105.3 FORMULATION OF BOARD POLICY

The policies of the Board are developed, and are meant to be interpreted, in terms of existing federal and state laws, regulations of the Idaho State Board of Education and Idaho Public Charter School Commission, and other city, county, state, and federal regulations.

Proposals for new policies, or changes in existing policies, may be submitted by any Board member, Head of School, student, citizen, staff member, employee or a policy committee that may be created and/or maintained by the Board.

When a policy is needed to set new and important directions for the Idaho Technical Career Academy, or when a proposed policy would substantially alter a major program or mode of operation, an ad hoc advisory committee may be named to examine policy needs in depth and make recommendations to the Board. Such recommendations are limited to the policy and not to the specific administrative procedure. Such committees may be appointed by the Board and may be composed of persons representative of the administrative staff, instructional and non-instructional staffs, parents, students, and/or general community as appropriate to the policy area under consideration. Such committees, if developed, will be given guidelines as to how and when they will make their reports.

To permit time for study of all new policies or amendments to policies and to provide an opportunity for interested parties to react, proposed policies or amendments may be presented for multiple readings as the Board deems necessary.

Amendments to the policy at the action stage will not require repetition of the above sequence, unless focus of the policy is changed.

Policies will be adopted and/or amended only by the affirmative vote of a majority of the members of the Board when such action has been scheduled on the agenda of a regular or special meeting.

Policies will be effective upon the date set by the Board if other than the date of adoption. The date will ensure the affected persons have an opportunity to become familiar with the requirements of the new policy prior to its implementation.

110.1 DIRECTORS - POLICY VACANT

111.0 PUBLIC PARTICIPATION IN BOARD MEETINGS

The Board desires citizens of the Idaho Technical Career Academy and the community at large to attend its sessions so that they may become better acquainted with the school and so that the Board may have opportunity to hear the expectations the public has of its schools.

Patrons must realize that a Board meeting is a meeting held in public view, not a public meeting. To permit community members to be heard, and at the same time conduct business properly and efficiently, the Board establishes the following procedures for persons wishing to speak before the Board:

1. The person should inform the Head of School or Board's Clerk at least five (5) working days before the meeting of his/her desire to be on the Board agenda; the topic to be addressed; and any group he/she represents. The amount of time allotted for the presentation will be determined in consultation with the Head of School.
2. Individuals who address a topic on the published agenda will be allowed three (3) minutes to make their remarks during the Public Forum section of the Agenda or unless otherwise recognized by the Board's Chair. Extensions of time will be at the sole discretion of the Board Chairman. The Board will not generally respond to remarks made in this manner during the meeting but may issue a written response after the meeting.
3. Speakers may offer objective criticisms of school operations and programs, but the Board will not hear complaints about school personnel or other persons at an open public session. Complaints involving school personnel or other persons are provided for by other channels.

Members of the Board may be in attendance at Board Meetings via telecommunications as provided by Idaho law.

At least one physical location in the state will be open and available for the public to attend meetings of the Board of Trustees in a public format. The physical locations of the meetings are noted on the posted Meeting Notice and Agenda.

Additionally, the Board will permit members of the public to utilize the same form of telecommunications devices that the Board is utilizing to attend the meeting, capacity permitting.

1. With the public able to attend meetings via telecommunications devices, the Board will exercise proper control over its meetings, including the rights or denial of rights to engage in communications with the Board during the meeting session, other than in the public comment portion of the Agenda, a specific section of the Agenda where an individual is presenting a report or segment of the meeting where the Board decides to recognize an individual to speak.
2. Should a member of the community seek to attend a Board meeting via telecommunications devices, such individual should communicate with the Head of School or Board's Clerk to obtain information as to how the meetings are held and the manner in which to access attendance.
3. Should a member of the public seek to speak during the public input segment of the regular meeting agenda, such individual should sign up to speak through communication with the Head of School or Board's Clerk in order to allow for proper communication access during the appropriate meeting time.
4. Members of the public will be blocked from attending Executive Sessions of the Board's Meetings held via telecommunications devices through the use of the Breakout Room feature or some other methodology to assure the confidentiality and sanctity of the Executive Session.

The Chairman has authority to terminate the remarks of any individual who does not adhere to the above rules. Requests may be directed to the Board, but no action will be taken on any item not on the published agenda.

SECTION 200 – THE ADMINISTRATION

201.0 ADMINISTRATIVE GOALS

The proper administration of the school is most vital to the success of the educational program. Although the Head of School shoulders most of the responsibility within the policies set forth by the Board of Directors, neither the Head of School nor the Board of Directors can make all important decisions within the framework of the school. The Administrative team will actively be involved in ensuring the compliance with all Board Policies and procedures and compliance with the Idaho Public Charter School Commission and K12 Service Agreement policies and procedures.

The administration and the school staff are in direct, daily contact with students and families. Therefore, they are most directly responsible for educational results. In keeping with this responsibility, administrators must have commensurate authority.

The design of the administrative organization will be such that Idaho Technical Career Academy is part of one single system subject to the policies set forth by the Board of Directors and implemented through a single chief administrator, the Head of School. Within the policies and regulations, administrators will be responsible and accountable for the administration of all programs of the school.

Major goals of the administration of the Idaho Technical Career Academy will be:

- To provide effective leadership for the school's various units and programs.
- To provide professional advice and counsel to the Board of Directors and to any advisory groups established by Board of Directors action.
- To implement the management function so as to ensure the best and most effective learning environment through achieving such sub-goals as: (a) providing leadership in keeping abreast of current educational developments, especially as they relate to virtual teaching, learning and best practices; (b) arranging for the staff development necessary to the establishment and operation and management of learning programs that better meet more learner needs; (c) coordinating cooperative efforts at improvement of learning programs, testing facilities, equipment, and curriculum materials; and (d) providing access to the decision-making process for staff, students, parents, and others.
- To develop and maintain close working relationships and open channels of communication within the school and the communities served by the school.
- To facilitate the assessment of educational priorities and the development of annual administrative/ Board of Director objectives.
- To encourage a proactive problem-solving approach within the school.
- To maintain positive relationships with the Board of Directors, school administration and all school employees.
- To assure the School's compliance with policies and procedures enacted by the Board of Directors.
- To assure the School's compliance with the authorized Charter and to be responsible for the day to day supervision and evaluation of performance of school's employees.
- To assure the School's compliance with K12 Services Agreement.
- To work toward progress on the School's identified goals in its Performance Certificate as well as any identified charter renewal conditions.
- Communication and compliance with the Charter Commissions rules and regulations.

The basic requirements and basic job descriptions for administrative personnel for the ITCA school program is detailed in the ITCA Charter and is hereby adopted and incorporated into Board policy. The Board does recognize that with the growth of the school, additional administrative positions will become necessary and approved. The Board, in conjunction with the Head of School and K12 will have a detailed understanding of the responsibilities of each such new position. In addition to each such job description, the Board may from time to time address and identify additional or specific duties to be performed by each member of the administrative team.

Adopted: April 2014

Amended: August 2020

202.0 HEAD OF SCHOOL

The Head of School is the chief operating officer of the school system and has, under the direction of the Board of Directors, general supervision of all the school and all of the personnel and various personnel departments of the school. The Head of School is responsible for management of the Board of Directors' policies and is accountable to the Board of Directors.

The Head of School, at his or her discretion, may delegate to other school personnel the exercise of any powers and the discharge of any duties imposed upon the Head of School by these policies. The delegation of power or duty, however, will not relieve the Head of School of ultimate responsibility for the action taken under such delegation.

Where the Board of Directors has provided no guidelines for administrative action, the administration shall have the power to act; however, such actions may be subject to review by the Board of Directors.

The Head of School shall be responsible for specifying the duties of all other administrators and holding each accountable by evaluating how well these duties have been performed.

202.2 HEAD OF SCHOOL'S DELEGATION OF POWERS

The Board of Directors recognizes and appreciates the supervisory and administrative position of the Head of School. The Head of School shall act as the authorized representative of the Board whenever such is required, unless some other person shall be or has been specifically named by the Board to act as an authorized representative. Therefore, the Board hereby delegates all powers, not specifically otherwise limited elsewhere in Board policy or state statute, to the Head of School and designee of the Head of School.

The Board recognizes that the Idaho Code grants the power to the Board to suspend, grant leave of absence, place on probation, or discharge certificated professional personnel for material violations of lawful rules or regulations of the Board or of the State Board of Education or for any conduct which could constitute grounds for revocation of a teaching certificate. The Board recognizes that there are situations which arise concerning certificated employees which may require immediate action, including a suspension or leave of absence. Thus, the Board has determined that if the Head of School or the designee of the Head of School determines there exists reasonable articulable suspicion to believe that a certificated employee has engaged in a material violation of any lawful rule or regulation of the Board of Trustees or of the State Board of Education, has engaged in conduct which could constitute grounds for revocation of a teaching certificate, or is the subject matter of an investigation where the presence of the certificated employee may unduly influence or undermine a personnel investigation, the Head of School or designee of the Head of School shall have the authority to suspend/place on administrative leave, with pay, the certificated employee pending the next regularly scheduled Board meeting or for twenty-one (21) business/school days, whichever comes first.

204.0 ADMINISTRATIVE STAFF

The Head of School's administrative staff is organized on the premise that the multiple responsibilities of the Head of School can be better served by establishing a means which will permit the best thinking of all staff members to be brought to bear on school problems. Although the Board of Directors and the Head of School cannot absolve themselves from legally constituted responsibilities, the team provides for a two-way flow of information and unified action on the part of team members.

The members of the staff also act in an advisory capacity. Their mission is to gather ideas, to present reactions of school personnel, to express opinions, and to interpret school policy to other staff members in light of detailed information they receive through discussions in meetings.

Adopted: April 2014

Amended: August 2020

204.1 ADMINISTRATIVE STAFF AND COMMITTEES

The Board of Directors authorizes the Head of School to establish such permanent or temporary staff and committees as he/she finds necessary and only as budgeted for proper administration of Board of Director policies and for the improvement of the total education program.

All staff and committees created by the Head of School will be for the purpose of obtaining to a maximum degree the advice and counsel of administrative and supervisory personnel of the school and to aid in communication. Functioning in an advisory capacity, such groups may make recommendations for submission to the Board of Directors through the Head of School. However, such groups will exercise no inherent authority. Authority for establishing policy remains with the Board of Directors, and authority for implementing policy remains with the Head of School.

The membership, composition, and responsibilities of administrative staff and committees will be defined by the Head of School and may be changed at his/her discretion.

Adopted: April 2014
Amended: August 2020

A temporary absence is defined as a vacation period, attendance at national conventions, Head of School Summits, and/or any other periods when the Head of School would be out of immediate contact or presence in the school for over twenty-four (24) hours.

When so appointed, the acting Head of School will assume all duties which are the responsibility of the Head of School, with particular emphasis on emergency and day-to-day decision making. The acting Head of School will not be expected to deal with matters requiring long-term planning or preparation unless specifically so assigned by the Head of School.

The acting Head of School will take special care to keep the Board of Directors informed as to any departure from normal routine.

The ITCA permits the employment of qualified relatives of employees of the employee's household or immediate family as long as such employment does not, in the opinion of the ITCA, create actual conflicts of interest. For purposes of this policy, "immediate family" is defined as a spouse, child, parent, sibling, grandparent, grandchild, aunt, uncle, first cousin, corresponding in-law, "step" relation or any member of the employee's household. The ITCA will use sound judgment in the placement of related employees in accordance with the following guidelines:

- Individuals who are related by blood, marriage, or reside in the same household are permitted to work in the same department, provided no direct reporting or supervisor to subordinate relationship exists. That is, no relative's work responsibilities, salary, hours career progress, benefits or other terms and conditions of employment could be influenced by the other relative.
- Related employees may have no influence over the wages, hours, benefits career progress and other terms and conditions of the other related staff members.
- Employees who marry or become part of the same household while employed are treated in accordance with these guidelines. If, in the opinion of the ITCA, a conflict arises as a result of the relationship, one of the employees may be transferred at the earliest practicable time.
- In circumstances where a supervisor and an employee or independent contractor have a close personal relationship which can reasonably be perceived as potentially compromising the supervisor's and/or employee's/independent contractor's ability to function independently, the relationship and the parties will be subject to the provisions of this policy.

Procedure: To avoid even the appearance of collusion or unfairness, the Administrator of ITCA who wishes to employ or hire the relative must disclose the following to the Board of Directors by memorandum:

The preparation of proposals will be consistent with the budgetary practices of ITCA.

309.1 EMPLOYEE EXPENSES

Idaho Technical Career Academy teachers, administrators, and Board members must travel in the course of conducting business for the Academy. The Board of the Idaho Technical Career Academy recognizes this and will reimburse business related expense as follows:

Process for employee reimbursement: Eligible employees should submit their expenses, along with any pertinent receipts and mileage maps/routes (MapQuest/Google Maps) through the NetSuite system. If you are unsure as to how to do this, please contact Human Resources or your immediate supervisor for directions.

Employees are cautioned to ensure they are asking for reimbursement only for those items deemed reimbursable. See further in this policy. When in doubt, it is always wise and advisable to check with the Human Resource Manager prior to making any purchase to see if that item is reimbursable.

Mileage is currently reimbursed at the rate of \$.50 per mile. Private vehicles may be used only if the owner is insured under a liability insurance policy that complies with section 33-5204, Idaho Code. The school may arrange vehicle rental for employees when appropriate.

The LEA requires that employees traveling to and from school-sponsored events or professional development meeting, carpool together with other employees from their region to said events if a reasonable carpool is available. Often these carpools are set up by the District Office and rented vehicles are secured for these types of events.

If an employee cannot or chooses not to carpool to school-sponsored events or professional development meetings when a reasonable carpool option is available, then the employee may travel in their own vehicle to the event or professional development but will not receive mileage reimbursement for said travel. Any exception to this rule must have the approval of the Head of School or their designee.

From time to time, flight arrangements will be made for those employees who must travel to a school-sponsored event or a professional development meeting. If an employee chooses not to travel by airplane to said events, he/she must inform the School's Office prior to the flight arrangements being made and his/her supervisor of the change in travel plans. In this type of instance, the employee will be reimbursed

the cost of mileage that is equal to the cost of the airline ticket or the actual mileage amount, whichever is the least amount.

Flight change requests made by the employee will be at the expense of the employee.

Virtual ITCA employees in residence outside of Boise or Arco who are required to work out of their home offices as well as the ITCA offices are required to commute at their own expense to the nearest office.

Mileage one way to destination (outings, airport, etc.) must exceed 20 miles (such as outings, airport, etc.).

Miscellaneous expenses (parking, taxis, subway, etc.) will be reimbursed. Receipts are required. Tips are the responsibility of the employee.

Meals will be reimbursed when travel requires more than 200 miles of travel in one day, or when travel requires an overnight stay, or when the employee is required to travel prior to 7:00 a.m. or after 7:00 p.m.

- Employees may request per diem for meals as follows:
 - Up to \$11.00 for Breakfast
 - Up to \$12.00 for Lunch
 - Up to \$19.00 for Dinner
- You may be reimbursed for meal gratuities. Gratuities count toward the applicable maximum meal rate.

502.1 ITCA POLICY GUIDELINES: PUBLIC RELATIONS AND GOVERNMENT AFFAIRS

PUBLIC RELATIONS

The preferred ITCA spokesperson for media relations is the Board Chairman. The Board Chairman and/or the Board of Directors as a whole may designate another individual to serve as the media contact for ITCA.

In certain instances, and relating to certain inquiries, media relations may be best directed to ITCA's Head of School. This decision should be made on an individual case-by-case basis at the discretion of the Board Chairman or individual who has been designated by the Board to serve as ITCA's media contact.

PUBLIC PRESENTATIONS BY THE BOARD

ITCA is often requested to make presentations to various governmental organizations. The preferred spokesperson for ITCA at any such presentation is the Chairman of the Board or the Head of School. The Board Chairman and/or the Board of Directors as a whole may designate another individual to serve as chief presenter for ITCA.

All Board Members will be advised of presentations that are going to be made, or have been made, since the last Board meeting, on behalf of ITCA to a governmental organization. All efforts will be made to assure that timely notice of these presentations is given.

If a written or technological presentation is going to be made on behalf of ITCA, all efforts will be made to share such written presentation materials with all ITCA Board Members and Administration prior to the presentation.

The vast majority of all presentations sought by ITCA are relating to factual information regarding the school. Should the Board be requested to make a presentation as to the school's position on an issue, all efforts will be made to address such inquiry with Directors for input.

DOCUMENTATION OF INQUIRIES

An employee of ITCA will be designated by the Board to log and record all communications received from media outlets and/or governmental agencies. The purpose of such recording will be to assure that inquiries are responded to in a timely and appropriate manner. To the extent possible, such logging shall also include the outcome of the received communication, who handled such and on what date.

LEGISLATIVE MATTERS

During the legislative session, regular meetings of the Board will include an agenda topic addressing the status of various legislative proposals which impact upon public schools and charter schools.

Adopted: April 2014

Amended: August 2020

503.0 PUBLIC'S RIGHT TO KNOW/IDAHO PUBLIC WRITINGS ACT

The minutes, policies, accounts, and other non-confidential and non-privileged records of the Board are public documents subject to potential public records requests.

The Board's Clerk and the Human Resources Director are designated by the Board as the Records Custodians of the school's records. Such personnel shall assure compliance with all requirements of the Idaho Code relative to requests for public writings.

WRITTEN REQUESTS FOR PUBLIC RECORDS

Any member of the public has a right to examine and/or obtain a copy of any non-confidential and non-privileged public record of the school.

The school requires that any individual seeking to obtain or request public records submit such request in writing. This submission may be done by email. This written request shall include:

1. Requester's name
2. Requester's mailing address/email address
3. Requester's telephone number.

While the Records Custodian will not and shall not make inquiry as to the purpose of the request, the Records Custodian may provide the requester with information to aid the requester in narrowing the

scope of the request or to assist in making the request more specific when the response to the request is likely to be voluminous or require payment.

GRANT OR DENIAL OF REQUEST FOR RECORDS

The school has no obligation to create records to provide information responsive to the request for public records but does have a good faith obligation to ascertain whether or not the school does have responsive documents which may be inspected and/or produced.

The Records Custodian, within a period of three (3) days from the date the request is received, will notify the requester as to whether or not the request will be approved or denied. If the Records Custodian deems that a longer time period is necessary to locate and retrieve the public records, the Records Custodian will notify the requester of this fact and shall notify in writing the person requesting to examine or copy the records and shall provide the public records to the person no later than ten (10) working days following the person's request. If electronic records are requested which need to be converted to another format by a third party, the ten-working-day-timeframe may be extended as provided by statute.

If responsive records do exist, the Records Custodian shall make the requested non-privileged and non-confidential records available for inspection. Such shall be done during regular working hours unless other arrangements are approved by the Records Custodian. The Records Custodian likewise shall make copies of the requested records available if that is the desire of the individual making such a request.

If the school denies the person's request for examination or copying of records or denies in part and grants in part the request, the Records Custodian shall notify the person in writing of the denial or partial denial and shall state in such notice the reason for the denial (e.g., such records do not exist; such records are privileged pursuant to FERPA) and shall state that the attorney for the school has reviewed the request or that the school had the opportunity to consult with the attorney regarding this request and has chosen not to do so. This notice shall also state to the requester information as to the right to appeal this decision and the time frame for addressing an appeal.

FEES AND FEE RELATED MATTERS

The school may charge fees associated with the cost of producing and/or making records available for inspection pursuant to the Public Writings Act and this statute.

