shipped directly to the test site.
2. Under direction of School’s SAC, a testing site Coordinator/team member will open and inspect the contents of administration box and materials boxes. They will make sure that there is enough of all supplies (forms, scratch paper, etc.) in the admin box.
3. Review each student pre-identified test booklets and/or answer sheets. Testing Site coordinators/team member will identify all that do not belong to their site. A site coordinator/team member will look these up on the master site roster, identify their correct site, and take them to the table designated for labels and nametags and put in the correct site folder. Likewise, if missing any labels or test tickets, a folder will be at the testing site with misplaced/extra labels and test tickets to see if they were distributed to another site. Site Coordinator/team member will keep these materials sorted by grade level.
4. Site coordinators will review their current site roster on the spreadsheet provided by the SAC, note number of students for each grade level testing, and identify paper pencil read aloud as well as large print.
5. Site coordinators will count all test materials and make sure the numbers of each type of material listed on the site inventory sheet reflects what is in their boxes and match their site roster needs as listed in #3. Each grade level will have 2 additional test booklets and answer sheets in addition to the required number.
6. Answer documents will be securely kept in folders to protect them from damage.

**Separate the Materials**
Site Coordinators will use the site plan provided by the SAC as a guide to separate the materials.

1. Site Coordinator and the test administrators at their site will separate materials by room, boxing and sealing them separately. Ex. Test administrator A should tell site coordinator how many X grade books and answer documents are needed for their first session.
2. Once test administrator will have their materials sorted by room, test administrator will pull their student pre-coded answer sheets and name tags and place in a zip lock bag.
3. Repeat this process for the second session.

**Large Print**
Each regular large print packet assigned to a student contains a large test booklet, a normal sized test booklet (in case the test administrator needs to do a read aloud), a test administrator manual, and an answer document. Large print students will mark their answer in the large booklet. Then, in the presence of the three staff members, the test administrator will transcribe the student’s answers onto their answer document. This will require that a validation is completed.

**Return of Materials:** SAC will prepare all materials PRIOR to returning to the District office.
-Package the materials in this order (Bottom to Top):
Bottom — Florida Cyber Charter Academy order

- Test Administrator Manuals
- Unused Answer Sheets (Clipped and labeled with a post it with site name)
- Voided Answer Sheets (Clipped and labeled with a post it with site name)
- Student Test Booklets—Organized by grade level and booklet number
- Used Scratch Paper (Clipped and labeled with a post it with site name)
- Used Answer Sheets—Alphabetized by Homeroom Teacher and Student Last Name

Top

- Site Coordinator and another member of site team should conduct a final count of materials at test site. Once verified, seal the boxes and initial security form on top of admin box.
- Each of the following should be bagged or clipped together and identified with a label with the site name:
  - Used security seals
  - Unused security seals
  - Completed Health/Emergency Forms
  - Completed Student Release Forms
  - Used Scratch Paper (should be in order by grade level)
  - Test Administrator’s Manuals
  - Unused answer documents (sorted by grade)
  - Voided answer documents (sorted by grade). Voided answer documents have written upon or labeled, but are not to be scored.

Returning Materials to FLCCA: FLCCA SAC or designee will pack and ship materials, both used and unused in accordance with FLCCA once the testing window closes.

Reporting Discrepancies in the Count (include reporting discrepancies from FLCCA, vendors, and test administrators): It is crucial that secure test materials be tracked and accounted for at each level of distribution. A testing irregularity will be submitted by the SAC for any missing secure test materials using the appropriate district, and a school-level investigation must be completed.

ACCOMMODATIONS AND ALTERNATE ASSESSMENT INFORMATION

Exceptional Student Education:
The school will use the following plan (1) to ensure eligible students’ test accommodations are documented, (2) to ensure the accommodations are provided to the students, and (3) to determine the extent the accommodations are used by the students during the test administrations. The plan must include the person responsible for managing/updating/compliance with the students’ Individual Educational Plans (IEP)/504 documents.

Meetings for Managing/Updating Individual Educational Plans (IEPs)/504 Documents: The Special Programs Manager will meet at least annually for students with 504 Accommodation Plans and students with IEP Plans. The 504 Team/IEP Team will determine if testing accommodations are necessary for the student to access the test. If the Team decides
accommodations are necessary, they will be noted on the 504 Plan and IEP. It is the expectation that these accommodations are used throughout the school year during all testing situations including standardized testing. The Review of Accommodations Used During Testing Form will be completed as documented below.

**Review of Accommodations Used During Testing:** The Special Programs Manager in collaboration with the SAC will re-examine The Review of Accommodations Used During Testing Form prior to testing. The Special Programs Manager/Case Manager or Guidance Counselor will document and sign the required accommodations prior to testing. The Special Programs Manager will review the Review of Accommodations Used During Testing Form with the test administrator to assure understanding each accommodation. The information for the form will be acquired through FOCUS (student information system) and Testing Accommodations page of the IEP. During testing, the person administering the test will document how the accommodations were administered and if the student used the accommodation. The Review of Accommodations Form will then be reviewed during IEP meetings. The Team may consider adjusting accommodations for the subsequent year based on student participation.

For eligible students participating in the computer-based FSA ELA Reading, Writing, Mathematics, or EOC assessments, the following accommodations are available (as applicable):

**Computer-Based Accommodations**
- Masking
- Text-to-speech
- American Sign Language (ASL) videos for ELA Reading tests
- Closed captioning for ELA Reading tests

**Writing Passage Booklets**
- Regular print Writing Passage Booklets
- Large print Writing Passage Booklets

**Reading Passage Booklets**
- Regular print Reading Passage Booklets
- Large print Reading Passage Booklets

Paper-based accommodations (regular print, large print, braille, one-item-per-page) may be provided to eligible students if indicated as an accommodation on an IEP or Section 504 plan. Districts must submit confirmation of student eligibility for all paper-based accommodations to FDOE. Scripts for students using paper-based accommodations (regular print, large print, braille, one-item-per-page) and computer-based accommodations (e.g., masking, text-to-speech) can be found in the Spring/Summer 2017 FSA Accommodations Manual, available on the FSA portal. Scripts and instructions for administering braille accommodations are provided with the braille test materials.

Alternate Assessments: All Florida students participate in the state’s assessment and accountability system. The Florida Standards Alternate Assessment (FSAA) is designed for students whose participation in the general statewide assessment program (Florida Standards Assessments, Statewide Science Assessment, Next Generation Sunshine State Standards End-of-
Course Assessments) is not appropriate, even with accommodations. The FSAA measures student academic performance on the Access Points (FS-AP) in Language Arts, Mathematics, Science, and Social Studies. Access Points are academic expectations written specifically for students with significant cognitive disabilities. They reflect the essence or core intent of the standards that apply to all students in the same grade, but at reduced levels of complexity. Beginning in 2016-2017, the FSAA program will include two assessment components. The FSAA Performance Task (FSAA-PT) is designed to assess students at three levels of complexity and results are reported through achievement levels.

All students who are on Alternate curriculum such as ULS will participate in the FSAA.

**Test Security**

**Testing Environment**

- All test sites are visited prior to securing contracts for the school. (See Test Site Survey for more information).
- Tests will be administered in a room that has comfortable seating and good lighting. The room will be adequately ventilated and free of distractions.
- All visual aids in the room will be removed or covered, such as word lists or charts showing mathematical concepts. Students may not have access to any unauthorized aids. Discuss any concerns with your school assessment coordinator.
- Sufficient workspace will be provided for students to use their test materials (planning sheets, reference sheets, worksheets, work folders, etc.). Students must not be able to easily view other students’ computer or device screens, planning sheets, passage booklets, reference sheets, worksheets, or work folders. The configuration of each testing room will be checked to ensure each will be able to provide a secure environment during testing. Adjustments will be made prior to the test administration. If necessary, use visual blocks (e.g., file folders taped to the sides of computer screens).
- During testing each test room will post a sign that reads TESTING- PLEASE DO NOT DISTURB. Inside of each room the following signs will be posted for each test day: No Electronic Devices, Session 1 or Session 2 signs, and, when applicable, No Calculators sign.
- Seating Charts will be maintained for each testing room. The chart should record the following:
  - Room name/number
  - Subject
  - Student names and their locations in the room during testing
  - Direction each student is facing
  - Date
  - Starting and stopping times
  - Site Coordinator Name
  - Test Administrator Name
  - Session ID/Test Group Code