- No fees shall be charged for the first two (2) hours of labor in responding to a request for public records or for copying the first one hundred (100) pages of paper records that are requested.
- The actual labor costs associated with responding to request for public records, including such acts as location, retrieval, copying and redaction of confidential/privileged information, in compliance with the limitations of the Public Writings Act, will be charged when the time involved in addressing such a request is in excess of two (2) hours.
 - If fees are charged, they shall reflect the personnel and quantity of time reasonably necessary to process the request and shall be charged at the per hour rate of pay of the lowest administrative staff employee or public official who is necessary and qualified to process the request. If a request requires redactions to be made by an attorney, the rate charged shall be no more than the usual and customary rate of the attorney who is retained by the school for that purpose.
- The cost of copies of public records through a formal public records request, beyond the first 100 pages will be charged at a cost of twenty-five (\$.25) cents per page.

- Should a response to a request be via computer disc, or some other such similar technological device, there shall be no charge for the cost of paper copies but rather a charge of the actual cost of the disc, and the actual transfer costs of personnel time will be imposed for the direct cost of copying the information in this format, including the possible cost of conversion of such must be performed by an outside third party source.
 - Before such a cost is incurred with an outside source, the requester will be notified as to the anticipated costs and an advance payment shall be required.
- A statement of fees by the school to the requester shall be itemized to show the per page costs of copies and the hourly rates of employees and/or attorneys involved in the response. No lump sum costs will be assigned to any public records request.
- A requester cannot lawfully engage in “serial” requests in an effort to avoid the fees association with production. If the school believes that such activity is occurring, the school may aggregate the requests and charge the appropriate fees.
 - Aggregation will not occur on multiple requests that are not related to the same general subject matter just because the requests are received from the same individual.
- The Records Custodian may require advance payment of fees prior to production of responsive records. Any portion of an advance payment in excess of the eventual final costs of labor and copying shall be returned to the requester.
 - The Records Custodian is required to obtain a payment advance in any situation where the response to any records request will result in the school incurring outside or third party costs.

FEE WAIVER REQUEST

A requester of documentation may also seek a waiver of the school’s fees associated with production. A waiver shall be granted by the Board only if, in the opinion of the board:

- The requester has demonstrated that the examination and/or copying of public records is likely to contribute significantly to the public’s understanding of the operations or activities of the government;
- The requester has demonstrated that the examination and/or copying of public records is not primarily in the individual interest of the requester, including but not limited to the requester’s interest in litigation in which the requester is or may become a party; and
- The requester has demonstrated that the requester has insufficient financial resources to pay such fees.

The decision of the Board responsive to a request for a fee waiver necessitates a quorum of the Board to meet and may result in a slight lengthening of the time for production of documentation.

PRIVILEGED AND CONFIDENTIAL DOCUMENTATION

Confidential and privileged records are not open to the public. This information includes but is not limited to:

- Student Educational Records;
- Student Discipline Records;
- Any records of a student protected by FERPA, Individuals with Disabilities Education Act (IDEA), or HIPAA;
- Employee Personnel Files;

- Matters addressed in Board Executive Session;
- Information about personnel, retired personnel and applicants as prohibited in disclosure pursuant to Section 9-340C, Idaho Code;
- Information deemed confidential pursuant to the Idaho Student Data Accessibility, Transparency and Accountability Act of 2014. (Section 33-133, Idaho Code as such may be amended and modified from time to time and such related IDAPA. adopted rules interpreting such Act).

ITCA will make all best efforts to assure that public solicitations and/or advertising will not occur in connection with the online school.

In all cases, the policies listed in this section will be executed by the Head of School at his/her discretion. When any group or organization is not satisfied with the judgment of the Head of School as exercised under this policy, it may petition the Board in writing.

The Head of School shall interpret this policy strictly. Exceptions may be made, when, in his/her judgment the best interests of the school will be served. In the case of differences of opinion, the decision of the Head of School will be final.

505.0 UNIFORM GRIEVANCE PROCEDURE

The Board recognizes that situations may arise in the operation of the system which are of concern to parents, employees, or the public. Such concerns are best dealt with through communication with appropriate staff members and officers of ITCA, such as the faculty, the central office and the Board.

The following guidelines are the proper procedure to be followed in seeking to resolve complaints/grievances of certificated staff, students and parent/guardians. This policy is inapplicable to classified employees. Classified employees are to raise complaints/grievances solely through Policy 801.5.

GRIEVANCE PROCEDURE:

This Uniform Grievance Procedure should be followed if a grievant believes that the Board, its employees, or agents have violated the grievant's rights guaranteed by the state or federal constitution, state or federal statute or written Board Policy or written Board Procedure. Hereinafter, such will be referred to as "grievance".

Any other concerns or complaints not encompassed by the definition of a grievance shall be directed to the teacher, immediate supervisor, program administrator, Human Resources Manager, or Head of School. These concerns or complaints will not be processed through this grievance policy but will be handled informally by the school's administration.

The school shall endeavor to respond to and resolve complaints without resorting to this grievance procedure. However, if a grievance is filed, to address such promptly and equitably. Use of this policy in an effort to resolve one's grievance is not a prerequisite to such individual seeking out other remedies. However, use of this policy and procedure does not extend any filing deadline with regard to pursuit of any other remedy.

STEP ONE:

A grievant is encouraged to first discuss such grievance with the school employee or agent involved, (i.e. the teacher, counselor, or administrator). The goal of such communication will be an effort to resolve the matter promptly and informally.

An exception to this is with regard to any claim of sexual harassment, which should be directed to the school's Non-Discrimination Coordinator at the School's Administrative Offices.

STEP TWO:

If a grievant does not have resolution at Step One, the grievant may file a written grievance. The Idaho Technical Career Academy Title IX Formal Complaint Form must be used for any Title IX grievance. Title IX includes complaints based on sex discrimination, including complaints of sexual harassment or sexual violence. All other written grievances shall detail:

1. A synopsis of the facts giving rise to the alleged grievance
2. Verification of any efforts taken to resolve the grievance informally
3. The written Board policy, the provision of state or federal statute alleged to have been violated, and/or the provision of the state or federal constitution alleged to have been violated
4. The alleged date of the violation
5. The actor involved in the alleged violation
6. The remedy that is being requested

The Step Two written grievance or Title IX Formal Complaint Form must be signed and dated by the grievant and filed with the Head of School or the Non-Discrimination Coordinator (in the instances detailed below) within thirty (30) calendar days of the event or incident occurrence or from the date one could have reasonably become aware of such incident/occurrence.

If the written grievance is not filed within the designated time period, such grievance will not be processed by the school as a grievance.

If the grievance alleges a violation of Board Policy or Board Written Procedures, the Principal, program administrator or designee shall investigate and attempt to resolve the grievance. If either party is not satisfied with the Principal, program administrator or designee's written decision the grievance may be advanced to Step Three by requesting in writing that the Head of School review the Step Two decision. This request must be submitted to the Head of School within ten (10) calendar days of the issuance of the Step Two written decision.

If the appeal of such grievance is not advanced to the Head of School within ten (10) calendar days of the issuance of the Step Two written decision, the appeal will not be processed, and the grievance will be deemed at a conclusion.

If the grievance alleges a violation of Title IX, Title II, Section 504 of the Rehabilitation Act (Policy 1000.3), Sexual Harassment (Policy 710.0), Relationship Abuse and Sexual Assault (Policy 905.2) or the Idaho State Veteran's Employment Preference (Policy 704.0), the Principal, program administrator or designee shall turn the written grievance over to the school's Non-Discrimination Coordinator who shall investigate the Complaint. The School has appointed a Non-Discrimination Coordinator to assist in the handling of discrimination complaints. The Coordinator will complete the investigation and file the report with the Head of School within thirty (30) days after receipt of the written grievance. The Coordinator may hire an outside investigator if necessary or may use the additional assistance of a

designee. Upon receipt of the Title IX Formal Complaint Form, the school may offer supportive measures. Supportive Measures means non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the Complainant or the Respondent before or after the filing of a Formal Complaint or where no Formal Complaint has been filed. Such measures are designed to restore or preserve equal access to Idaho Technical Career Academy's Education Programs or Activities without unreasonably burdening the other party, including measures designed to protect the safety of all parties or Idaho Technical Career Academy's educational environment, or deter sexual harassment.

Supportive measures may include, but are not limited to, counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring of certain areas of the property, and other similar measures. If the Head of School agrees with the recommendation of the Coordinator, the recommendation will be implemented. If the Head of School disagrees with the recommendation of the Coordinator, and/or either party is not satisfied with the recommendations from this level, either party may make a written appeal within fifteen (15) calendar days of receiving the written report of the Coordinator to the Board for a proceeding.

STEP THREE:

Upon receipt of a written request to review the Principal, program administrator, designee's written decision at Step Two, the Head of School or designee shall schedule a meeting between the parties. The Head of School may request the presence of the Principal, Program Administrator, or Human Resources Manager to attend this meeting. The parties shall be afforded the opportunity to either concur or disagree with the Step Two report. Thereafter, the Head of School or designee may engage in whatever questioning or activities the Head of School or designee believes necessary under the circumstances. This Step Three process will be followed as long as the grievance does not allege a violation of Title IX, Title II, Section 504 of the Rehabilitation Act (Policy 1003.0), Sexual Harassment (Policy 71100), Relationship Abuse and Sexual Assault (Policy 905.2) or the Idaho State Veteran's Employment Preference (Policy 704.0). If the grievance does relate to one of the aforementioned policies, refer to Step 2 of this policy.

The Head of School shall decide the matter within ten (10) calendar days of the meeting with the parties. If the Head of School agrees with the written findings from Step Two, the recommendation will be implemented. If the Head of School rejects the findings from Step Two, the matter may either be referred to an outside investigator for further review or otherwise resolved by the Head of School. In either option, a written decision will be issued.

If either party is not satisfied with the decision of the Head of School, the Board is the next avenue for appeal. The Head of School's decision will be sent via certified letter. A written appeal must be submitted to the Board's clerk within ten (10) calendar days of the Head of School's decision being sent.

If the written appeal is not submitted to the Board's clerk within the designated time frame as stated herein, no appeal will be processed to the Board level and the grievance will be deemed at a conclusion.

Appeals to the Board's level must either be a grievance based upon an alleged violation of the school's written Board Policies or come to the Board through the Non-Discrimination Coordinator

Process. Any individual appealing any decision of the Head of School to the Board bears the burden of proving a failure to follow Board policy.

STEP FOUR:

Upon receipt of a written appeal of the decision of the Head of School of an appeal through the Non-Discrimination Coordinator process, the matter shall be placed upon the agenda of the Board for consideration no later than the Board's next regularly scheduled meeting. There is no requirement that the Board conduct a hearing or hold a meeting with the parties. The Board has sole and complete discretion in determining how it will review any appeal.

The Board shall thereafter make a decision and shall report such decision in writing to the appropriate parties within thirty (30) days of the Board meeting. The decision of the Board will be final.

Written grievances received by the Head of School involving ITCA personnel will be made available to the affected personnel. The Board considers it the obligation of employees of the ITCA to entertain the questions of parents or the public.

The Board shall have established an email link on the ITCA website to allow for members of the public to provide general comments, suggestions and/or complaints. A procedure will be established by the Board to review and address all email received on this website address.

All employees of ITCA shall be free from abuse by parents or other adults. Any adult who upbraids, insults, or abuses any teacher at ITCA, especially in the sight, presence, or hearing of a pupil, is guilty of abuse, as provided in this policy. ITCA will have a form that can be completed outlining this information. The Idaho Technical Career Academy reserves the right to refuse any club or organization use of the facilities if the activities are not tied to the mission and vision of the school.

Any student or parent organization using any facilities of the Idaho Technical Career Academy shall be familiar with the policies of the school. No club or organization shall violate Idaho Technical Career Academy policies while using any facilities, including server connections.

A faculty observer from the Idaho Technical Career Academy must be present during any use of the school’s facilities. This faculty member shall be present to ensure compliance with school rules and policies. The faculty member shall not be considered a participator in the event and their attendance shall not be construed by the club or organization as school endorsement of said activity.

Adopted: April 2014

601.0 HIGH SCHOOL COURSES: FAILING GRADE POLICY

Parents/Guardians of ITCA students have 24/7 access to student grade information on the Learning Management System through the Learning Coach account and are strongly encouraged to view their students' grades on a daily basis. ITCA is responsible for advising the parent if their child is failing a course. It is a goal that this communication occurs within seven (7) days of the student's grade dropping below a passing level. School personnel will make every effort to communicate with students' parents either by phone, email, or regular postal mail. Parents/Guardians have a responsibility to read email and monitor student accounts on a regular basis.

601.1 TEACHER/STUDENT CONTACT FREQUENCY POLICY

The Idaho Technical Career Academy believes that consistent contact between the student and the teacher is critical to the success of the ITCA program. In keeping with this philosophy, ITCA teachers are required to offer regular classes to all students. Teachers and advisors are required to communicate with parents and students on a regular basis with the goal being no less than one individual communication every thirty (30) days. 602.0 CREDIT PROFICIENCY POLICY

In relation to High School Graduation Requirements:

In lieu of the credit requirements for graduation for High School, as provided for in School Policy 911.0, and Idaho Code 33-6404, a high school student may request credit for a course by demonstrating understanding of a subject area and content standards. Students will work closely with their assigned counselor to determine the best method to demonstrate understanding of a subject area and content standards to earn a high school credit. Students may earn a high school credit by taking an assessment/performance-based assessment, completing a presentation, completing a project, completing a paper/essay, creating a portfolio, or other methods as determined by student, teacher, administrator, and counselor.

A student may demonstrate understanding of a subject area and content standards to earn a high school credit by completing one or more of the following:

- **Assessment/Performance Assessment:** The assessment must include content standards for the course, the assessment will be scored by administrator and/or teacher, the assessment must be proctored and may be completed virtually or in-person. A student must pass the assessment with a score of 80% or higher. A student may only attempt to take the designated test to obtain credit via “testing out” of a class on two (2) separate occasions. For a student

to be given the opportunity to take a test to obtain mastery credit on a second occasion, the student must demonstrate, at the judgment of the school's administration, a reasonable ability to pass the test to obtain credit on a second attempt. (For example, if the test requires an 80% passing grade, the student shall be required to score at least 70% on the student's first attempt to take the test a second time.)

- **Presentation, Project, Paper/Essay, or Portfolio:** Presentation, project, paper/essay, and portfolio expectations will be outlined in collaboration with teachers and administrators. All presentations, projects, papers/essays, and portfolios must demonstrate an understanding of the subject area and content standards. A rubric will be aligned to the subject area and will measure understanding of content standards. Students must score 80% or higher to earn a high school credit.
- **Other:** Other methods independent of instructional time and credit hours will be considered. Any method will be determined in collaboration with the student, parent, teacher, counselor, and administrator. Any other method will have a rubric that is aligned to and measures understanding of subject area and content standards. Students must score 80% or higher to earn a high school credit.
- **Extended Learning Opportunities:** Idaho Code 33-6402 allows a student to request a credit for an extended learning opportunity by contacting their counselor. An extended learning opportunity may be completed by working with a nonprofit organization, business, trade association, the United States armed forces, etc. An extended learning opportunity may count for core or elective graduation requirements. A student will collaborate with their counselor and administrator to outline all expectations. The expectations will outline how the student will demonstrate understanding of required skills or standards to earn a core or elective credit. Credits earned outside of school via extended learning opportunities may not be used to calculate average daily attendance or enrollment for school funding purposes.

The grading scale for this policy is pass/fail. All credits earned via this policy will be posted to a student's high school transcript. There will be no appeal process for a student who disagrees with the outcome, or score obtained by any method selected to demonstrate understanding of subject area or content standards.

605.0 HIGH SCHOOL ADVANCED OPPORTUNITIES

The Technical Career Academy offers several Advanced Placement or College Credit opportunities for students. Per Idaho Code 33-4602, every student who attends an Idaho public school will be allotted \$4,125.00 to use in grades 7-12 through the Advanced Opportunities program. These funds can be used to pay for dual credit, overload courses, and college-credit-bearing/career technical exams, career technical certificate examinations, career technical education workforce training courses, college entrance examinations, and preliminary college entrance examinations

Students can utilize their funds of \$4,125.00 in the following ways:

- **Dual credits:** Dual credit courses are offered by various colleges and universities around the state. These courses may be taken on a college/university campus or online. The Advanced

Opportunities program will pay up to \$75.00 per credit. Fast Forward Funds do not cover the cost of books or additional fees associated with the course.

- **Overload courses:** In many instances, students are choosing to take high school courses in excess of their regular school day, either online or over the summer. Students can use these funds to cover up to \$225.00 per course to cover course costs associated with overload courses.
- **Examinations:** Students can utilize these funds to pay for college-credit-bearing and career technical examinations. These include Advanced Placement, International Baccalaureate, College Level Examination Program, and Career Technical Certification Exams.
- **CTE Courses:** CTE workforce training courses, such as federally registered apprenticeships, the distribution of which may not exceed five hundred (\$500) per course and one thousand dollars (\$1,000) per year.

Other benefits of the law allow public schools to exert flexibility for students in meeting graduation requirements by creating metrics by which students can test out of a course for high school credit. All students who graduate at least a full year early will be eligible for the Early Graduation Scholarship that can be used at any Idaho public post-secondary institution, equaling roughly \$1,500. The State's Advanced Opportunities program can provide funding for students who participate in Advanced Opportunities.

ELIGIBILITY REQUIREMENTS FOR ADVANCED OPPORTUNITIES

- Students must complete an Advanced Opportunities Participation Form and submit it to school staff.
- Currently enrolled or homeschool students must complete all required state and school testing.
- Home/private school students who are dual enrolling with ITCA for the purpose of using Advanced Opportunities funds, and who are not intending to graduate with ITCA, must meet the following eligibility requirements:
 - Must complete and sign ITCA's Homeschool Advanced Opportunities form during enrollment and prior to utilizing Advanced Opportunities Funds.
 - Must successfully complete a full semester course load consisting of ITCA high school level curriculum.
 - Students enrolling in college-level courses must meet all requirements outlined by the college and ITCA for high school officials to verify (i.e., GPA requirements, age). ITCA will not be able to verify requirements outlined by the college for students until a student has successfully completed a full semester with ITCA.
- To qualify for the Early Graduation Scholarship, students must complete an application online within the Idaho State Department of Education's Advanced Opportunities portal. Failure to apply will result in ineligibility of funds.
- Students are responsible for creating a student account and applying for Advanced Opportunity Funds within the State Department of Education's Advanced Opportunities portal. The school will give final approval of all student funds.
- Advanced Opportunity funding is available until the end of a student's expected cohort graduation date and is available for students in grades 7-12. Any student who extends graduation to a 13th school year will not be eligible for Advanced Opportunity funding.

A student who has earned fifteen (15) post-secondary credits using the Advanced Opportunities program and wishes to earn additional credits must first identify their post-secondary goals. Advisors shall counsel any student who wishes to take dual credit courses that the student should ascertain for themselves whether the particular postsecondary institution the student desires to attend will accept the transfer of coursework, credits, and/or grades under this program.

702.2 EMPLOYEES PROVIDING PROFESSIONAL SERVICES OUTSIDE THE LEA

ITCA employees are compensated for the completion of their professional duties. Professional duties include, but are not limited to: being present during the scheduled work/school day; planning and providing instruction; grading and evaluating student progress, supervision of students; communicating frequently with colleagues, parents, and students; participating in faculty meetings and professional development activities; and contributing to school improvement activities. The definition of the workday is contracted days between, but not limited to, the hours of 8:30am and 4:00pm in the employee's time zone. We do recognize that many, if not most, professional employees engage in job related duties and activities during hours which may be outside of the workday.