All seating charts must indicate the front and back of the room. If students using extra time are moved to a new location or the seating configuration changes during testing, a new seating chart must be created. Seating charts must be returned to your school assessment coordinator after
testing.

**Test Materials Security – Throughout Testing**

All state testing materials will be delivered to each testing administrative office and remain there until the distribution to specific test site. All materials will be housed in a designated office space within a secure designated office space within the administrative office. To ensure safety of the materials, the space will have a locking door that can only be accessed by appropriate staff. During the time the testing materials are in this space, a sign will be posted to ensure that the space is not entered by unapproved individuals. If an appropriate staff member is required to enter the room, a sign-in/out form will be located on the door to indicate the name of the person entering, along with the day and time. Materials are only handled by a Florida certified teacher.

**Days before Testing**

- When organizing and preparing materials for testing sites, members of the materials will team work together to ensure there are always at least two staff members present.
- As materials are prepared for sites, they are placed in secured testing boxes with numbered security seals. All seals are accounted for and returned to the District’s office at the conclusion of testing.
- Secure materials are packaged and inventoried separately from non-secure items (non-secure items may include activities for students to complete after finishing a testing section, dictionaries, thesaurus, etc. as permitted by each state’s testing guidelines).
- Materials are transported to a face to face training event in secured testing boxes. Boxes remain sealed until testing teams are ready to verify, count, and sign out materials.
- The site coordinator reads and signs a test security affidavit. Once signed the required testing materials for his/her site are inventoried in his/her presence and signed over from the district SAC to the site coordinator. The materials must remain in the direct possession of the site coordinator until returned to the testing site coordinator and or District and inventoried.
- All sites receive a test security form with their materials which indicates the number of testing materials being distributed to them.

**During Testing**

- All secured items will be transported to District testing sited in a locked box that is secured.
- The materials boxes are unsealed by both the site coordinator and a member of the site team at each testing site on day one of testing. Boxes are never unsealed without two members present.
- Once boxes are unsealed, the site coordinator and site team member count and verify receipt of the number testing documents as indicated on the test security form that accompanies materials.
- The site coordinator assumes the custody of the materials for the duration of the testing window.
- Each day of testing the site coordinator arrives at the designated site with the materials, unloads all materials into the testing site (being careful to never allow materials to be left alone during this process), unseals boxes with both the site coordinator and a site team
member present, counts all materials, verifies counts match the testing security form, and both the site coordinator and site team member sign off on the testing security form.

- Materials are checked-out to the test administrator during testing administration. The test administrator signs off on security checklist included in the inventory binder that he/she is in receipt of materials and will sign the materials back in with the site coordinator upon conclusion of the testing session.
- During testing, materials will remain with a Test Administrator always.
- At the end of the testing session each day, the materials will be counted a final time by both the site coordinator and a site team member.
- Once the material count has been verified to match the count on the testing security form, the materials are placed back in the testing boxes and secured with the provided security seals.
- The materials are never left at a site and will leave with the site coordinator. In some instances, the site coordinator will be housed at a hotel and will be required to transport the materials to their room where it will remain locked always. When a site coordinator is commuting from their home, the materials are to be brought in to their home and placed in a locked room. The same process is followed each day of testing.

After Testing
- Site coordinators will be given a designated time to return materials to Florida cyber Charter Academy office.
- Site coordinators will account for all materials that were signed out to them and will sign back in the used and unused material along with the non-secure items that were used.
- SAC will take possession of materials and secure them in locked room once they are all accounted for.