The LEA recognizes that from time to time, employees may offer their professional services to other professional entities, including academic institutions. The LEA does not object to this providing the following:

- The offering of said services does not violate the definition of a compensated workday as described in the first paragraph of this policy and does not interfere with the employee's performance of duties for the LEA;
- The employee does not use equipment, materials, or intellectual property that is considered the sole property of the LEA or its education and management services provider, K12, Inc.;
- The actions of the employee are not attributed to the school but rather to the other professional entity and/or academic institution; and
- The employee's actions remain consistent with the provisions of the Code of Ethics for Idaho Professional Educators, including but not limited to the unauthorized solicitation of students or parents of students to purchase equipment, supplies or services from the educator, who will directly benefit (IDAPA 08.02.02.076.07.a).
- The employee's outside work does not interfere with the employee's job duties or responsibilities for ITCA or otherwise serve as a conflict of interest with ITCA employment.
- An employee must notify his/her supervisor and Human Resources of any outside jobs and any time outside job status changes if the timeframe is within the employee's ITCA contract dates or

stipend contract dates. Any employee desiring to take an outside position with another professional entity and/or academic institution, or is currently working for said type of entity or institution, is required to fill out the Request to Work Outside the LEA form and submit it for approval to Human Resources. Human Resources will present the request to the Board of Directors for their approval. An employee must notify his/her supervisor of any change in his/her Board approved “employment outside of the LEA” status.

- If it is determined by the ITCA Board of Directors that the employee’s outside the LEA’s work is inappropriate, conflicts or interferes with the employee’s performance, safety, availability or the ability of the employee to meet the job requirements of his or her position with the LEA, as they are modified from time to time, the employee may be asked to terminate the outside employment if he or she desires to remain with Idaho Technical Career Academy.

To that end, the Human Resources Department/Manager may, from time to time and when appropriate, participate in job fairs, advertise for needed positions, and otherwise use the appropriate and budgeted means to seek out and recruit needed employees for the LEA. The LEA does not provide reimbursements to employees for relocation costs.

702.5 ASSIGNMENT AND TRANSFER OF CERTIFICATED EMPLOYEES

No certificated employee shall be transferred into a program without consultation with the program's Principal, unless the transfer is being made due to shifting student population levels.

Likewise, no newly retained teacher shall be assigned to the Principal's program without consultation with the Principal.

Should the Principal have an objection to a proposed personnel transfer or new employee assignment to the Principal's program, the Principal shall put such objection in writing, documenting the basis for the objection and then the Principal and the Head of School shall meet to address the concern and determine if a solution can be reached.

702.7 RESIGNATION AND RELEASE FROM CONTRACT OF CERTIFICATED EMPLOYEES

Resignation and/or Non-Return to the School

Certificated employees will notify the Board of Directors of the Idaho Technical Career Academy in writing, as soon as possible, if he/she does not intend to return to LEA #489 for the next school year. The school would appreciate notice prior to June 1 if the employee is aware of the intention not to return as such notice may impact the existence of a job for one of the employee's fellow teachers.

When the Board has issued contracts for the next ensuing school year, any person in receipt of such contract has a period of ten (10) calendar days to return such signed and accepted contract to the school. If such is not returned to school within the ten (10) day time frame, or as otherwise extended for all certificated personnel in any given year by the Board of Directors, or should a person in receipt of such contract willfully refuse to acknowledge receipt of the contract, the Board has delegated to the Administration the authority to declare the position vacant and start the process for recruiting a replacement.

Post-Issuance Resignation/Request for Contract Release

A certificated employee wishing to submit a resignation or a request for release from contract after the contract has been signed will present a written request to the Head of School. The certificated employee is not released from such contract until the Board takes action allowing for such release.

The employee must adequately demonstrate the specific reasons for his or her resignation to the Board of Directors. The Board's decision, in part, will be determined by the ease with which an acceptable, qualified replacement can be found as identified by the Head of School and the Board. In arriving at its decision, the Board of Directors will consider such factors as:

- The timeliness of the request or resignation;
- The reasons given for the request or resignation;
- The difficulties that might be expected in securing a satisfactory replacement; and
- The extent to which release or denial of release from the contract will contribute to the welfare of the LEA #489.

Should any certificated employee vacate his or her position, mid-contract, without specific release by the Board, the Board of Directors of Idaho Technical Career Academy and/or the school's Idaho Certificated Administrators shall file a complaint with the Professional Standards Commission alleging unethical conduct pertaining to the abandonment and breach of the teaching contract.

702.8 INFORMAL REVIEW OF CERTIFICATED EMPLOYEES

LEA #489 will use the following procedures when a certificated employee is entitled to an Informal Review procedure pursuant to the provisions of the Idaho Code.

Upon an employee receiving notice of an event which would trigger the statutory right to an Informal Review, the employee must submit a written request with the Board of Directors within ten (10) days of the date of notice of the event triggering the Informal Review opportunity. This ten (10) day period may be waived at the sole discretion of the Board should extenuating circumstances exist.

An Informal Review, by its definition, is an informal proceeding before the Board. This proceeding is not a due process hearing as would be provided pursuant to Idaho Code 33-513(5).

During an Informal Review, the administrative team who made the recommendation for an employee change triggering the right to an Informal Review will make a brief presentation to the Board as to the basis of this recommendation. Upon completion of the presentation to the Board the affected employee will then receive the right to make a presentation to the Board as to why the employment action is not appropriate.

- The Board may set a reasonable time limitation for each presentation
- The Board may receive documentary evidence from the Administration and the affected employee. What weight any such documentary evidence is given is solely within the discretion of the Board.
- The Board will allow the employee and the Administration to have representation at any informal review.

The Board will notify the employee, in writing, of its final decision in the matter within fifteen (15) days of the date of the Informal Review.

703.0 COMPLIANCE WITH THE AMERICANS WITH DISABILITIES ACT (ADA) REGARDING EMPLOYEES WITH DISABILITIES AND REASONABLE ACCOMMODATIONS

EMPLOYEES WITH DISABILITIES

It is the policy of LEA #489 that there will be no illegal discrimination against any individual on the basis of any protected classification including but not limited to a disability.

A person with a disability is one who:

- Has a physical or mental impairment that substantially limits one or more of the major life activities of the individual;
- Has a record of having such an impairment; or
- Is regarded as having such an impairment.

REASONABLE ACCOMMODATIONS

If an employee or applicant is considered to be disabled but is otherwise qualified to perform the essential functions of the position for which they are employed and/or applying, the school will engage in the interactive process with regard to reasonable accommodations to assist in the performance of the required tasks for the position.

Within the parameters of the law and with discussion with the employee and/or employee's health care providers, the school has the discretion and authority to determine the scope of reasonable accommodations.

Essential Functions are the fundamental duties of the position which the individual is holding or would hold should the individual become employed. The essential functions may be different for the various and different positions at the school and are determined on a case specific basis.

Reasonable Accommodations are modifications or adjustments to the work environment, the manner in which work is performed, or the job application process itself, which would enable the employee or applicant to enjoy the same benefits and privileges of employment as an individual without a disability.

Reasonable Accommodations do not include the reassignment of essential functions to other employees and/or a total change in the function, intent or essential functions of a position at the school.

REQUESTING ACCOMMODATIONS

In the event an employee or applicant believes that reasonable accommodations are necessary, he or she must submit the request in writing to the Head of School or designee. This action will commence the interactive process in addressing reasonable accommodation issues.

PRIVACY CONSIDERATIONS

The school's administrative team shall make all reasonable efforts to protect the privacy of employment and health records concerning any employee, specifically including any employee or applicant in need of an accommodation under the ADA.

In considering the requested accommodation, LEA #489 may require that the employee submit medical and/or other information to substantiate the request and may require that the employee undergo an independent medical examination. Any such information learned during the course of a medical examination will be held in the strictest of confidences.

ASSIST/SERVICE ANIMALS

The ADA defines a service animal as any guide dog, signal dog, or other animal that has been individually trained to provide assistance to an individual with a disability. Use of a service animal for employees with disabilities shall be addressed with the Director of Human Resources.

Should any complaint or grievance arise that in any manner associated with this policy the LEA's Non-Discrimination Coordinator shall be notified and, as appropriate, engage in an investigation or aid in resolution of such dispute.

Notwithstanding this subsection, LEA #489 is not required to interview more than a total of ten (10) applicants regardless of the number of such qualified veteran applicants.

Such refusal must be supported by good cause and it can be appealed pursuant to Idaho Code §65-506.

Should the Non-Discrimination Coordinator find that a veteran's preference right has been denied, the Non-Discrimination Coordinator shall communicate directly with the Head of School and the applicant in an effort to correct the denial of right or benefits under this policy and applicable law.

Should the Non-Discrimination Coordinator find that the applicant was not denied any right or benefit under this policy or applicable Idaho law, the Non-Discrimination Coordinator shall notify the Head of School and applicant of such finding, in writing.

Should resolution not be reached through this process, a veteran who believes he/she has been denied a right or benefit under these provisions may file an appeal with the board of trustees within thirty-five (35) calendar days of the alleged denial of preference. Such request must include the applicant/employee's full name and mailing address, a request for either a telephonic or face to face hearing (if telephonic, the telephone number where such hearing may be conducted must be included),

the position applied for (if applicable), a brief statement of the applicant's or employee's basis of eligibility for a preference, a brief statement of the issues the applicant or employee proposes to raise, and any dates or times they cannot be available for a hearing.

The applicant or employee may be represented by an attorney, at their own expense, if they so choose.

The decision to continue or discontinue programs and services, with corresponding staff reductions, shall be made by the Board of Directors on recommendation from the Head of School and administrative staff.

The Board of Directors recognizes that its primary purpose is to provide instructional programs and services to the students of Idaho Technical Career Academy. 4. **Retention of Employment Category:** Each certificated staff member will, in accordance with the criteria set forth in paragraph A-3-c hereof, be considered for retention in the category or specialty appropriate for which they have been contracted. Certificated staff members may also be considered for retention in such additional categories, specialties, and subject matter areas which they are not teaching but are currently certificated to teach with proper state endorsements.

All written requests for consideration in additional categories and/or specialties shall be submitted in writing within five (5) working days after the request for such information is made by the Head of School, or his/her designee. Within five (5) working days of the request for information by the Head of School or his/her designee, each certificated employee should also advise the Head of School of all courses, training or other relevant class work, that have been completed since the commencement of the school year.

Staff members will be considered for additional categories and/or specialization only if they do not qualify for retention in the category or specialty appropriate to the position held at the time of the implementation of these procedures.

In the event an instructional program or service is entirely discontinued by the Board of Directors and the person(s) employed therein is/are not currently certificated to work in

another position, then by necessity, that/those person(s) will be reduced or contract non-renewed regardless of seniority within the school.

5. Selection Within Employment Categories: Certificated staff members shall be considered for retention in available positions within the categories or specialties for which they qualify. In the event that there are more qualified staff members than available positions in a given category or specialty, the following criteria shall be used to determine which staff members shall be recommended for retention.
 - a. Retention recommendations will be based upon the employee the administration deems as the most qualified based upon previous performance appraisals.
 - b. Should two employees be deemed equally qualified, based upon previous performance appraisals, each of the following considerations will also be evaluated in determining which staff members shall be recommended for retention:
 - i. Degree status/level of education and credits completed by such employee;
 - ii. Number of areas for which a teacher is Highly Qualified;
 - iii. National Board Certification;
 - iv. Prior Disciplinary Actions;
 - v. Prior awards and honors.

No single one of the above criteria in subsection (b) will have greater or lesser weight than any other but rather will be viewed as an overall judgment consideration of the administration in the recommendation process and of the Board in making a final decision.

6. Action by the Head of School: The provisions above shall be implemented as soon as possible after the identification of the need for a reduced educational program.

The school may take action to terminate or non-renew a teacher with an Interim Certificate who fails to meet these requirements. Such termination or non-renewal shall be carried out in accordance with the applicable state law and administrative rule.

Regardless of the content of this Policy provision, decisions regarding the non-re-employment or discharge of certificated employees will be done consistent with the provisions of the Idaho Code applicable to such employee, as such Code provisions shall be amended from time to time. If this Code is amended subsequent to the adoption of this policy, the Code provisions shall prevail over any inconsistency between the Code and this policy.

Employees will not have to use flex time for jury duty.

The Administration reserves the right to deny flex leave during specific times of the school calendar.

Unused employee flex time does not carry forward or accumulate from year to year.

BEREAVEMENT LEAVE

All fulltime employees receive three (3) days of bereavement leave during the school year for certified personnel; during the fiscal year for classified personnel. Requests for bereavement leave are to be submitted to the employee's immediate supervisor (or in his/her absence, the next administrative person in charge) in writing as soon as is practical for the situation. Unused Bereavement leave does not carry over from one school/fiscal year to the next. Bereavement leave does not have to be taken as three (3) days all at once. It may be taken intermittently to accommodate late services or family gatherings.

Accumulation of Sick Leave: Unused sick leave will be accumulated from year to year, up to an unlimited amount of days as long as an employee remains continually in the service of ITCA. If a new employee has been employed by another district or state educational agency during the year immediately preceding, that individual's accumulated sick leave up to a maximum ninety (90) days will be secured for, and credited to, that new employee.

An employee of ITCA has the right to apply for an unpaid leave of absence within the current school year for the purpose of maternity/paternity/childcare/or adoption.

An employee requesting unpaid leave for maternity/paternity/childcare/or adoption may apply to the administration for such leave with sixty (60) days' notice, or as early as possible.

During such leave, the employee shall have the option to continue any/all benefits at the group rate, provided appropriate payment is made by the employee to Idaho Technical Career Academy on the first of each month.

It shall be the administrative procedure of the Idaho Technical Career Academy to allow any certified employee who chooses to use any/all sick leave accrued for the purposes of maternity leave.

SICK LEAVE BANK

The Sick Leave Bank is a fund of contributed sick leave days that is available, upon recommendation of the Sick Leave Committee, to all eligible, participating Idaho Technical Career Academy employees. To be eligible, one must be eligible for sick leave. This Bank is designed to alleviate the economic hardship caused by absence from work necessitated by extraordinary, catastrophic, or debilitating illness or injury extending beyond the employee's accumulated sick leave.

Each fulltime ITCA employee may choose whether he/she wants to participate in the Sick Leave Bank. During the initial year of employment, each participating employee shall contribute a minimum of one (1) day of his/her accumulated sick leave to the Sick Leave Bank, prior to the last day of the initial month of employment. Sick leave days thus contributed shall be deducted from the individual's sick leave entitlement.

On or before September 25th, of each year, the Sick Leave Bank Committee shall determine the number of additional sick leave days each participant must contribute in order to keep the Bank solvent. Contributions of additional days to the Bank must be done prior to the last day of September in order to maintain employee eligibility as a participant in the Sick Leave Bank. For any eligible employee to become a member of the Sick Leave Bank, he/she must have made a contribution to the Bank prior to the last day of September of the current school year.

In order for a participating employee to be eligible to apply for sick leave benefits from the Sick Leave Bank, the employee must first:

- Have been a contributor to the Bank.

- Have been absent continuously from work due to illness or accident for all of her/his accumulated sick leave days plus three (3) days where her/his salary has been reduced in full.
- Make application for five (5) or more days. Requests for less than five (5) days will not be considered.
- Must have demonstrated judicious use of sick leave in accordance with the Sick Leave Bank Committee's Guidelines.
- All sick leave days, including flex leave must be exhausted before sick leave bank days will be granted

Application for use of the Sick Leave Bank shall be submitted in writing to the Committee within fifteen (15) days following the use of all accumulated sick leave. The Committee shall review the request and determine the eligibility of the employee. The Committee shall require medical proof of the incapacitation at the time of application. Providing the grant is approved, the Committee may require additional medical proof of illness periodically throughout the interim of the grant.

Bank grants to individual employees shall not be carried over from one fiscal year to another. All such grants shall end at the termination of the School year. If an employee does not use all of the days granted by the Bank, the unused sick leave days will be returned to the Bank. In no case shall an employee be granted more than a total of one hundred eighty (180) days from the Sick Leave Bank for any and all illnesses or disabilities during any continuous four (4) year period of employment with Idaho Technical Career Academy.

The Sick Leave Bank Committee shall consist of the Head of School's designee and four (4) members selected from ITCA eligible employees. The Committee shall develop and distribute rules and procedures for the orderly administration of the Bank. The Committee shall be responsible for reporting to the School's Office the names of contributors and the number of days contributed. It shall report all days granted by the Bank and all other information necessary for the employee's records.

Decisions by the Sick Leave Bank are normally final. However, an employee who is denied sick leave days by the Committee may make a direct appeal to the Board of Directors.

COBRA LEAVE

Each employee will be given the opportunity to continue health insurance coverage under COBRA provisions, when leaving the employment of the Idaho Technical Career Academy.

LEAVE WITHOUT PAY

A written request must be submitted to the Head of School for any leave without pay. This applies to a request for a single day of leave without pay as well as to extended absences. Leave without pay without approval from the Head of School may be considered a breach of contract. Requests for any leave without pay shall set out the anticipated date when the staff member plans on returning to work, subject to possible change.

All qualified employees of LEA #489 may take leave as provided by the FMLA. The FMLA entitles eligible employees to take up to twelve (12) weeks of unpaid, job-protected leave during a twelve-month (12-month) period for specified family and medical reasons. An eligible employee is defined as an employee who:

- Has been employed by LEA #489 for at least twelve (12) months; and
- Who is a certified employee whose contract is at least a .5 contract or someone who is a fulltime classified employee; in either case the employee has to be employed with LEA #489 for a twelve month (12 month) period immediately preceding the commencement of the leave.

BASIS FOR TAKING FMLA

FMLA leave may be taken by an eligible employee for any of the following reasons:

- To care for the employee's child after birth or placement of a child with the employees for adoption or foster care;
- To provide care for the employee's spouse, child, or parent, who has a serious health condition; or
- For a serious health condition that makes the employee unable to perform the employee's job.

FMLA may also be applicable in some military caregiver circumstances.

In addition to the foregoing, the following provisions of the FMLA are applicable to qualifying school personnel:

- Twenty-six (26) weeks of FMLA leave is available to a qualifying employee to take unpaid time off of work to care for a spouse, child, parent or next of kin (defined as a nearest blood relative) recovering from a serious illness or injury sustained in the line of duty on active duty.
 - Military caregiver leave is available during a single twelve (12) month period during which an eligible employee is entitled to a combined total of twenty-six (26) weeks of all types of FMLA.
 - Military caregiver leave is applied on a per-covered service member per injury basis.
- Twelve (12) weeks of FMLA leave is available to a qualifying employee to take unpaid time off of work because of a qualifying exigency arising out of the fact that a covered employee's spouse, child, or parent is on active duty or has been notified of an impending call to active duty in the U.S. Armed forces.

Determination of an employee's eligibility and definition of applicable terms for military caregiver for FMLA coverage will be in accordance with established law and the FMLA regulations published on November 17, 2008 and as may be thereafter amended.

Any accrued paid leave used by an employee for absences which qualify for FMLA coverage will be counted as FMLA leave, unless the Idaho Technical Career Academy determines otherwise.

LEA #489 will comply with all mandates of FMLA regarding health insurance coverage and will provide any necessary notice of termination of such insurance coverage due to the employee's failure to pay his/her portion of the premium or the employee's request for termination of coverage.

Before an employee returns to work after FMLA leave for a personal illness, he/she may be requested to provide a “fitness-for-duty” certificate to the school administration.

707.3 UNIFORMED SERVICE LEAVE

In addition to the various provisions of School Policy 707.1 Flex Leave, pursuant to applicable laws, the ITCA shall also provide eligible employees with leaves of absence for Uniformed Service training or active duty in the Uniformed Service.

GENERAL POLICY

All ITCA employees, certificated and non-certificated, other than those employed on a temporary status, are entitled to Uniformed Service Leave of Absence when such individual is ordered to duty in any Uniformed Service.

NOTICE OF DUTY

Any employee called to duty should provide notice of upcoming Uniformed Service obligations as soon as such individual receives notice of this obligation. The employee, spouse or family member of an employee or an appropriate officer of the branch of Uniformed Service in which the employee will serve may provide the notice to the school.

Limited exceptions to this notice requirement will exist when service necessity prevents the giving of notice or the giving of notice is impossible or unreasonable.

NOTICE OF RETURN

Upon completion of Uniformed Service obligation, employees shall give evidence of the completion immediately thereafter or if aware of a return date earlier than actual completion, at the earliest possible notification date. The employee shall be restored to his/her previous or similar position with the same status, pay, leave entitlements, advancement and seniority.

Standardized Uniformed Service lengths and reporting times are as follows:

- 1 to 30 days of Uniformed Service: The employee is to report to the school by the beginning of the first scheduled work day that falls eight (8) hours after the end of the last calendar day of Uniformed Service unless specifically extended, pursuant to written request, by the Board.
- 31 to 180 days of Uniformed Service: The employee shall report no later than fourteen (14) days after completion of service in the armed forces. If the 14th day falls on a non-working day, then the employee shall report on the next following workday, unless specifically extended, pursuant to written request, by the Board.
- 181 days or more of Uniformed Service: The employee shall have up to ninety (90) days after completion of the Uniformed Service to seek to return to work. If the 90th day falls on a non-working day, then the employee shall report on the next following workday, unless specifically extended, pursuant to written request, by the Board.

- Cases of Disability: employees who are hospitalized or recovering from a disability that was incurred or aggravated during the period of Uniformed Service leave have up to a period of two (2) years to seek to return to employment.

There is an exception to these stated guidelines for those employees who, through no fault of their own, find themselves in a situation that makes it impossible or unreasonable to meet the required timetables. In those cases, the employee must return to work as soon as possible.

LONG TERM DUTY

Employees who are called to serve in any Uniformed Service capacity (beyond fifteen [15] days) shall be entitled to reinstatement of their former position or comparable position upon return from such duty so long as the provisions of this policy are followed.

The ITCA will pay the employee's salary while the employee is on Uniformed Service leave for up to a period of two (2) weeks. For any period of duty exceeding two (2) weeks, up to the term of the teaching contract, the employee shall be entitled to receive from the school salary or wages equal to the difference between the employee's Uniformed Service pay and the employee's school salary, provided the employee's Uniformed Service pay does not exceed school salary or wages. The employee must provide the school with all documentation necessary to permit this calculation.

If the period of leave is beyond the period of the contractual term, the employee will not be paid their contractual salary for a new contract period but will be permitted to utilize and access any unused flex time or sick leave time for compensation.

Employees who do not request school compensation or who fail to provide documentation requested pursuant to this policy shall not be entitled to any school provided salary as outlined herein.

An employee performing Uniformed Service duties for less than a period of thirty (30) days will not be required to contribute more than the employee's typical monthly contribution for benefits, if any. If the employee's Uniformed Service services are for a period greater than thirty (30) days, continued coverage will be offered to the same extent that such benefits are available to other employee's on leave.

SHORT TERM DUTY

Employees who are required to attend annual training or special duty for training, during the course of the contract days, shall not suffer any loss of salary, seniority or evaluative rating during the first fifteen (15) days of such absence in any school year. Leave will also be without loss of benefits.

Employees subject to this policy shall be provided both a copy of this policy and notice of the rights and benefits under the Uniformed Services Employment and Reemployment Rights Act of 1994.

708.0 SUBSTITUTE TEACHERS

Recognizing the necessity to provide the students of this school with a quality educational program when the certificated employee is absent or when it is deemed necessary, it is the policy of the board of directors of this school to recruit and hire qualified substitute teachers.

The Head of School is authorized to hire substitute teachers on an as-needed basis. Substitute teachers are classified at-will employees. They will be scheduled for work on an as-needed basis. Nothing herein shall commit the school to scheduling a particular individual to work as a substitute teacher. The rate of pay, for substitute teachers, will be determined by the board as part of the annual budget.

If possible, substitute teachers hired by the school will be certified to teach in the state of Idaho. The board will approve a job description, setting forth minimum qualifications and duties for teachers; and assign such duties and responsibilities as deemed appropriate. Factors to be considered in scheduling substitute teachers include, but are not limited to, the length of the certificated employee's absence, the complexities of the subject matter, educational and teaching experience, and the other available assignments.

PROCEDURES

Each substitute teacher will be assigned a staff member for resource.

The length of a substitute teacher's assignment day will depend upon the duties assigned and the length of the assignment. This will be determined by the administrator in charge or his/her designee.

The substitute teacher is responsible for completing a timesheet and submitting it to the administrator in charge for approval. The administrator will sign it and then forward it on to the Business Manager.

Long- and short-term substitute duties will be in accordance with the ITCA teacher job description.

709.1 EVALUATION PROCESS AND CONTENTS FOR CERTIFICATED EMPLOYEES AND PUPIL PERSONNEL CERTIFICATE HOLDERS

The Idaho Technical Career Academy Board has a firm commitment to performance evaluation of school personnel, whatever their category and level, through the medium of a formalized system. The primary purpose of such evaluation is to assist personnel in professional development and in achieving school goals. This policy applies to certificated personnel and pupil personnel certificate holders.

The Superintendent is hereby directed to create procedures that differentiate between certificated non-instructional and certificated pupil instructional personnel in a way that aligns with the *Charlotte Danielson Framework for Teaching, Second Edition* to the extent possible, district evaluation policies, and the pupil service staff's applicable national standards.

Each certificated staff member shall receive at least one (1) written evaluation to be completed no later than June 1st for each annual contract year of employment and shall use multiple measures that are research-based and aligned to the *Charlotte Danielson Framework for Teaching, Second Edition* domains and components. The evaluation of instructional personnel shall annually include a minimum of two (2) documented observations, one (1) of which shall be completed prior to January 1st.

The evaluation of each certificated employee will be in writing, based upon observations of the employee's performance and other relevant factors, and will reflect whether or not the employee is performing satisfactorily. Employees will be ranked in a fair and consistent manner as outlined in the evaluation system. The evaluation system rankings will have a minimum of three rankings consistent with the requirements of the Idaho Code and State Board Rule. Upon completion of the evaluation, the employee's performance will be discussed with the employee and a signed copy of the written evaluation will be placed in the employee's confidential personnel file. After reviewing the evaluation, the employee may file a rebuttal statement to the evaluation. An employee receiving a ranking of

“unsatisfactory” may be put on an improvement plan and monitored by his or her supervisor in order to remediate deficiencies. If the terms of the improvement plan are not met, and the employee’s performance does not improve, the Board may prescribe probation as defined in Policy 709.2. The Board reserves the right to prescribe probation as defined in Policy 709.4 without an employee improvement plan being in place beforehand.

All evaluation records will be kept confidential within the parameters identified in federal and state regulations regarding the right to privacy. A copy of the employee’s evaluation will be included in the employee’s personnel file and will be addressed consistent with the requirements of section 33-1210, Idaho Code.

Rankings will be reported to the Idaho State Department of Education in accordance with the process and procedures that the Department sets.

Professional Practice

1. Planning and Preparation

- A. Demonstrating Knowledge of Content and Pedagogy;

2. Classroom Learning Environment

- A. Creating an Environment of Respect and Rapport;
- B. Establishing a Culture for Learning;
- C. Managing Classroom Procedures;
- D. Managing Student Behavior; and
- E. Organizing Physical Space.

3. Instruction and Use of Assessment

- A. Communicating with Students;
- B. Using Questioning and Discussion Techniques;

Student Achievement

Part of the evaluation of instructional personnel will be based on growth in student achievement as defined in Section 33-1001, Idaho Code, as applicable to the subjects and grade ranges taught by the instructional staff. All other certificated staff evaluations must include measurable student achievement or student success indicators as defined in Section 33-1001, Idaho Code, as applicable to the position. This portion of the evaluation may be calculated using current and/or the immediate past year's data and may use one (1) or both years' data. Growth in student achievement may be considered as an optional measure for all other school-based staff, as determined by the local board of trustees.

A written formal evaluation for all certified staff is to be prepared by the principal and submitted to the Superintendent of Schools on or before June 1 of each year. All evaluation forms are to be dated and signed by the principal and the teacher during the conference held to review the evaluation.

When any matter of a nature that could cause dismissal or non-renewal of a contract for a teacher is brought to the attention of the teacher, the principal shall assist the teacher toward correcting the situation.

Individualizing Teacher Evaluation Rating System

The Professional Practice rating and the Student Achievement rating will be combined for an individual evaluation rating system that will include a four (4) rankings used to differentiate performance including:

- Unsatisfactory being equal to "1"

Ratings will be determined through averaging and weighting each portion to calculate an overall numerical average which will transfer to an overall rating based on a scale.

The procedure for conducting evaluations is outlined in the *ITCA Teacher Evaluation and Development Process Calendar*. Annual training for certificated staff and pupil personnel certificate holders on the evaluation system and tools will be conducted and funded through school professional development funds or the general fund. Input from staff on the school's teacher evaluation plan will be gathered through specific questioning in the annual ITCA Teacher Needs Assessment survey. Parents will have the opportunity to provide input on the school's teacher evaluation plan when it is reviewed with them at the annual Back to School meeting.

Responsibility

The Superintendent, or the Superintendent's designee, shall have the overall responsibility for the administration and monitoring of the Performance Evaluation Program and will ensure the fairness and efficiency of its execution, including:

2. Ensuring completed forms are returned for filing by a specified date;
3. Reviewing forms for completeness;
4. Identifying discrepancies;
5. Ensuring proper safeguards and filing of completed forms;
6. Creating and implementing a plan for ongoing training for evaluators and certificated personnel on ITCA's evaluation standards, forms, and process and a plan for collecting and using data gathered from evaluation forms. The plan will include identification of the actions, if any, available to ITCA as a result of the evaluation as well as the procedure(s) for implementing each action;
7. Creating a plan for ongoing review of ITCA's Performance Evaluation Program that includes stakeholder input from teachers, Board members, administrators, parents and guardians, and other interested parties;
8. Creating a procedure for remediation for employees that receive evaluations indicating that remediation would be an appropriate course of action; and
9. Creating an individualized evaluation rating system plan for how evaluations will be used to identify proficiency and record growth over time with a minimum of three (3) rankings used to differentiate performance of teachers and pupil personnel certificate holders including: unsatisfactory being equal to a rating of 1; basic being equal to a rating of 2; and proficient being equal to a rating of 3.

The Immediate Supervisor (Evaluator) is the employee's "evaluator" and is responsible for:

1. Continuously observing and evaluating an employee's job performance including a minimum of two (2) documented observations annually for instructional personnel, one (1) of which shall be completed prior to January 1st of each year;
2. Holding periodic counseling sessions with each employee to discuss job performance;
3. Completing Performance Evaluation Forms as required; and

709.2 PROBATION FOR CERTIFICATED EMPLOYEES AND PLACING A CERTIFICATED EMPLOYEE ON PROBATION

Charter Contract Employees:

Certificated employees hired under a charter school contract as dictated by Idaho Code 33-5206, are not entitled to a period of probation prior to the Board making a decision regarding their employment for the next subsequent school year. Likewise, there is no obligation for any informal improvement plan. However, the Administration may determine that said employee(s) may receive a probationary period as a matter of good practice. That determination will be at the sole discretion of the Administration.

Board Action:

The consideration and decision to place an employee on probation may be held in executive session pursuant to Section 74-206, 33-5206 and any other applicable Idaho Code.

If the consideration results in probationary status, the individual on probation shall not be named in the minutes of the meeting. A record of the decision shall be placed in the certificated employee's personnel file.

709.3 EVALUATION OF SCHOOL PRINCIPALS

The Idaho Technical Career Academy Board has a firm commitment to performance evaluation of school personnel, whatever their category and level, through the medium of a formalized system. The primary purpose of such evaluation is to assist personnel in professional development and in achieving school goals. This policy applies to principals.

The school will conduct an annual evaluation of its school principals as required by Idaho Code. Principals will be evaluated by the Head of School. The Head of School shall have received training in conducting evaluations based on the statewide framework for evaluations within the immediate previous five (5) years of conducting any evaluations.

Each principal shall receive at least one (1) written evaluation to be completed no later than June 1st for each annual contract year of employment and shall be aligned to state minimum standards based on the Interstate School Leaders Licensure Consortium (ISLLC) standards and include proof of proficiency in conducting teacher evaluation using the state's adopted model, the *Charlotte Danielson Framework for Teaching, Second Edition*. The evaluation of principals shall annually include a minimum of two (2) documented observations, one (1) of which shall be completed prior to January 1st.

The evaluation of each principal will be in writing, based upon observations of the employee's performance and other relevant factors, and will reflect whether or not the employee is performing satisfactorily. Employees will be ranked in a fair and consistent manner as outlined in the evaluation system.

The evaluation system rankings will have a minimum of three (3) rankings consistent with the requirements of the Idaho Code and State Board Rule. Upon completion of the evaluation, the employee's performance will be discussed with the employee, and a signed copy of the written evaluation will be placed in the employee's confidential personnel file. After reviewing the evaluation, the employee may file a rebuttal statement to the evaluation. An employee receiving a ranking of "unsatisfactory" may be put on an improvement plan and monitored by the Head of School in order to

remediate deficiencies. If the terms of the improvement plan are not met and the employee's performance does not improve, the Board may prescribe probation. The Board reserves the right to prescribe probation as defined in Policy 709.2 without an employee improvement plan being in place beforehand.

Upon requirement of Idaho Code, principals will receive an evaluation in which the majority of the evaluation results are based on Professional Practice. The measures included within the Professional Practice portion of the evaluation shall include a minimum of two (2) documented observations annually, with at least one (1) observation being completed by January 1 of each year. Each evaluation will also include at least one of the following as a measure to inform the Professional Practice portion of all certificated employee evaluations: Parent/guardian input, student input, and/or portfolios.

Part of the evaluation of principals will be based on growth in student achievement as defined in Section 33-1001, Idaho Code. This portion of the evaluation may be calculated using current and/or the immediate past year's data and may use one (1) or both years' data.

All evaluation records will be kept confidential within the parameters identified in federal and state regulations regarding the right to privacy. A copy of the employee's evaluation will be included in the employee's personnel file and will be addressed consistent with the requirements of Section 33-1210, Idaho Code.

Individualizing Principal Evaluation Rating System

The Professional Practice rating and the Student Achievement rating will be combined for an individual evaluation rating system that will include four (4) rankings used to differentiate performance including:

- Unsatisfactory being equal to "1"
- Basic being equal to "2"
- Proficiency being equal to "3"
- Distinguished being equal to "4"

Ratings will be determined through averaging and weighting each portion to calculate an overall numerical average, which will transfer to an overall rating based on a scale.

The procedure for conducting evaluations is outlined in the *ITCA Administrator Evaluation and Development Process Calendar*. Annual training for principals on the evaluation system and tools will be conducted and funded through school professional development funds or the general fund. Input from staff on the school's principal evaluation plan will be gathered through specific questioning in the annual ITCA Teacher Needs Assessment survey. Parents will have the opportunity to provide input on the school's principal evaluation plan when it is reviewed with them at the annual Back to School meeting.

709.4 RELEASE TIME FOR CERTIFICATED PERSONNEL

Each certificated employee of the Idaho Technical Career Academy is entitled to release time for service on committees and commissions established by the State of Idaho, by the legislature, or by any of the departments or agencies of the State of Idaho.

Each certificated employee will be entitled to five (5) days of release time, and additional time would be allowed at the discretion of the Board. The employee is not required to use any or part of his/her flex time as release time.

The certificated employee will not lose any salary or other benefits because of release time for service on any committee or commission. The employee will not be required to make up any release time spent in serving on any committee or commission. The amount of any honorarium or compensation received for services on committees or commissions, except actual and necessary expenses, will be deducted from salary otherwise due the certificated employee.

710.0 HARASSMENT (INCLUDING SEXUAL HARASSMENT)

It is the policy of this LEA to maintain an environment that is free from illegal harassment. Every employee has the right to work in an atmosphere that promotes equal opportunities, free from all forms of discrimination and illegal conduct that could be harassing, coercive, or disruptive. Likewise, every student has the right to attend school events and access educational opportunities and benefits, free from all forms of discrimination and conduct that could be harassing, coercive, or disruptive.

It is the policy of LEA #489 to hire, promote, compensate, and administer all employment practices without regard to race, color, sex/gender, pregnancy, childbirth, religion, marital status, age, national origin, disability, veteran status, or any other protected classification identified by federal, state, or local laws. Harassment is prohibited and will not be tolerated. The LEA will take appropriate measures in response to any such incidents that are reported to or that otherwise come to the LEA's attention. Any person who engages in prohibited conduct will be subject to corrective action up to and including immediate termination of employment.

LEA #489 employees are:

- Prohibited from harassing other employees, students, or visitors of the LEA as defined by this policy;
- Required to report to his/her supervisor, the Head of School, Non-Discrimination Coordinator or the Human Resource Manager harassment of which the employee becomes aware; and
- Required to take immediate action to discipline and/or report students who engage in conduct that may be reasonably considered to constitute harassment of another student.

This policy applies to all conduct on and off the LEA's premises that has an effect upon an employee's work environment or a student's educational environment.

As deemed appropriate, the LEA will provide training to employees regarding the provisions of this policy and will take reasonable steps to take remedial action to stop violation of this policy and prevent its recurrence.

DEFINITION OF HARASSMENT (INCLUDING SEXUAL HARASSMENT)

The issue of whether conduct constitutes illegal harassment or discriminatory conduct may depend partially on how the person who is subjected to the conduct views the conduct. Persons who initiate or

persist in prohibited conduct assume the risk and will be subject to corrective action by the LEA, or legal penalties, even if this behavior might not have been intended as offensive.

Sexual harassment is a form of misconduct that includes unwelcome sexual advances, requests for sexual favors, sexually motivated physical conduct, or other verbal or physical conduct of a sexual nature when:

- Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or participation in the educational process;
- Submission to or rejection of such conduct by an individual is used as a basis for employment or educational decisions affecting the individuals; or
- Such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or education, or creating an intimidating, hostile, or offensive work or educational environment.

While sexual harassment encompasses a wide range of conduct, some examples of prohibited conduct include, but are not limited to, the following:

- Unwelcome verbal statements of a sexual or abusive nature, including requests or demands for sexual activity, sexual jokes, and obscene comments, etc.;
- Unwelcome, sexually motivated or inappropriate touching, pinching, or other physical contact;
- Unwelcome sexual behavior or communications, accompanied by implied or overt threats concerning an individual's employment or education;
- Unwelcome behavior or communications directed at an individual because of his or her gender; and
- Stalking or unwelcome sexually motivated attention.
- It is prohibited for any person to bring any items such as drawings, photos, posters, magazines, cartoons, or objects with an offensive racial, ethnic, religious, discriminatory, or sexual connotation to the work premises; or to access, store, or transmit such material using the LEA's equipment or facilities.
- It is prohibited for any person to utter or utilize racial, ethnic, religious, discriminatory, or sexually oriented jokes, slurs, epithets, or derogatory comments.

REPORTING A COMPLAINT

Individuals who believe they are being harassed should firmly and promptly notify the offender that his or her behavior is unwelcome. When a direct communication with the alleged harasser is not feasible or effective, the following steps should be followed when reporting a harassment complaint:

The individual should report the complaint to the Non-Discrimination Coordinator. If the Non-Discrimination Coordinator resolves the complaint in an informal manner, a confidential and formal report will be made to the Head of School and Human Resource Manager about the complaint and resolution so that the LEA may determine if any pattern of harassment by any particular individual exists. Upon receipt of the informal complaint, the school may offer supportive measures, further defined below.

Formal complaints must be completed using the Title IX Formal Complaint Form and sent to the Non-Discrimination Coordinator. Once a formal complaint is filed an investigation will begin. The investigation process is further outlined below.