Special Test Environments: Prior to any set of materials being distributed, the Special Programs Manager will ensure all accommodations are placed into our program Testing Nirvana. These accommodations will be updated throughout the year as needed. Special materials will be ordered based on the accommodations that the school has noted in testing nirvana. Site coordinators for each site will have access to all students that are assigned to their site, including those with special accommodations. The site coordinator will reach out to both parent and special education teacher to confirm all accommodations are accurate. Once confirmation occurs, the site coordinator will design a plan for testing these students that require specific accommodations. These may include but are not limited to: individual testing, small group, extended time, preferential seating, read-aloud etc. The site coordinator will assign a test administrator to administer the tests to these students and will specify the room and time frame that will be required depending on the individual needs. Multiple rooms will be secured at the testing location for not only the general education students to test in large group setting, but specifically for the needs of the students with specific accommodations. The process for the Test Administrators will be the same as for testing the general education students; they will sign out the exams prior to the test each day and administer the test using the approved accommodations and then return the exams/computers to the site coordinator once the test is complete.

Practice Tests
FLCCA will ensure all students have had an opportunity to take a practice test in the same
format the assessment will be administered.

Principals will establish a guideline for all teachers to follow which will ensure all students have the opportunity to partake in a practice test at least 2 weeks prior to state test administration date(s). A communication will be sent by the SAC to all parents which will include the links above so that parents can also allow their student to practice under their guidance.

**TESTING VIOLATIONS AND TESTING IRREGULARITIES**

All Site Coordinators must immediately contact the SAC when test irregularity, test security breach or test invalidation are known or suspected. The SAC will work with the Site Coordinator on next steps after the correct course of action is determined.

**Test Irregularities**

Test administrators should report any test irregularities (e.g., disruptive students, loss of Internet connectivity) to the school assessment coordinator immediately. A test irregularity may include testing that is interrupted for an extended period due to a local technical malfunction or severe weather. School assessment coordinators must notify district assessment coordinators of any test irregularities that are reported. Decisions regarding test invalidation should not be made prior to communicating with the district assessment coordinator. If further guidance is needed or to report an irregularity requiring action by FDOE (e.g., reporting teacher misconduct to the Office of Professional Practices), district assessment coordinators should contact the Bureau of K–12 Student Assessment.

**Security Breaches**

Test administrators should report possible breaches of test security (e.g., secure test content that has been photographed, copied, or otherwise recorded) to the school assessment coordinator immediately. If a security breach is identified, the school assessment coordinator must contact the district assessment coordinator, and the district assessment coordinator should contact the Bureau of K–12 Student Assessment immediately to discuss a plan of action. This action may include the involvement of local law enforcement personnel.

**Note:** Districts are also required to report test incidents and irregularities to the Bureau of K–12 Student Assessment using an online form. FDOE will distribute a link and instructions to districts prior to each test administration.

**Test Invalidation Policies and Procedures**

The main purpose of invalidation is to identify when the validity of test results has been compromised.

Test administrators should discuss any situation involving possible invalidation with the school assessment coordinator, and the situation should be investigated immediately. District assessment coordinators will advise the SAC of the appropriate course of action if invalidation is being considered.

For assistance identifying circumstances when invalidation is an appropriate course of action, review the following guidelines.
1. **A student has an electronic device during testing.** If a student is found with an electronic device that he or she is not using for testing purposes during testing or during breaks within a session, the student’s test **must** be invalidated.

2. **A student is cheating during testing.** Cheating is cause for immediate test invalidation. Possible cheating situations include looking at and/or copying from another student’s test, allowing another student to look at or copy from the student’s test, or accessing unauthorized aids. Please note, as stated in Rule 6A-10.042, FAC, in situations involving cheating, a report must be submitted to FDOE within 10 calendar days of the incident.

3. **A student becomes ill and is unable to finish, or a student is not allowed the correct amount of time.** Invalidation decisions should be made based on whether the student was provided adequate time to respond completely to the test items. The student should be asked if he or she is comfortable with his or her performance on the test to determine if the test should be scored. If the student feels he or she was provided enough time to respond completely, the test should be submitted for scoring. If it is determined that the student was not provided adequate time to respond completely and the validity of the test results has been compromised, the test should be invalidated. However, if the validity of the test results has not been compromised and the student has not left the school’s campus, the student may return to the testing room during the same school day to complete the test session. If a student starts a test session and leaves campus without finishing (e.g., due to an appointment, illness), he or she will **not** be allowed to return to that test session.