If the individual chooses not to report the complaint to the Non-Discrimination Coordinator, or if the Non-Discrimination Coordinator is the individual engaged in alleged harassing conduct, the individual may report the incident directly to the Head of School or the Human Resources Manager for the LEA. If the complaint, in any manner, involves the Head of School, the individual should report the complaint to the Human Resources Manager.

Reporting is mandatory. Employees who believe that they have been discriminated against or subjected to unlawful harassment or ethnic, racial, discriminatory, or sexually oriented joking, or who have been exposed to such conduct, have the right to have such activity terminated immediately. All employees who learn of possible harassment of employees, whether or not there has been a written or formal complaint, must immediately notify the Non-Discrimination Coordinator. Should the Non-Discrimination Coordinator be the individual associated with the alleged discrimination, reporting should instead be directed to the Head of School or the Human Resources Manager for the LEA.

An employee, at any time, may file a discrimination or harassment claim with the Idaho Human Rights Commission and/or the Equal Employment Opportunity Commission (EEOC).

SUPPORTIVE MEASURES

Supportive Measures means non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the Complainant or the Respondent before or after the filing of a Formal Complaint or where no Formal Complaint has been filed. Such measures are designed to restore or preserve equal access to Idaho Technical Career Academy's Education Programs or Activities without unreasonably burdening the other party, including measures designed to protect the safety of all parties or Idaho Technical Career Academy's educational environment, or deter sexual harassment.

Supportive measures may include, but are not limited to, counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring of certain areas of the property, and other similar measures.

PROTECTION AGAINST RETALIATION

This LEA will not retaliate, in any way, against an individual who makes a report of harassment, in good faith, nor will it permit any LEA/K12 employee to do so. Any person found to have retaliated against another individual for reporting an incident of harassment, in good faith, may be subject to the same disciplinary action provided for harassment offenders. Individuals who are not complainants but who assist individuals who believe they have been subjected to harassment or who assist or participate in a harassment investigation are also protected from retaliation.

INVESTIGATION OF A HARASSMENT COMPLAINT

Any allegation of harassment will be promptly investigated in a confidential manner so as to protect the privacy of all individuals involved.

Confidentiality will be maintained throughout the investigatory process to the extent practical and appropriate under the circumstances.

The LEA's Non-Discrimination Coordinator, who is also the Title IX Investigator will investigate complaints. If the Non-Discrimination Coordinator is the subject matter of the complaint, the investigation shall be conducted by the Head of School or the Human Resources Manager of the LEA or a designee.

The Title IX Investigator will review the complaint including evidence related to allegations and provide written notice to all parties within 10 days. The Title IX Investigator will complete an investigative report at the end of the 10 days. Once the investigative report is developed, all parties will have an opportunity to review the investigative report and provide written response within 10 days.

Informal resolutions can occur at any time following a formal complaint and prior to a finding of responsibility unless respondent is an employee and complainant is a student.

Upon completion of the investigation of a harassment complaint, the investigator will communicate his/her findings to the Title IX Decision Maker, who is also the Head of School. If complaint in any manner involves the Head of School, the investigator's findings will be submitted directly to the Human Resources Manager or the Appellate Decision Maker.

If there is insufficient evidence to support the allegations, no record will be made of the allegation in the accused employee's personnel file. If the findings of the investigation determine that harassment has occurred the Head of School, in consultation with the Human Resources Manager shall make a determination as to what disciplinary action and/or corrective actions, up to and including possible termination, shall be recommended and/or implemented.

Except in a situation where a recommendation for personnel action is going to be advanced to the Board, upon completion of an investigation, the Non-Discrimination Coordinator may make a quarterly report to the LEA's Board as to general activities by the Non-Discrimination Coordinator in compliance with this policy and the general job descriptions of this employee.

DISCIPLINARY ACTIONS

If the investigation finds that an employee or a member of the K12 management staff has harassed and/or otherwise discriminated against an ITCA employee or a student, disciplinary actions may include probation, suspension, and/or dismissal from employment.

ACKNOWLEDGEMENT OF POLICY

Each employee will be required to sign an acknowledgment that they have read and understand Idaho Technical Career Academy's harassment policy. The employee will be able to keep one copy, and the signed original will be placed in the employee's personnel file.

711.0 SOCIAL NETWORKING/BLOGGING

No ITCA-owned computer, software, hardware or other property shall be used by any ITCA staff member to access, interact, use, or view any social networking site or any internet blog with the exception of legitimate work purposes. Such sites include, but are not limited, to Facebook, Myspace, Match.com, Xanga, Twitter, Snapchat, and Instagram. In other words, no ITCA-owned computer, software, hardware or other property shall be used for access, interaction, use, or viewing of any personal social networking site or internet blog.

In the use of technology and student interactions, the Code of Ethics for Idaho Professional Educators has made a number of pronouncements that are applicable to electronic media and interactions via electronic media:

Principle II states, in relevant part:

A professional educator maintains a professional relationship with all students, both inside and outside of the classroom. Unethical conduct includes, but is not limited to:

- Using inappropriate language, including but not limited, to swearing and improper sexual comments (e.g., sexual innuendoes or sexual idiomatic phrases)
- Inappropriate contact with any minor or student, regardless of age, using electronic media.

IDAPA 08.02.02.076.03. f. and h.

With such Code of Ethics requirements in mind, it is critical that teachers of ITCA exercise and engage in appropriate interactions with their students via all electronic and social communications. This would include inviting students to be “friends” accessible to private viewing options on social networking sites as well as the discussion and conversation that you may have with any student on any public profile or public viewing option.

Additionally, the Code of Ethics for Idaho Professional Educators addresses confidentiality. The provisions of the Code are actually broader than the prohibitions found in the FERPA and state, in relevant part:

Principle VII – Confidentiality

A professional educator complies with state and federal laws and local school board policies relating to the confidentiality of student and employee records, unless disclosure is required or permitted by law. Unethical conduct includes, but is not limited to:

- Sharing of confidential information concerning student academic and disciplinary records, personnel confidences, health and medical information, family status or income, and assessment or testing results with appropriate individuals or entities.
- Sharing of confidential information about colleagues obtained through employment practices with inappropriate individuals or entities.

With such Code of Ethics requirements in mind, it is also critical that teachers of ITCA exercise and engage in appropriate interactions with students as well as all other individuals via electronic and social media communications so as to not divulge confidential student and or personnel information. Further, in the situation of a social media communication with a student, a teacher may become aware of facts

that would lead the teacher to be in a mandatory reportable situation (e.g., a situation where an employee learns of facts that relate to abuse, abandonment or neglect or potential suicidal ideation).

The provisions of the Code of Ethics are applicable regardless of whether the interaction occurs through use of school-owned technology/internet equipment or the employee's privately held computer/internet activities.

712.0 DRUG AND ALCOHOL POLICY

This LEA recognizes the federal requirements to establish a “drug free workplace/environment”, and it does not tolerate drug use or alcohol abuse by its employees. Employees are prohibited from manufacturing, dispensing, using, possessing, or distributing illegal drugs, look alike or synthetic drugs (e.g., Spice, Bath Salts) or alcohol on any school premises or at any school activity. Employees are further prohibited from being under the influence of illegal drugs or alcohol on any school premises and/or having consumed alcohol or illegal drugs prior to arriving at school or at any school activity, or while conducting school-related business or activities, or while using any property owned by the LEA.

The drug free workplace requirements extend to all property owned by the LEA, all activities sponsored by Idaho Technical Career Academy, and include any vehicle owned by this LEA.

DEFINITIONS

Illegal Drug Use: The use, possession, or distribution of illegal drugs; the abusive use of other drugs; or the use, possession, or distribution of alcohol on any school premises or at any school activity, or as described in Paragraph 1 of this policy.

Illegal Drugs: Any controlled substances defined by Idaho Code Section 37-2701, or any other substance which is used to alter or change the mood of an individual, or anabolic steroids. The term “illegal drugs” does not include over the counter drugs or the use of prescriptions prescribed by a doctor or dentist specifically for the person in possession of those drugs, but does include look-alike or synthetic drugs such as Spice or Bath Salts.

Under the Influence: As used in this policy, “under the influence” does not require a meeting or exceeding of legal limits of use (i.e., a blood alcohol content [BAC] of .80), but rather is a state or condition whereby a person has used or consumed a substance and that such use or consumption impairs the person's performance or, to a lesser extent, is ascertainable by individuals interacting with the individual. Such indicia could include, but are not limited to: slurring of words, instability in standing or walking, a smell of alcohol on or about the person or the person's breath, bloodshot eyes, glassy eyes, etc.

Unlawful Alcohol: Any alcoholic beverage as defined by Idaho Code Sections 23-105 and 23-1001.

Unlawful Alcohol Use: The use, possession, or distribution of alcohol on any school premises or at any school activity, or as described in Paragraph 1 of this policy.

DISTRIBUTION OF POLICY

Upon adoption of this policy or initial employment with the LEA, all employees will receive a copy of this policy.

Any employee working in the department responsible for the performance of a federal grant will, as a condition of employment, agree to abide by the terms of the policy and to notify the LEA of any criminal drug statute conviction for a violation occurring in the workplace/workplace environment no later than five (5) days after such conviction.

Any employee who operates a school-owned motor vehicle shall report a DUI charge within three (3) days of receipt of the same.

A signed statement acknowledging receipt and understanding of, and agreement to abide by, this policy will be placed in the employee's personnel file.

DISCIPLINARY ACTION

Any employee who violates the terms of the LEA's drug and alcohol policy may be subject to disciplinary action, including, but not limited to, discharge, suspension, and/or referral for drug and alcohol abuse evaluation and rehabilitation, at the discretion of the Board.

If reasonable suspicion exists that federal, state, or local laws have been violated, the LEA will notify the appropriate law enforcement agencies. Pursuant to the Drug-Free Workplace Act, the LEA will report to the federal granting agency, within ten (10) days, any conviction for a violation of this policy by an individual employed in a department responsible for the performance of a federal grant.

712.1 DRUG AND ALCOHOL TESTING POLICY

It is the intent of the Board of Directors of Idaho Technical Career Academy to promote an alcohol and drug-free workplace/work environment, thereby enhancing LEA safety and increased productivity. Chapter 17, Title 72, Idaho Code allows employers, including school districts and LEAs, to adopt policies to test employees or prospective employees for the presence of drugs or alcohol as a condition of hiring or continued employment, provided the testing requirements and procedures are in compliance with applicable laws.

It is the policy of Idaho Technical Career Academy to require drug/alcohol testing of any employee reasonably suspected to be under the influence of illegal drugs and/or alcohol while on duty. Illegal drugs include any controlled substances as defined by Idaho Code Section 37-2701, any other substance that is used to alter or change the individual's mood, and anabolic steroids. Alcohol includes any alcoholic beverage as defined by Idaho Code Sections 23-105 and 23-101.

REASONABLE SUSPICION TESTING

Whenever the Head of School or designee reasonably suspects that an employee's work performance or on-the-job behavior may have been affected in any way by the use of illegal drugs or alcohol or that an employee has otherwise violated the LEA's Employee Drug and Alcohol Use policy, the employee may be required to undergo drug and/or alcohol testing. The circumstances under which reasonable suspicion testing may be considered are strictly limited to employee conduct on duty or during work hours, on LEA property, or at LEA approved or school-related functions.

Reasonable suspicion is defined as a good faith suspicion, based on objective facts, which is sufficient for a prudent person to conclude that the employee is using and/or appears to be presently under the influence of alcohol and/or drugs. Factors, which may be considered in determining that a reasonable suspicion exists, include, but are not limited to, the following:

- Observed use, possession, or sale of illegal drugs/alcohol or the illegal use or sale of prescription drugs.
- Marked decrease in work productivity, either in quantity or quality, not reasonably attributable to other causes.
- Apparent impairment of psychomotor functions, reasoning, judgment or concentration not reasonably attributable to other causes.
- Erratic or marked changes in behavior not reasonably attributable to other causes.
- Involvement in an accident or deviations from safe working practices, whether the incident involves actual or potential injury to person(s) or property.

REQUIREMENTS FOR SAMPLE COLLECTION AND TESTING

The Head of School or designee shall designate entities to provide the collection and testing services necessary to implement this policy. Prior to such designation, the entities must demonstrate a thorough understanding of, and compliance with, the testing requirements and procedures as set forth in applicable laws.

The entity, which collects the samples, may be a medical facility or laboratory. A trained individual will explain the drug and/or alcohol screening procedure to the employee, obtain authorization for the testing, assist the employee in completing any necessary forms, and monitor the sample collection, documentation, and storage for transportation. All employees subject to testing are required to sign any documents necessary to authorize the testing and disclose information to the Head of School or designee. The collection site will notify the Head of School or designee if the employee refused to be tested, alters or attempts to alter the sample, or otherwise obstructs the collection of the sample.

Further, the Head of School or designee is responsible for ensuring that all procedures for the collection and testing comply with the following requirements:

- The collection of samples shall be performed under reasonable and sanitary conditions.

- The individual employed by the collection site or laboratory who is responsible for the collecting the sample will be instructed as to the proper methods of collection.
- Samples shall be collected and tested, with due regard to the privacy of the individual being tested and, in a manner, reasonably calculated to prevent substitutions or interference with the collection or testing of reliable samples.
- Sample collection shall be documented and the documentation procedure shall include: a) labeling of samples so as to reasonably preclude the possibility of misidentification of the person tested in relation to the test result provided, and b) handling of samples in accordance with reasonable chain-of-custody and confidentiality procedures.
- Sample collection, storage, and transportation to the testing laboratory shall be performed so as to reasonably preclude the possibility of sample contamination and/or adulteration.
- Sample testing shall conform to scientifically accepted analytical methods and procedures.

Drug testing shall include a confirmatory test before the result of any test is used as a basis for disciplinary action by the LEA. A confirmatory test refers to the mandatory second or additional test of the same sample that is conducted by a laboratory utilizing a chromatographic technique such as gas chromatography-mass spectrometry or another comparable reliable analytical method.

Positive alcohol tests resulting from the use of an initial screen saliva test must include a confirmatory test that utilizes a different testing methodology meant to demonstrate a higher degree of reliability, such as a gas chromatography test. The test will be considered positive if the Blood Alcohol Content (BAC) results are .04 or more.

Positive alcohol tests resulting from the use of a breath test must include a confirmatory breath test conducted no earlier than fifteen (15) minutes after the initial test; or the use of any confirmatory test meant to demonstrate a higher degree of reliability, such as a gas chromatography test. The test will be considered positive if the BAC results are .04 or more.

RIGHT TO EXPLAIN POSITIVE TEST RESULTS AND REQUEST RETEST

Any employee who tests positive for drugs or alcohol must be given written notice of that test result, specifically identifying the substance for which he/she tested positive. The employee must be given an opportunity to discuss and explain the positive result.

Any employee who has positive test result may request that the same sample be retested by a mutually agreed upon laboratory. A request for retest must be made within seven (7) working days from the date of the first confirmed positive test notification and will be paid for by the employee requesting the test. If the retest results are negative, the LEA will reimburse the cost of the retest and compensate the employee for lost pay, if suspended without pay. If terminated solely because of the positive test, the employee shall be reinstated with back pay.

VIOLATIONS OF THIS POLICY

An employee is in violation of this policy, and will be subjected to disciplinary actions, under any of the following circumstances:

- The employee tests positive for illegal drugs, and the positive test is confirmed;
- The employee tests positive for alcohol, as indicated by a test result of not less than .04 BAC, and the positive test is confirmed;

- The employee refuses to provide a sample for testing or delays appearance for testing beyond the time limitations set forth in this policy;
- The employee alters or attempts to alter a test sample by adding a foreign substance for the purpose of making the sample more difficult to analyze;
- The employee submits a sample that is not his or her own; or
- The employee otherwise attempts to obstruct the testing process.

DISCIPLINARY ACTIONS

If the LEA determines that an employee has violated this policy, the LEA may take disciplinary action, up to and including, suspension and/or discharge from employment. The LEA is not precluded from considering other disciplinary actions relating to the employee's use and/or abuse of alcohol and/or drugs.

NOTIFICATION OF POLICY

The Idaho Technical Career Academy shall provide a copy of this policy to each employee upon its adoption, and to future employees at the time of hire. Employees will be required to sign a statement acknowledging receipt of this policy. A signed statement acknowledging receipt, understanding of, and agreement to abide by this policy will be placed in the employee's personnel file.

CONFIDENTIALITY

The Idaho Technical Career Academy personnel, who receive or have access to information concerning an employee's drug/alcohol test results, shall keep the information confidential. Such information includes, but is not limited to, interviews, reports, statements, memoranda, or test results, written or otherwise.

Such information shall be used only for the purposes of maintaining a drug-free workplace/environment, or in a proceeding related to any disciplinary action taken by the Idaho Technical Career Academy of the Idaho State Department of Education, Professional Standards Commission as a result of the drug/alcohol test, any other dispute between the LEA and the employee, as required to be disclosed by the United States Department of Transportation law or regulation or other federal law, or as required by services of legal process. The Idaho Technical Career Academy will not provide information regarding drug/alcohol testing to prospective employers without the written consent of the employee, court order or other proper legal requirement.

All personnel records and information regarding referral, evaluation, substance screen results, and treatment will be maintained in a confidential manner. Only information pertaining to an employee testing positive will be placed in an employee's Administrative File.

Records showing an employee tested negative will be kept for at least one (1) year, Records showing that an employee tested positive, including the reason for the test, identification of the substance(s) used by the employee, and the disposition of each employee will be kept for at least five (5) years. Such records will be kept confidential and will not be considered part of an employee's personnel records.

TESTING COSTS

The Idaho Technical Career Academy will pay all costs of drug and alcohol testing, unless the test is a retest requested by the employee. If the retest establishes a negative test result, then Idaho Technical Career Academy will reimburse the employee for the cost of such test.

Idaho Technical Career Academy employees will be compensated at their regular rate of pay for the time during which they are undergoing any drug or alcohol testing, including transportation time.

713.0 CODE OF ETHICS FOR CERTIFICATED EMPLOYEES

It is the policy of this LEA that all certified personnel shall adhere to the Code of Ethics of the Idaho Teaching Profession, as set forth in the Idaho Administrative Procedures Act, as such may be amended from time to time.

Compliance with this policy includes the requirement of reporting known violations of the Code of Ethics for Idaho Professional Educators.

Adopted: April 2014

Amended: August 2020

713.1 SUSPENSION OF TEACHING CERTIFICATE/ ADMINISTRATIVE LEAVE OF TEACHER

The Idaho State Board of Education may deny, revoke, suspend, or place reasonable conditions on any teaching certificate issued or authorized under Section 33-1201, Idaho Code, for all or any of the grounds as listed in Section 33-1208, Idaho Code.

Any certificated employee on an annual or renewable contract whose teaching certificate has been suspended by court order, or by the Professional Standards Commission, is in violation of the terms of the standard teaching contract and/or cannot perform the duties and responsibilities of their teaching or administrative position. Such individual's employment may be terminated by the Board pursuant to appropriate due process procedures which are required for each specific employee.

Through this policy, the Board has delegated to the Head of School and/or the school's Human Resources Director, the authority to place a certificated employee on a period of involuntary leave of absence should the Head of School or Human Resources Director believe that such action is in the best interest of the school. Upon the action to place a certificated employee on a period of involuntary leave of absence, the Board shall ratify or nullify the action of the Head of School or Human Resources Director at the next regularly scheduled meeting of the Board, or at a special meeting of the Board should the next regularly scheduled meeting of the Board not be within a period of twenty-one (21) days from the date of the action.

1. Where there is a criminal court order preventing the employee from being in the presence of minors or students, preventing the employee from being in the presence of any other adult individual employed at the school or detaining the employee in prison or jail, the employee's involuntary leave of absence shall be without pay due to the employee's inability to perform the essential functions of the employee's position. Without such a condition or situation, the involuntary leave of absence shall be with pay and the employee shall receive their usual pay and benefits.
2. In the unique situation where an employee qualifies for a period of involuntary unpaid leave of absence, the salary of the employee shall be maintained in a school managed account. Should the employee return to the district for active employment subsequent to the removal or dismissal of the court order, acquittal or adjudication of innocence, the district shall remit the salary funds, less the cost incurred by the school for the substitute hired to replace the employee. Further, should the employee return to the school under the provisions established in this subsection, the school shall arrange to have the employee credited with PERSI for the employee's time away from work during the period of leave of absence. During the period of involuntary leave of absence, regardless of whether such status is with pay or without pay, the school shall continue to pay the school's portion of monthly costs associated with the employee's health insurance benefit. The assumption of this payment by the school shall not alter the employee's financial obligation, if any, under the policy. Accordingly, if an employee is responsible for a portion of their benefits and/or pays for dependent care coverage, the employee remains responsible for such payments.

Should there be dual orders preventing more than one (1) employee from being in the presence of one (1) or more other employees, all employees subject to the court order shall be excluded from the school pursuant to this policy and applicable provisions of the Idaho Code.

If the period of involuntary leave of absence is due to the school's need to conduct an investigation into the conduct of the employee, and there are no related criminal investigation(s) and/or criminal charges of any nature pending, the administration shall complete its investigation within a period of sixty (60) working days. On or before the sixtieth (60th) working day, the administrative leave shall either cease and the employee shall be returned to his position of employment or the administration shall advance a personnel recommendation to the board of trustees. If a recommendation is advanced, the involuntary leave of absence shall continue until such time as the Board has made a decision with regard to the personnel recommendation, with such decision effectively concluding the involuntary leave of absence. If a related criminal investigation is occurring and/or criminal charges pending, the school shall not be bound to any limitation as to the duration of the involuntarily leave of absence.

Any timelines associated with leave of absence may be waived or modified by mutual agreement.

714.0 AIDING AND ABETTING SEXUAL ABUSE

Any individual who is an employee, contractor, or agent of this LEA is prohibited from assisting an employee, contractor, or agent in obtaining a new job, apart from the routine transmission of administrative and personnel files, if the individual or agency knows, or has probable cause to believe, that such school employee, contractor, or agent engaged in sexual misconduct regarding a

minor or student in violation of the law.

EXCEPTION. — The requirements of this policy shall not apply if the information giving rise to probable cause —

- (1) (A) has been properly reported to a law enforcement agency with jurisdiction over the alleged misconduct; and

(B) has been properly reported to any other authorities as required by Federal, State, or local law, including Title IX of the Education Amendments of 1972 (20 U.S.C. §1681 et seq.) and the regulations implementing such title under Part 106 of Title 34, Code of Federal Regulations, or any succeeding regulations; and
- (2) (A) the matter has been officially closed or the prosecutor or police with jurisdiction over the alleged misconduct has investigated the allegations and notified school officials that there is insufficient information to establish probable cause that the school employee, contractor, or agent engaged in sexual misconduct regarding a minor or student in violation of the law;

(B) the school employee, contractor, or agent has been charged with and acquitted or otherwise exonerated of the alleged misconduct; or

(C) the case or investigation remains open and there have been no charges filed against, or indictment of, the school employee, contractor, or agent within four (4) years of the date on which the information was reported to a law enforcement agency.

SECTION 800 – NON-CERTIFICATED EMPLOYEES

801.0 EQUAL EMPLOYMENT OPPORTUNITY AND NON-DISCRIMINATION IN THE WORK ENVIRONMENT

It is the policy of the ITCA Board of Directors, that so long as the individual is otherwise able to perform the essential functions of the job position, with or without reasonable accommodations, the school shall provide equal employment opportunities to all individuals, regardless of their age, race, color, religion, national origin, ancestry, creed, sex, marital status, gender identity and expression, sexual orientation, military status, disability, pregnancy, handicap or disability status and/or any other federally or state protected classification.

The school shall make reasonable accommodations for an individual with a disability as provided by applicable state and federal law unless the accommodation would impose an undue hardship upon the school.

Inquiries regarding equal opportunity employment and discrimination should be directed to the ITCA Non-Discrimination Coordinator or Human Resources Manager. Written complaints may be filed with the Non-Discrimination Coordinator through utilization of the Uniform Grievance Procedure of the School (Policy 505.0).

Proper notification of the Non-Discrimination Coordinator shall be made on an annual basis. Such notification will include the name and contact information for the Coordinator.

Adopted: December 2015

801.1 DEFINITION OF NON-CERTIFICATED EMPLOYEES

Non-certificated personnel are those individuals employed by the Idaho Technical Career Academy, LEA #489, who are not required to have a teaching certificate to qualify for the position. Non-certificated personnel include, but are not to be limited to, the following:

- Educational Assistants
- Custodial and maintenance employees
- Clerical employees
- Enrollment specialists

QUALIFICATIONS AND JOB DESCRIPTIONS

Minimum qualifications and job descriptions will be established by the LEA's Administrative staff. The qualifications and job descriptions shall be in writing and made available to LEA employees and other persons seeking employment through the local employment office. In addition, the LEA may advertise non-certificated positions as necessary to attract qualified employees.

Adopted: April 2014

801.2 NON-CERTIFICATED EMPLOYEES, AT-WILL EMPLOYMENT

The administration will periodically review and determine its staffing needs for non-certificated employees.

The Idaho Technical Career Academy Board of Directors authorizes the Head of School or designee to hire employees to fill open, non-certificated positions as needed, and to create new positions when an emergency arises or as needed. Non-certificated personnel will be hired based upon their qualifications for the position. Further, the ITCA's Board of Directors authorizes the Head of School or designee to terminate and/or lay off employees filling non-certificated positions, as needed. Upon the Head of School hiring or terminating the employment of any non-certificated employee, a report shall be made to the Board during the next scheduled Regular Board Meeting.

Non-certificated personnel are at-will employees. Such employees do not have and are not entitled to any expectations of future employment with the Idaho Technical Career Academy. The only exception to the at-will employment status may be in individual situations where the Board has entered into an express contractual relationship for a definite period of time with a non-certificated employee. The administrative personnel of the school and individual board members do not have any authority to enter into such an express contractual relationship or enter into any employment relationship other than at-will relationships with non-certificated personnel. No oral statement, either by the Board or an administrator, may alter the at-will employment relationship.

Definition of "At-will" Employment: At-will is defined as an employment relationship in which either party can break the relationship with no liability. Thus, the employer may terminate the employment

relationship at any time, with or without cause, so long as the reason for the termination is not in violation of an applicable law. Likewise, the employee may terminate the employment relationship at any time.

At the time of initial employment, all non-certificated employees will receive a letter of work agreement. The work agreement does not alter the employee's at-will employment status. The work agreement is intended to set forth the non-certificated employee's work schedule, rate of pay, and other benefits; notify the non-certificated employee of the LEA's requirement that he/she will comply with LEA policy; and notify the employee that the employment is at-will.

All individuals employed by the school are covered by Workman's Compensation Insurance for bodily injury, disease or death caused by accident arising out of and in the course of their employment. The Charter School is required by law to obtain this insurance through the State Insurance Fund. Any and all premiums for this insurance coverage are paid by the school.

The board of trustees shall provide the same group health insurance benefits to all noncertificated employees who work twenty (20) hours or more per week, as provided to certificated employees.

In case of an injury or other qualifying event, notice of the injury or event shall be reported to the school's main office, Human Resources Department, at the earliest possible opportunity.

801.5 NON-CERTIFICATED EMPLOYEES: EVALUATION, PERSONNEL FILES, AND GRIEVANCE RIGHTS

EVALUATION

The Head of School and/or his/her designee will be responsible for the continuous evaluation of the LEA's non-certificated employees. In no event will an evaluation change the at-will status of non-certificated employees, nor will an evaluation be required pursuant to or prior to any discharge.

Non-certificated employees will be evaluated not less than one (1) time per year by the employee's Direct Supervisor. The Supervisor will review the evaluation with the employee and discuss issues of both satisfactory and non-satisfactory performance. The Supervisor will submit written evaluations of each employee to the Head of School in such manner and at such times as may be determined the Head of School and/or the Board of Directors. All such evaluations will be placed into the employee's personnel file with the school.

As is the case for any item placed into an employee's personnel file, the employee will have the opportunity to file a rebuttal to the evaluation. The school expects such rebuttal to be filed within fourteen (14) working days. Any submitted rebuttal will be attached to the employee's evaluation

In the event that the evaluation demonstrates that the employee's performance is unsatisfactory, the Head of School may take disciplinary action, including, but not limited to, dismissal. As all non-certificated employees are at-will employees, the Idaho Technical Career Academy is not required to provide a non-certificated employee a probationary period for unsatisfactory performance. The Head of School has the discretion to use performance improvement plans in lieu of termination on a case-by-case basis. Use of such action in any given individual situation shall not be reason to require or expect such to be required in any other individual situation and in no manner alters the at-will employment status.

If the evaluation should demonstrate that the employee has met and/or exceeded the expectations of the job description of his/her position, the Board of Directors authorizes the Head of School to utilize discretion for the possible award of a financial bonus as stipulated in the employee's work agreement only when such is in accordance with budgetary requirements and limitations.

PERSONNEL FILES

As required by Idaho Code, which may be amended from time to time, the Idaho Technical Career Academy will establish personnel files for each school employee. All materials related to the evaluation of that employee will be placed in the personnel file within a timely manner. Employees will be provided timely notice that material has been placed in the file and afforded the opportunity to attach a rebuttal to such material. The school expects such rebuttal documentation to be filed within fourteen (14) working days.

901.0 EQUALITY IN EDUCATION, NON-DISCRIMINATION AND SEX EQUITY IN THE SCHOOL SETTING

It is the policy of the ITCA Board of Directors that equal educational opportunities, including but not limited to access to programs, activities, services, benefits, extra or co-curricular activities, shall be available to all students of the school without regard to race, color, ethnicity, national origin, sex, gender identity or sexual orientation, age, religion, handicap or disability status, social or socioeconomic condition, homeless status, age, language barrier, or any other federally or state recognized protected classification.

ITCA will provide equal access to all youth groups to the extent that such is applicable in the school's virtual setting.

Any student, or any parent on behalf of such student, may file a discrimination complaint with the school through the use of the Uniform Grievance Policy (Policy 505.0). Any individual having such a complaint and any inquiry regarding discrimination shall also communicate with the ITCA Non-Discrimination Coordinator.

The school shall notify annually all students, parents, staff and patrons of this policy and the designated Non-Discrimination Coordinator to receive inquiries. This notification shall include information as to the identity and contact information for the ITCA Non-Discrimination Coordinator.

The School will not tolerate inappropriate treatment including, but not limited to hostile or abusive conduct, derogatory remarks, acts or threats of violence, or other negative interactions because of the protected classification of any student, staff or volunteer. The school considers such conduct to be, at a minimum, bullying and harassment and, depending upon the circumstances and conditions, may constitute discrimination on the basis of the individual's protected classification. Such conduct will be addressed through the school's administrative personnel and board as appropriate, which could lead to a student suspension or expulsion or an employee's termination from employment.

It is the policy of the Board to ensure that homeless children and youth are provided with equal access to its educational programs, have an opportunity to meet the same challenging state of Idaho academic standards, are not segregated on the basis of their status as homeless, and to establish safeguards that protect homeless students from discrimination on the basis of their homelessness as defined under the

McKinney-Vento Homeless Education Act as currently stated, and as such may be amended or superseded by enactment of subsequent law.

 4. Migratory children who qualify as homeless because they are living in circumstances described above.

The Local Education Liaison for Homeless Children and Youth coordinates services to ensure that homeless children and youth enroll in school and can succeed academically. Liaisons ensure that:

1. homeless children and youths are identified by school personnel through outreach and coordination activities with other entities and agencies.
2. homeless children and youths are enrolled in and have a full and equal opportunity to succeed in, schools of that local educational agency.
3. homeless families and homeless children and youths have access to and receive educational services for which such families, children, and youths are eligible, including services through Head Start programs (including Early Head Start programs), early intervention services under part C of the Individuals with Disabilities Education Act, and other preschool programs administered by the local educational agency.

*The above was cited from the McKinney-Vento Homeless Assistance Act, as amended by the Every Student Succeeds Act (ESSA) in Title IX, Part A.

School Selection

Each child and youth in transition has the right to remain at his or her school of origin or to attend any school that housed students who live in the attendance area in which the child or youth is actually living are eligible to attend. Therefore, in selecting a school, children and youth in transition will remain at their schools of origin to the extent feasible, unless that is against the parent or youth's wishes. Students may remain at their schools of origin the entire time they are in transition and until the end of any academic year in which they become permanently housed. The same applies if a child or youth loses his or her housing between academic years.

Feasibility will be a child-centered determination, based on the needs and interests of the particular student and the parent or youth's wishes. Potential feasibility considerations include:

- The age of the child or youth
- The distance of a commute and the impact it may have on the student's education
- Personal safety issues
- A student's need for special instruction (e.g., special education and related services)
- The length of anticipated stay in a temporary shelter or other temporary location
- The time remaining in the school year

Enrollment

Once students are identified as experiencing homelessness and parents have determined that enrolling at ITCA is in the best interests of their child(ren), ITCA will immediately enroll the student, even if the child or youth lacks records normally required for enrollment. Records will immediately be requested from the previous school.

Identification and Supports

In collaboration with school personnel and community organizations, the local liaison will identify children and youth in transition. Information regarding rights and supports available to eligible students is accessible throughout the enrollment process, on the school's website, in school newsletters, and visibly posted onsite at the administrative offices and other relevant locations. Children and youth experiencing homelessness are identified a number of ways, including, but not limited to, enrollment and onboarding procedures, face-to-face orientation and other events, and through staff and parent education and referral. Staff are trained to assess for signs that students may be in transition, and in such cases, to make referrals to the local liaison.

The local liaison will assess for related barriers to the school's education programs. Supports will be offered to accommodate students who lack access to a stable internet connection, basic school supplies required for their classes, and for transportation to and from required school testing sites. If there are other unmet needs, students are offered student support services, which can include social-emotional and case management support.

Comparable Services

Each homeless child or youth shall be offered services comparable to services offered to other students in ITCA such as:

- Transportation services, if necessary, for academics (as applicable in a virtual environment)
- Educational services for which the child or youth meets eligibility criteria, such as English as a Second Language (ESL) or special education programs
- Programs for At-Risk students
- Programs for gifted and talented students
- Title I services
- Before and After school program, if applicable
- Access to the Federal Free Lunch Program is not applicable in our virtual setting

Examples of Comparable Services which may be offered in a virtual school:

- Computer paper and/or printer ink
- School supplies
- Bus passes to/from State testing
- Wireless internet card
- Increased flexibility in teacher availability for support
- Phone cards to contact teacher and/or administration
- Pre-paid postage for any mailings necessary for the school

Progress Monitoring

The local liaison will keep data on the number of children and youth in transition in the district; where they are living; their academic achievement (including performance on state and school assessments); and the reasons for any enrollment delays, interruptions in their education, or school transfers.

McKinney-Vento Homeless Education College and Career Advising Policy

It is the policy of ITCA that all students, regardless of homeless status, have equal access to counseling and college and career supports. All students, including those who are in a situation of homelessness, will be included in their respective grade-specific intervention(s), such as informational emails, phone calls, and live class sessions. Items of relevance for those who are homeless will be outlined in communications, where appropriate, such as unaccompanied homeless youths' right to file as independent on the FASFA.

McKinney-Vento Homeless Education Prior School Credit Policy

ITCA strives to ensure that homeless students receive appropriate credit for full or partial coursework satisfactorily completed while attending a prior school. ITCA will request the student's report card and/or transcript from the previous school immediately upon enrollment. Previous grades and/or progress will be provided to the Principal and teacher(s).

- Students enrolling in grades 9-12 will begin working in the curriculum in the same place as their peers. Students in grades 9-12 are expected to meet credit hour requirements in order to fulfill graduation requirements. All students, including students who are in a situation of homelessness, will have their transcripts reviewed by a High School Counselor during enrollment. Students will be placed according to their current high school transcript, and a review of current academic progress in their previous school will be completed to determine whether or not partial or full credit can be awarded per state credit requirements. All students will be given the opportunity to recover credits should this be needed.

Staff Training

The local liaison will train school personnel on possible indicators of homelessness, sensitivity in identifying families and youth as in transition, and procedures for forwarding information indicating homelessness to the local liaison. The local liaison will also instruct school registrars and secretaries to inquire about possible homelessness upon the enrollment and withdrawal of every student and to forward information indicating homelessness to the local liaison. Annual training is offered at required all-staff professional development events and throughout the schoolyear where needed or requested.

McKinney-Vento Homeless Education Dispute Resolution Policy

1. The child or youth “shall be immediately admitted to the school in which enrollment is sought, pending resolution of the dispute” [42 U.S.C. § 11432(g)(3)(E)(i)]. In disputes involving unaccompanied homeless youth, the local liaison will ensure that unaccompanied homeless youth are immediately enrolled in school [42 U.S.C. § 11432 (g)(3)(E)(iv)].
2. While disputes are pending, students have the right to participate fully in school and receive all services which they would normally receive. This includes transportation services, as indicated by the Non-Regulatory Guidance: The McKinney-Vento Act’s transportation requirements apply while disputes are being resolved [2004, H-5].
3. The parent, guardian, or unaccompanied youth will be provided with a written explanation of the school’s decision regarding school selection or enrollment, including the right of the parent, guardian, or youth to appeal the decision any time the student is denied enrollment in a requested school [42 U.S.C. § 11432(g)(3)(E)(ii)]. In the case of an unaccompanied homeless youth, the notice explaining the decision and the right to appeal are provided directly to the youth [42 U.S.C. § 11432(g)(3)(B)(iii)]. Notices shall be written in the preferred language of the parent/guardian/unaccompanied minor.
4. The child, youth, parent, or guardian will be referred to the local liaison, who will carry out the dispute resolution process as quickly as possible [42 U.S.C. § 11432(g)(3)(E)(iii)]. The local liaison must be familiar with the state’s McKinney-Vento dispute resolution process and follow all procedures outlined therein. The parent or unaccompanied youth will be given every opportunity to participate meaningfully in the resolution of the dispute. The local liaison will keep records of all disputes to determine whether particular issues or schools are delaying or denying the enrollment of children and youth in transition repeatedly.

5. If all the parties cannot reach consensus regarding educational placement and/or enrollment, the LEA shall consult the State Coordinator of Homeless Education at the Idaho State Department of Education. Per the State dispute resolution process, the State Coordinator will inform all parties of the determination in writing, and the State's decision will serve as final resolution.

Idaho residency status must be maintained for the entirety of the school year. Administrative procedures shall be maintained to verify student residency at the time of enrollment.

If a student's residency changed from Idaho to any other state during the course of the school year, the student will be deemed to have voluntarily withdrawn from the Idaho Technical Career Academy and the Administrative Staff shall commence the reclamation process and schooling activities through ITCA will cease.

In the event that official educational records cannot be released to a parent for the purpose of school transfer, the custodian of records from the sending school shall prepare and furnish to the parent a complete set of unofficial educational records containing uniform information as determined by the Interstate Commission.

Upon receipt of the unofficial educational records, ITCA shall enroll and appropriately place the student based upon the information ITCA personnel receive in the unofficial educational records, pending validation by the official records, as soon as possible.

2. Official Educational Records/Transcripts

At the time of enrollment and conditional placement of a qualifying student at the school, ITCA shall request the student's official educational records from the student's last school of attendance.

A school receiving such a request shall process the official educational records request and furnish such within a period of ten (10) days, or within the timeline determined to be reasonable by the Interstate Commission.