4. **A student is given an accommodation not allowed on statewide assessments.** If a student is given an accommodation that is not allowed on statewide assessments and compromises the validity of the test, that student’s test must be invalidated. For information about allowable accommodations, see Appendix A. Test administrators who will administer tests to students who require accommodations should be familiar with allowable accommodations to ensure that they are not offering classroom testing accommodations that are not allowed on statewide assessments.

5. **A student is given an accommodation not indicated on the student’s IEP, Section 504 plan, or ELL plan.** Testing with accommodations not indicated on a student’s IEP, Section 504 plan, or ELL plan may be cause for invalidation.

6. **A student was not provided an allowable accommodation indicated on the student’s IEP, Section 504 plan, or ELL plan.** The situation should be discussed with the student and his or her parents/guardians to determine if the lack of the accommodation significantly affected the student’s performance and if the test should be scored.

7. **An error occurs in test administration procedures that could compromise the validity of test results.** If the validity of the test results has been compromised (e.g., a student had access to an unauthorized visual aid that gave an unfair advantage), the test must be invalidated.

8. **A disruption occurs during testing.** If students are disrupted during testing due to a circumstance out of their control (e.g., severe weather), test invalidation may be considered if a student feels his or her performance was significantly affected by the disruption.

9. **A student is given unauthorized help during testing.** If a student received unauthorized assistance or has been given an unfair advantage (e.g., a test administrator has told a student to check the answer to a specific item), the student’s test must be invalidated.
10. **A student is disruptive during testing.** If a student is disruptive during testing, the school assessment coordinator should determine whether invalidation is an appropriate course of action.

**REPORTING**

**Obtaining Student Assessment Scores:** All student scores are available in state assessment portals as listed below. The School Assessment Coordinator (SAC) is responsible for obtaining these scores upon release from the FLDOE. Student scores are available for download by the SAC only as identified in TIDE and Pearson Access Next.

**FSA Reporting System:** The FSA Reporting System provides score data for each FSA test, which includes Grades 3–10 English Language Arts (ELA), Grade 10 ELA Retake, Grades 3–8 Mathematics, and Algebra 1, Algebra 1 Retake (reported in Spring only), Geometry, and Algebra 2 End-of-Course assessments. Scores for initial and late reporting releases are available to users in the FSA Reporting System.

Access to the reports provided in the FSA Reporting System depends on each user’s role and its school and district associations. These roles are assigned in the Test Information Distribution Engine (TIDE) website.

**Pearson Access next Reporting System:** The Pearson Access next Reporting System provides score data for each NGSSS test, which includes Grades 5 and 8 Statewide Science and Civics, Biology and US History End-of-Course assessments.

**Obtaining Student Score Reports:** All paper student score reports are released from the FLDOE to the District Assessment Coordinator (DAC). The DAC coordinates with each school’s SAC to determine how the reports will be delivered to FLCCA. The SAC can pick the scores up or have them shipped to the school depending on what the DAC prefers.

**Distribution of Student Score Reports (ISR):** All paper student score reports must be mailed (US MAIL) to each students’ residence. There are multiple reports and they may be delivered to the school at separate times as they are released from the state. Upon receipt of student paper score reports, the Operations Manager and team of registrars will follow this procedure:

1. Operations manager will sign to verify delivery of reports – if being shipped to the school. Operations manager will sign to verify delivery of reports using internal tracking system: if SAC is delivering the reports.

2. Operations manager will oversee the following take place:
   a. Scan each student report and upload into SharePoint Folder – Assessment and Accountability – Student Score Reports.
   b. Make a copy of each student score report. Place Copy in CUM folder.
   c. Mail original report(s) to the student residence addressed to the parents of named student.
   d. Notify SAC when above is completed for each student.