3. Immunizations

ITCA shall provide a period of thirty (30) days from the date of enrollment, or such other time frame as determined by the rules of the Interstate Commission, within which students may obtain any immunizations required by ITCA. Where ITCA's requirements include a series of immunizations, initial vaccinations must be obtained within thirty (30) days, or within the timeline determined to be reasonable by the Interstate Commission.

Placement and Attendance

1. Course Placement

Upon transfer of a qualifying student, the ITCA shall place the student in courses consistent with the student's courses in the sending school and/or the school's educational assessments.

Course placement includes, but is not limited to Honors, International Baccalaureate, Advanced Placement, Vocational, Technical and Career Pathways courses.

Continuing the student's academic program from the previous school and promoting placement in academically and career challenging courses should be paramount when considering placement. This requirement does not preclude ITCA from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the course(s).

2. Educational Program Placement

ITCA shall initially honor placement of the student in educational programs based on current educational assessments conducted at the sending school or participation/placement in similar programs at the sending school.

Educational program placement includes, but is not limited to, gifted and talented programs and ESL. This requirement does not preclude the school from performing subsequent evaluations to ensure appropriate placement of the student.

3. Special Education Services

In compliance with the federal requirements of the IDEA, ITCA, as the receiving school, shall initially provide comparable services to a student with disabilities based on his or her current IEP.

In compliance with Section 504 of the Rehabilitation Act and with Title II of the ADA, ITCA, as the receiving school, shall make reasonable accommodations and modifications to address the needs of incoming students with disabilities consistent with his or her existing 504 or Title II Plan.

This does not preclude ITCA, as the receiving school, from performing subsequent evaluations to ensure appropriate placement and/or accommodations are made for the student.

4. Placement Flexibility

ITCA's Administration shall have the flexibility to waive course/program prerequisites or other preconditions for placement in courses/programs offered by ITCA.

5. Absences relating to Deployment Activities

A student whose parent or legal guardian is an active duty member of the uniformed services has been called to duty for, is on leave from, or immediately returned from deployment in a combat zone or combat support position, shall be granted additional excused absences at the discretion of the Head of School to visit with his or her parent or legal guardian relative for such leave or deployment of the parent or guardian.

Eligibility

1. Eligibility for Enrollment

A Special Power of Attorney pertaining to the guardianship of a student of a military family and executed under applicable law shall be sufficient for the purposes of enrollment and all other actions requiring parental participation and consent.

ITCA shall not charge tuition to a transitioning military student placed in the care of a noncustodial parent or other person standing *in loco parentis* who lives in a jurisdiction other than that of the custodial parent.

A transitioning military student, placed in the care of a noncustodial parent or other person standing *in loco parentis* who lives in a jurisdiction other than that of the custodial parent, may continue to attend the school in which he or she was enrolled when residing with the custodial parent.

2. Eligibility for Extra-Curricular Activity Participation

ITCA shall facilitate the opportunity to transitioning military student's inclusion in extracurricular activities, regardless of application deadlines; to the extent the student is otherwise qualified.

Graduation

In order to facilitate the on-time graduation of a child of military families, ITCA shall incorporate the following procedure:

Graduation Course Requirements - Waiver

ITCA's Administration, through the Head of School or designee, shall waive specific courses that are required for graduation if similar coursework has been satisfactorily completed at another school.

If ITCA does not waive the specific course requirement for graduation, ITCA shall provide a reasonable justification for the denial. This justification shall be provided to the parent/legal guardian in writing.

If ITCA does not waive the specific course requirement for graduation and the student would have otherwise qualified to graduate from the sending school, ITCA shall provide an alternative means of acquiring required course work to ensure that the student's graduation will occur on time.

1. Exit Exams

In lieu of testing requirements required for graduation at ITCA, ITCA and the state of Idaho shall accept any or all of the following:

- Exit exams or end-of-course exams required for graduation from the sending school;
- National norm-referenced achievement tests; or
- Alternative testing

In the event the above alternatives cannot be accommodated by ITCA for a student transferring during his or her senior year, Subsection 2, below, shall apply.

2. Transfer During Senior Year of High School

Should a military student transferring at the beginning of or during the senior year be ineligible to graduate from ITCA after all alternatives have been considered, the sending school and ITCA shall ensure the receipt of a diploma from the sending school if the student meets the graduation requirements of the sending school.

In the event that one of the states in question is not a member of this Compact, the member state shall use best efforts to facilitate the on-time graduation of the student.

Conflicts

All state laws and school policies that conflict with this policy and/or in conflict with the Compact are superseded to the extent of the conflict.

Cooperation

The receiving school, through its administrative agents, shall timely cooperate with all state agency inquiries and other District/school inquiries relating to a student who is covered by the Compact.

902.1 ATTENDANCE AND TRUANCY

Idaho Technical Career Academy, as a public school, follows Idaho Codes #33-202, #33-205, #33-206, and #33-207 pertaining to public school attendance. Parents must understand that ITCA is a public school of choice, and as part of the public school system; ITCA is required to account for the attendance and progress of each individual student. Failure to meet the school's attendance requirements may result in declaration of habitual truancy, expulsion, and/or denial of student enrollment.

Delegation of Expulsion/Denial of Enrollment Power. The Board of Directors of Idaho Technical Career Academy hereby grants authority to declare habitual truancy, expulsion, and/or denial of enrollment with or without condition, to an Attendance Review Committee under the direction of an assigned administrator.

The composition of the Attendance Review Committee will include a school administrator and two additional staff. Members assigned to the Attendance Review Committee will not have any underlying involvement with the student. The actual committee members will change depending on the student and will be selected by the Operations Manager or his/her designee.

The Attendance Review Committee, acting on behalf of the Board of Trustees, may deny enrollment or expel a student and thus deny attendance of that student to Idaho Technical Career Academy. It is also hereby noted that the Attendance Review Committee's decision will be implemented immediately, but

the parents of the student have the right to appeal that decision to the Board, in writing, within five (5) school days.

Attendance Review Committee Responsibilities. The Attendance Review Committee will conduct all habitual truancy and expulsion hearings on behalf of the Board. The review committee's decision will be binding; therefore, administrators will not be given the right to recommend expulsion to the Board if the review committee determines that expulsion is not warranted.

Only appeals of the Attendance Review Committee's decisions to deny enrollment or expel for truancy will be presented to the Idaho Technical Career Academy Board of Directors and will be conducted as a de novo hearing, with the Directors having access to the review committee's determination.

As the Board has delegated this authority to the Attendance Review Committee, the process before the committee is a mandatory condition prior to any appeal of such Committee's decision to the Board of Directors: thus, there cannot be any request by students/families that the Attendance Review Committee hearing be waived and the matter to go directly to the Board.

1. The Attendance Review Committee is hereby delegated the authority to impose such disciplinary measures as deemed necessary, such as behavior contracts, conditions for probation, etc.
2. The Head of School or other designee, unrelated to the underlying recommendation to deny enrollment or expel a student, shall serve as the Hearing Officer for the Attendance Review Committee. The Operations Manager or designee will serve as the Hearing Facilitator. The Chairman of the ITCA Board or designee has the authority to serve as hearing officer for any appeal to the Board of any decision of the Attendance Review Committee. Such individual likewise shall not have any involvement with regard to the underlying recommendation to deny enrollment or expel a student.

The procedures by which students can be suspended, denied enrollment, expelled and reenrolled, as well as the appeal process are delineated in the student handbooks.

Attendance Defined: daily curriculum completion as outlined by the daily plan and/or weekly work schedule, daily logins, and live class connect attendance.

Refer to the student handbooks for specific examples, definitions and procedures.

These attendance regulations, as established by the Board, are subject to modification in the instance of an individual student's IEP or Section 504 Plan.

Pursuant to Idaho Code § 33-205, ITCA may deny enrollment and attendance to any student who has been expelled from a public school district (LEA) within the state of Idaho or any other state.

Habitually Truant Students

ITCA will follow the process of denying enrollment for students who are habitually truant as is allowable by Idaho Code § 33-205.

ITCA Administration will consider a Student Support Services referral for any student approved for enrollment who was expelled and deemed a habitual truant by another public school.

902.3 DUAL ENROLLMENT

Idaho Technical Career Academy allows for dual enrollment provided for by Idaho Code § 33-203. For the purposes of the policy, a dually enrolled student is one who resides in Idaho and attends ITCA while concurrently attending either: a) another publicly funded school in Idaho (including public charter school), b) a private school in Idaho, or c) a home school in Idaho.

An ITCA student must be enrolled in at least 3 courses with ITCA to be eligible for Dual Enrollment. Priority for enrollment with ITCA will be given to students who are enrolled in ITCA full-time, with upper grade levels having first choice over lower level grades. Should the total number of Dual Enrollments applied for exceed the allowable cap, such requests may be brought to the Board of Directors for consideration.

Priority for dual enrollment will be given to students whose parent or guardian completes the required application process:

1. certifying the extent of the student's participation in outside educational program(s) either private, public, or home-based;
2. certifying the extent of the student's participation in special services such as Special Education or other assistance programs;
3. requesting the course / program name(s) in which they want their child to participate;
4. obtaining on the application for dual enrollment, the signature of an official representative of the secondary education program stating that s/he agrees to the terms of the dual enrollment as proposed on the form including:
 - a. the school responsible for testing;
 - b. the process for dividing Average Daily Attendance (ADA) monies from the primary education program to the secondary education program, if any;

The basis of dual enrollment will follow the State funding model. Students may apply for "Full-Time" Dual Enrollment, "Part-Time" Dual Enrollment or "Single Course" dual enrollment. "Full Time" Dual Enrollment is defined as a student attending ITCA 4 (four) or more hours per school day. ITCA will receive full ADA for "Full Time" Dual Enrollment students. "Part-Time" Dual Enrollment is defined as a student attending ITCA more than 2 ½ (two and a half) hours but less than or equal to 4 (four) hours per school day. ITCA will receive ½ (one half) ADA for "Part-Time" Dual Enrollment students. "Single Course" Dual Enrollment is defined as a student attending ITCA for one course. ITCA will invoice the other district based on the agreed upon Dual Enrollment Single Course fee.

"Single Course" Dual Enrollment students will not be provided with a computer, internet service subsidy or printer.

Students enrolled full-time in other education programs, private, public, or home based will not be allowed to enroll full-time with ITCA. A student cannot be doubly enrolled.

Dually enrolled students shall apply for dual enrollment at the beginning of each term. Applications for dual enrollment will be received and considered by ITCA on an annual basis at a time set by the Head of School or until the cap is met, whichever comes first. Dually enrolled students shall apply for dual enrollment on an annual basis. Dual Enrollment seats will be limited to no more than 10% of the total student population.

902.4 REQUIRED STUDENT ENROLLMENT ORIENTATION

Students and their parents/guardians must complete the assigned ITCA orientation process prior to the student's official enrollment with ITCA. This is the final step in ITCA's official enrollment process. Parents/Guardians and students will be notified of the enrollment orientation process, the required tasks, and the due dates/deadlines. It is the parent's/guardian's or adult student's obligation to communicate with school staff if additional assistance above what is offered in the orientation process is needed. All new students and their parents/guardians will be assigned to the ITCA enrollment orientation process. Returning students and their parents/guardians may be assigned to the ITCA enrollment orientation process. Students and parents/guardians who have left ITCA and seek to re-enroll may be assigned to the ITCA enrollment orientation process.

Parents/Guardians of students who do not complete all required tasks of their assigned ITCA enrollment orientation process will receive notification via email, and the student will be considered to have not completed the enrollment process to become a student at ITCA. Any student seeking to enroll with ITCA within the same school year after having the opportunity but not completing the required orientation component of the enrollment process must submit a written request within five (5) calendar days of receiving notification of failure to complete the enrollment process to the principal. The request will be reviewed by an administrative committee. A conference will be held with the parent/legal guardian regarding the reason for the failed enrollment process, the commitment that is necessary to succeed with virtual education, and whether or not this is the best educational setting for the student. Requests submitted after the five (5) days will not be reviewed. Exceptions may be made by the Head of School.

Any student seeking to enroll with ITCA in subsequent school years shall be given the opportunity to enroll and complete the required orientation.

902.5 ENROLLMENT CAP POLICY

Maximum Enrollment

If necessary, the maximum number of students who may be enrolled in the school will be determined by the Board each school year no later than the annual meeting prior to that school year. The Board may also establish an enrollment deadline(s). The Charter Board may establish different enrollment caps and/or enrollment deadlines for the general program, specific grade levels or programs, the special education program. The enrollment caps and/or deadlines must be publicly posted as soon as reasonably possible after the Board makes its annual determination and remain posted for the remainder of the affected school year. Once enrollment caps and/or deadlines have been established, students shall be enrolled until the cap or deadline is reached, whichever occurs first. Thereafter, student applications will be accepted for enrollment during the following school year.

Preference for positions in any class will be the following:

1. Pupils returning to the Idaho Technical Career Academy in the second or any subsequent year of its operation;
2. Siblings of pupils already enrolled in the Idaho Technical Career Academy;
3. An equitable selection by lottery or other random method.

Only when necessary, a lottery will be held for each school year on a date determined by the Board of Directors, if there are more applications than available student positions to be filled in any grade or program. The lottery will dictate the order of placement of the students. Open positions will be filled by the first name in the lottery for that grade/program and continue on down the list for that grade/program until all positions are filled. Once the class is filled, the waiting list will be composed of those students whose names remaining on the list for that grade/program.

If during the school year there are more open positions than students to fill them, then positions will be filled on a first come, first served basis.

902.6 PREVIOUSLY ENROLLED HABITUALLY TRUANT STUDENTS SEEKING RE-ENROLLMENT

Any student who has previously been enrolled with ITCA, left and thereafter seeks to re-enroll with the school is required to disclose this information at the commencement of the re-enrollment process. If this is not disclosed, the Board reserves the right to implement the provisions of this policy when such information is disclosed or otherwise learned.

Any student who is seeking re-enrollment at ITCA who was not in compliance with the school's attendance policy and who had been deemed a habitual truant at the time of any previous enrollment is required to comply with this policy prior to any re-enrollment at the school. Such request for re-enrollment, as well as the processing of the below detailed hearing to consider allowance for enrollment, shall be completed prior to the open enrollment period. If such is not completed prior to this time, the consideration for re-enrollment will be with regard to the next subsequent open enrollment period.

Any student is deemed to be a habitual truant if, in the judgment of the Board or a designee of the Board, student has been determined to have repeatedly been in violation of ITCA's attendance policies. A child who is a habitual truant is under the purview of the juvenile corrections act if he or she was within the age of compulsory attendance at the time of the violation.

The Board of ITCA may deny enrollment of any student who is a habitual truant.

ITCA Administration will consider a Student Support Services referral for any student who was deemed a habitual truant in a previous enrollment with ITCA who applies and is approved for re-enrollment with ITCA.

If a student seeks to enroll at ITCA who has previously been deemed, either by the Board or the designee of the Board, to be a habitual truant, the Board of ITCA has the option to deny enrollment to such student.

In such a circumstance, the parent/guardian will be notified of the procedure, and, if the parent/guardian still wishes to apply for the student's re-enrollment, the administration will send written notice to the parent/legal guardian which states the grounds for the proposed denial of enrollment and a time and place where the parent or guardian may appear to contest the action of the board to deny school attendance. This notice shall also state:

- The pupil's right to be represented by counsel;
- The pupil's right to produce witnesses, and submit evidence on his own behalf; and
- The pupil's right to question any adult witness who may appear against the enrollment.

This notice shall also state a date for the student and the parent/legal guardian a full and fair hearing on the proposed denial of enrollment. There shall be a reasonable period of time between the date of the notice and the scheduled hearing so as to allow for preparation for the hearing.

Should the Board, subsequent to the hearing, allow a habitually truant student to re-enroll, the Board may impose reasonable conditions upon the student to permit the student's attendance. Should a student violate any of those conditions, the student will be returned to the Board for reconsideration of the permission for enrollment and/or possible expulsion from school.

PROCEDURE TO AMEND RECORDS

If a Parent or Eligible Student believes that the Educational Records relating to the student contain information that is inaccurate, misleading, or in violation of the student's right of privacy, they may seek to amend the Educational Record. The right to seek amendment cannot be used to challenge a grade or an individual's opinion (unless the grade or the opinion has been inaccurately recorded) or ITCA's decision to create or maintain particular or Educational Records. When a request to amend Educational Records is received, *it shall be reduced to writing and* the following procedure will be followed:

REVIEW PROCESS

1. *Within thirty (30) days* of receiving a request to amend the Educational Record, ITCA through its designees, will determine whether the information contained in an Educational Record is inaccurate, misleading, or in violation of the student's right of privacy. If ITCA determines that the requested amendment is appropriate, it will correct the record and provide written notice of the changes to the Parent or the Eligible Student.
2. If ITCA determines that the information is not inaccurate, misleading, or in violation of the student's right of privacy, it will inform the Parent or Eligible Student, *in writing*, of its decision, *reasons why it denied the request to amend the record*, and the right to a hearing.

HEARING PROCESS

1. The Parent or Eligible Student, on request, has an opportunity for a hearing to challenge the contents of the student's Educational Records on the grounds that the information contained therein is inaccurate, misleading, or in violation of the privacy rights of the student.

2. ITCA will hold the requested hearing within thirty (30) days after it receives a request for the hearing. Notice of the date, time, and place will be given to the Parent or Eligible Student within a reasonable amount of time prior to the hearing. Because of the geographical makeup of ITCA's student body, the hearing may be held via electronic means.
3. The Head of School or his/her designee, including an employee of ITCA who does not have a direct interest in its outcome, may conduct the hearing. The Parent or Eligible Student will be given full and fair opportunity to present evidence relevant to the issues raised at the hearing. The Parent or Eligible Student may, at their own expense, be assisted or represented by an individual of their own choice, including an attorney.
4. The Head of School or his/her designee conducting the hearing is not bound by common law or by the rules of evidence. Evidence will be admitted and given weight only if it is the kind of evidence which reasonable persons are accustomed to rely on in the conduct of serious affairs.
5. The Head of School or his/her designee will make his/her decision in writing within fourteen (14) days after the close of the hearing. The decision will be based solely on the evidence of presented at the hearing and will include a summary of the evidence and the reasons for the decision. The hearing officer's decision will be the final decision of this LEA.
6. If the Head of School or his/her designee concludes that the information being contested is inaccurate, misleading, or otherwise in violation of the privacy rights of the student, ITCA will amend the Educational Records at issue and inform the Parent or Eligible Student of the amendment in writing.
7. If the Head of School or his/her designee concludes that the information in the Educational Record is not inaccurate, misleading, or in violation of the privacy rights of the student, ITCA will inform the Parent or the Eligible Student of the right to place a statement in the Educational Record commenting on the contested information or stating why he or she disagrees with ITCA's decision, or both. If such a statement is received by ITCA, it will remain as part of the Educational Record for as long as the student's Educational Record is maintained and the statement will be disclosed whenever ITCA discloses the portion of the Educational Record to which the statement is related.

EDUCATIONAL RECORDS OF STUDENTS WITH DISABILITIES

ITCA will allow parents of students with disabilities and eligible students with disabilities the right to inspect and review any Educational Records relating to the student that are collected, maintained, and/or used by ITCA consistent with the provisions of this policy and provisions of the IDEA.

ITCA will also comply with a request to inspect and review such records without unnecessary delay, and in no event more than forty-five (45) calendar days after the request had been made, in these situations:

1. Before any meeting regarding the student's IEP);
2. Before any hearing relating to the identification, evaluation, or educational placement of the student; or

903.4 ITCA STUDENT DATA PRIVACY AND SECURITY POLICY

The efficient collection, analysis, and storage of student information is essential to improve the education of our students. As the use of student data has increased and technology has advanced, the need to exercise care in the handling of confidential student information has intensified. The privacy of students and the use of confidential student information is protected by federal and state laws, including FERPA and the Idaho Student Data Accessibility, Transparency and Accountability Act of 2014 (Idaho Data Accountability Act).

Student information is compiled and used to evaluate and improve Idaho's educational system and improve transitions from high school to postsecondary education or the workforce. The Data Management Council (DMC) was established by the Idaho State Board of Education to make recommendations on the proper collection, protection, storage and use of confidential student information stored within the Statewide Longitudinal Data System (SLDS). The DMC includes representatives from K-12, higher education institutions, and the Department of Labor.¹

This model policy is required by the Idaho Data Accountability Act. In order to ensure the proper protection of confidential student information, each school district and public charter school shall adopt, implement, and electronically post this policy. It is intended to provide guidance regarding the collection, access, security, and use of education data to protect student privacy. This policy is consistent with the DMC's policies regarding the access, security, and use of data maintained within the SLDS.² Violation of the Idaho Data Accountability Act may result in civil penalties.³

Personally Identifiable Information includes: a student's name; the name of a student's family; the student's address; the students' social security number; a student's education unique identification number or biometric record; or other indirect identifiers such as a student's date of birth, place of birth, or mother's maiden name; and other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community who does not have personal knowledge of the relevant circumstances to identify the student.

Physical Security describes security measures designed to deny unauthorized access to facilities or equipment.

Student Data means data collected at the student level and included in a student's educational records.

Unauthorized Data Disclosure is the intentional or unintentional release of Personally Identifiable Information to an unauthorized person or untrusted environment.

Idaho Technical Career Academy shall notify in a timely manner affected individuals, students, and families if there is a confirmed Data Breach or confirmed Unauthorized Data Disclosure.

Use

- Publicly released reports shall not include Personally Identifiable Information and shall use Aggregate Data in such a manner that re-identification of individual students is not possible.
- Contracts with outside vendors involving student data, which govern databases, online services, assessments, special education or instructional supports, shall include the following provisions which are intended to safeguard student privacy and the security of the data:
 - Requirement that the vendor agree to comply with all applicable state and federal laws;
 - Requirement that the vendor have in place Administrative Security, Physical Security, and Logical Security controls to protect from a Data Breach or Unauthorized Data Disclosure;
 - Requirement that the vendor restrict access to Personally Identifiable Information to the authorized staff of the vendor who require such access to perform their assigned duties;

This information will be contained in a sealed envelope, marked to indicate the confidential nature of the contents, and addressed to the principal or other administrative officer of the school.

Failure of the parent or guardian to furnish the required records, or failure to request of the administration of the previous school to provide the required records, will constitute adequate grounds to deny enrollment to the transferring student or to suspend or expel the student if already enrolled.

Outgoing Transferring Students:

Idaho Technical Career Academy shall comply within ten (10) days of receipt of a records request from the student's new school and will forward a copy of a transferred student's record.

If records have been "flagged," the copy of records shall not be forwarded to the new school. If a "flagged" record is requested, the school must notify law enforcement of the request for the "flagged" record. Upon notification by law enforcement of the returned child, Idaho Technical Career Academy can remove the "flag" from the record.

Transferring Disciplinary Records

Idaho Technical Career Academy is required to transfer disciplinary records with the timelines set forth above. *When a school record contains information concerning violent or disruptive behavior or disciplinary action of a student, this information shall be contained in a sealed envelope, marked to indicate the confidential nature of its contents, and addressed to the principal or other administrative officer of the school.*

905.4 PROHIBITION OF HARASSMENT, INTIMIDATION, BULLYING, HAZING AND/OR INITIATION

The Idaho Technical Career Academy Board of Trustees and administration are committed to providing a safe and secure educational environment free from any form of harassment, intimidation, or bullying, for all students and employees in the educational environment. No act of harassment, intimidation, bullying and/or hazing will be tolerated by Idaho Technical Career Academy. Such actions will result in disciplinary actions.

Idaho Code 18-917A indicates that a student may be guilty of a criminal infraction for engaging in acts of harassment, intimidation, or bullying and states:

- 1) No student or minor present on school property shall intentionally commit, or conspire to commit, any act of harassment, intimidation, or bullying against another student.
- 2) Harassment, intimidation, and bullying means any intentional gesture or any intentional written, verbal, or physical act or threat by a student that:
 - a) A reasonable person under the circumstances should know will have the effect of:
 - i) Harming a student; or
 - ii) Damaging a student’s property; or
 - iii) Placing a student in reasonable fear of damage to his or her person; or
 - iv) Placing a student in reasonable fear of damage to his or her property; or
 - b) Is sufficiently severe, persistent or pervasive that it creates an intimidating, threatening, or abusive educational environment for a student.

An act of harassment, intimidation, or bullying may also be committed through the use of a landline, car phone, or wireless telephone or through the use of data or computer software that is accessed through a computer, computer system, or computer network.

“Cyberbullying” means bullying through the use of technology or any electronic communication, including, but not limited to, a transfer of signs, signals, writing, images, sounds, data or intelligence of

any nature transmitted by the use of any electronic device, including, but not limited to, a computer, telephone, cellular telephone, text messaging device, or personal digital assistant.

Harassment, intimidation, and/or bullying can include any intentional written, verbal, or physical act, including, but not limited to, one determined to be motivated by any characteristic such as race, color, religion, ancestry, national origin, gender, sexual orientation, or mental or physical disability. Other distinguishing characteristics can include, but are not limited to, physical appearance, clothing or other apparel, socioeconomic status, gender identity, and marital status.

Nothing in this section requires the affected person to actually possess a characteristic that is a basis for the harassment, intimidation, bullying, hazing or initiation.

For the purpose of this policy, the definition of harassment, intimidation and/or bullying shall also include conduct of initiation or hazing of another student.

This policy is not intended to prohibit expression of religious, philosophical, or political views, provided that the expression does not substantially disrupt the educational environment or amount to an improper use of school property/equipment as detailed herein. Many behaviors that do not rise to the level of harassment, intimidation and/or bullying may still be prohibited by other ITCA Board policies or program procedures.

This policy applies to harassment, intimidation, and/or bullying that:

1. Takes place at school or on school grounds, meaning: a school building; property on which a school building or facility is located; and property that is owned, leased or used by a school for a school-sponsored activity, function, program, instruction, or training.
2. Takes place in a school online class or other session.
3. Takes place at any school-sponsored event, activity, function, program, instruction, or training.
4. Takes place elsewhere or through the use of technology, but only if the bullying also infringes on the rights of the student at school as set forth in this policy's definition of bullying.
5. Takes place through the use of the school's equipment, computers, network, servers, mail or other school technology, regardless of time of day or whether or not such communication is "school-related."

- School staff are required to report incidents of harassment, intimidation, and/or bullying to a school administrator.
- Students who have **been** harassed, intimidated and/or bullied or are aware of such incidents are strongly encouraged to report this behavior to a staff member or school administrator.
- Parents and other adults who are aware of incidents of harassment, intimidation, bullying, and/or hazing are encouraged to report this behavior to a staff member or school administrator.
- Acts of reprisal or retaliation against any person who reports an incident of harassment, intimidation, and/or bullying are prohibited. Any student who is determined to have falsely accused another of harassment, intimidation, and/or bullying, shall be subject to disciplinary consequences.

Responding

The school principal or Head of School designee will:

- A. Promptly investigate and respond to allegations of harassment, intimidation and/or bullying;
- B. Keep written documentation of all allegations of said behavior and outcomes of the investigations, and report substantiated incidents to the Head of School;
- C. Apply disciplinary actions which may include, but are not limited to, imposing a series of graduated consequences that include alternative discipline. In determining the appropriate response to students who engage in bullying behavior, school principals or Head of School designees should consider the type of behaviors, the frequency and/or pattern of behaviors, and other relevant circumstances. Alternative discipline includes, but is not limited to:
 1. Meeting with the student and the student's parents;
 2. Reflective activities, such as requiring the student to write an essay about their misbehavior;
 3. Mediation, but only when there is mutual conflict between peers, rather than one-way negative behavior, and both parties voluntarily choose this option;
 4. Counseling;
 5. Participation in skills-building and resolution activities, such as social-emotional cognitive skills building, resolution circles and restorative conferencing; and
 6. School suspension.
- D. Remediate any substantiated incident of harassment, intimidation, bullying, hazing and initiation to counter the negative impact and reduce the risk of future incidents, which may include referring the victim, perpetrator, or other involved persons to counseling or other appropriate services;
- E. Communicate to the parent of a student who has been harassed, intimidated, and/or bullied the measures being taken to ensure the safety of the student and to prevent further acts;
- F. Communicate with a local or state law enforcement agency if the Head of School believes that the pursuit of criminal charges or a civil action may be appropriate; and
- G. Notify parents, guardians and students of the right to appeal a decision of the school Principal or Head of School designee related to taking or not taking disciplinary action in accordance with this policy. The appeals procedure must be consistent with other appeals procedures established by the School Board and may include an appeal to the Head of School.

905.5 STUDENT SUICIDE PREVENTION INTERVENTION AND RESPONSE

Scope:

This policy covers actions that take place in the virtual school platforms, on school property, at school-sponsored functions and activities, and at school sponsored out-of-school events where school staff are present.

Prevention:

The LEA Board of Directors directs the Head of School to develop procedures relating to suicide prevention. Such procedures shall address the following:

- LEA Policy Implementation
 - A school level suicide prevention coordinator shall be designated by the Head of School. This person will be a certified mental health professional, such as a school counselor. The LEA suicide prevention coordinator will be responsible for planning and coordinating implementation of this policy for the school. Any teacher with direct evidence of a student's suicidal tendencies shall report this knowledge to the suicide prevention coordinator. If any staff member believes a student is at elevated risk; they are encouraged to report this belief to the designated individual.
- Staff Professional Development:
 - All staff/staff who work closely with students will receive professional development on risk factors, warning signs, protective factors, response procedures, referrals, postvention, and resources regarding youth suicide prevention. The professional development will include additional information regarding groups of students at elevated risk for suicide, including those living with mental and/or substance use disorders; those who engage in self-harm or have attempted suicide; those in out-of-home settings; those experiencing homelessness; American Indian/Alaska Native students; lesbian, gay, bisexual, transgender, and queer/questioning (LGBTQ) students; students bereaved by suicide; and those with medical conditions or certain types of disabilities, suicide prevention, intervention and postvention. Such training shall be provided annually.
- Youth Suicide Prevention Programing:
 - Developmentally appropriate, student-centered education materials on suicide prevention will be integrated into the curriculum of all K-12 health classes. The content of these age-appropriate materials may include: 1) the importance of safe and healthy choices and coping strategies, 2) how to recognize risk factors and warning signs of mental disorders and suicide in oneself and others, and 3) help-seeking strategies for oneself or others, including how to engage

school resources and refer friends for help. In addition, schools may provide supplemental small group suicide prevention programming for students.

- Publication and Distribution:
 - This policy will be distributed annually and included in all student and teacher handbooks and on the school website.
- Assessment and Referral:
 - When a student is identified by a staff person as potentially suicidal, e.g., verbalizes about suicide, presents overt risk factors such as agitation or intoxication, the act of self-harm occurs, or a student self-refers, the student will be immediately referred to a school employed mental health professional within the same school day to assess risk and facilitate referral. If there is no mental health professional available, a school staff member will contact a school administrator for further direction and support.
- For youth at risk:
 - School staff will implement the Crisis Call Protocol to ensure the at-risk youth's safety until their care is transferred to parents/guardians or emergency services.
 - An administrator and school suicide prevention coordinator will be made aware of the situation as soon as reasonably possible.
 - The school-employed mental health professional or administrator will contact the student's parent or guardian, as described in the Parental Notification and Involvement section, and will assist the family with urgent referral. When appropriate, this may include calling the Idaho Suicide Prevention Hotline (1-208-398-4357) or emergency services, bringing the student to the local Emergency Department, or setting up an outpatient mental health or primary care appointment and communicating the reason for referral to the healthcare provider.
 - Staff will ask the student's parent or guardian for written permission to discuss the student's health with outside care, if appropriate.

Face-to-Face School Activity Suicide Attempts:

- In the case of an in-school suicide attempt, the health and safety of the student is paramount. In these situations:
 - First aid will be rendered until professional medical treatment and/or transportation can be received, following school emergency medical procedures.
 - School staff will supervise the student and attempt to ensure their safety, provided doing so does not threaten the safety of the staff member or others.
 - Staff will move all other students out of the immediate area as soon as possible.
 - If appropriate, staff will immediately request a mental health assessment for the youth.
 - The school employed mental health professional or administrator will contact the student's parent or guardian, as described in the Parental Notification and Involvement section.
 - Staff will immediately notify the Head of School or school suicide prevention coordinator regarding face-to-face school activity suicide attempts.
 - The school may engage, as necessary, the crisis team to assess whether additional steps should be taken to ensure student safety and wellbeing
- Re-entry Procedures: For students returning to school after a mental health crisis (i.e., suicide attempt or psychiatric hospitalization), a school employed mental health professional, an administrator, or designee will meet with the student's parent or guardian and, if appropriate, meet with the student to discuss re-entry and appropriate next steps to ensure the student's readiness for return to school.

- A school-employed mental health professional or other designee will be identified to coordinate with the student, their parent or guardian, and any outside mental health care providers.
- The school staff will request the parent or guardian provide documentation from a mental health care provider that the student has undergone examination and that they are no longer a danger to themselves or others. A signed release of information will be requested from the student's guardian(s) to facilitate a safe and coordinated reentry.
- The administration will disclose to the student's teachers and other relevant staff (without sharing specific details of mental health struggles) that the student is returning after hospitalization/medical treatment and may need adjusted deadlines for assignments. The school-employed mental health professional will also be available to teachers to discuss any concerns they have regarding the student after re-entry.
- The school-employed mental health professional will check in with the student and their parents/guardians every week either on the phone or in person, or on a mutually agreed upon interval and communication modality for three (3) months following re-entry to ensure the student and their parents are supported in the transition , to help the student readjust to school, and to address any ongoing concerns, including academic or social issues.

Out of School Suicide Attempts:

- If a staff member becomes aware of a suicide attempt by a student that is in progress in an out-of-school location, the staff member will make reasonable efforts to:
 - Call the police and/or emergency medical services, such as 911.
 - Inform the student's parent or guardian.
 - Inform the school suicide prevention coordinator and an administrator. If the student contacts the staff member and expresses suicidal ideation, the staff member shall make a reasonable effort to maintain contact with the student (either in person, online, or on the phone). The staff member can then enlist the assistance of another person to contact the police while maintaining verbal engagement with the student. Refer to the Crisis Call Protocol.

Parental Notification and Involvement:

- In situations where a student is assessed as at risk for suicide or has made a suicide attempt, the student's parent or guardian will be informed as soon as practicable by the Head of School, designee, or mental health professional. Staff should provide outside mental health resources to the parents or guardians to support their child. If the student has exhibited any kind of suicidal behavior, the parent or guardian should be counseled on "means restriction" (i.e., limiting the child's access to mechanisms for carrying out a suicide attempt). Means restriction counseling should include discussing the following:
 - Firearms
 - Recommend that parents store all guns away from home while their child is having problems (i.e., store their guns with a relative, gun shop, or police).
 - Discuss parents' concerns and help problem-solve around offsite storage of firearms. Avoid a negative attitude about guns; accept parents where they are, but let them know offsite storage is an effective, immediate way to protect their child.
 - Explain that in-home locking is not as safe. Kids sometimes find the keys or get past the locks.
If there are no guns at home:
 - Ask about guns in other residences (i.e., joint custody situation).
If a parent won't or can't store offsite:

- The next safest option is to unload guns, lock them in a gun safe, lock ammunition separately (or don't keep ammo at home for now).
- If guns are already locked, ask parents to consider changing the combination or key location. Parents can be unaware that kids know their "hiding" places.
- Medications
 - Recommend locking up all medications (except rescue meds like inhalers) with a traditional lock box or a daily pill dispenser.
 - Recommend disposing of expired and unneeded medicines, especially prescription pain pills.
 - If parent won't or can't lock all:
 - Advise they prioritize the following and seek specific guidance from a doctor or pharmacist:
 - Prescriptions, especially for pain
 - Over-the-counter pain pills
 - Over-the-counter sleeping pills
- Mental Health Assessment
 - Through discussion with the student, the Head of School or school-employed mental health professional will assess whether there is further risk of harm due to parent or guardian notification. If the Head of School, designee, or mental health professional believes, in their professional capacity, that contacting the parent or guardian would endanger the health or wellbeing of the student, they may delay such contact as appropriate while identifying appropriate resources for the student such as law enforcement or child protective services. If contact is delayed, the reasons for the delay shall be documented.

Postvention

The LEA Board of Directors directs the Head of School to develop procedures relating to postvention following a death by suicide in the school. Such procedures shall address:

- Development and Implementation of an Action Plan
 - The crisis team will develop an action plan to guide school response following a death by suicide that has a significant impact on the school community. A meeting of the crisis team to implement the Action Plan will take place immediately following news of the suicide death. If the death has not yet been confirmed to be a suicide, the team should still meet while this is being confirmed.
 - The Action Plan may include the following steps:
 - *Verify the death.* Staff will confirm the death and determine the cause of death through communication with a coroner's office, local hospital, the student's parent or guardian, or police department. Even when a case is perceived as being an obvious instance of suicide, it shall not be labeled as such until after a cause of death ruling has been made. If the cause of death has been confirmed as suicide but the parent or guardian will not permit the cause of death to be disclosed, the school will not share the cause of death but will use the opportunity to discuss suicide prevention with students.
 - *Alert the State Department of Education (SDE).* Alert the Director of Student Engagement, Career & Technical Readiness about the death as the SDE tracks student suicides throughout the state and can leverage resources (counselors, guidance, scripts) as well as

asserting flexibility around SDE program monitoring activity, SDE trainings, and other SDE reporting requirements so school staff can focus on student/staff grieving.

- *Assess the situation.* The crisis team will meet to prepare the postvention response, to consider how severely the death is likely to affect other students, and to determine which students are most likely to be affected. The crisis team will also consider how recently other traumatic events have occurred within the school community and the time of year of the suicide. If the death occurred during a school vacation, the need for, or scale of postvention activities may be reduced.
- *Share information.* Before the death is officially classified as a suicide by the coroner's office, the death can and should be reported to staff, students, and parents/guardians with an acknowledgement that its cause is unknown. If appropriate, the crisis team will write a statement for staff members to share with students. The statement should include the basic facts of the death and known funeral arrangements (without providing details of the suicide method), recognition of the sorrow the news will cause, and information about the resources available to help students cope with their grief. Announcements via school-wide assemblies should be avoided. The crisis team may prepare an email (with the input and permission from the student's parent or guardian) to send that includes facts about the death, information about what the school is doing to support students, the warning signs of suicidal behavior, and a list of resources available.
- *Avoid suicide contagion.* It shall be explained to staff that one purpose of trying to identify and give services to other high-risk students is to prevent another death. The crisis team will work with staff to identify students who are most likely to be significantly affected by the death. The crisis team will review with staff suicide warning signs and procedures for reporting students who generate concern.
- *Initiate support services.* Students identified as being more likely to be affected by the death will be assessed by a mental health professional to determine the level of support needed. The crisis team will coordinate support services for students and staff in need of individual and small group counseling, as needed. In concert with parents or guardians, crisis team members will refer to community mental healthcare providers to ensure a smooth transition from the crisis intervention phase to meeting underlying or ongoing mental health needs. School administration will monitor crisis team members for signs of 'compassion fatigue' and provide additional supports for staff as needed.
- *Develop memorial plans.* The school will avoid creating physical memorials (e.g., photos, flowers), funeral services, or fly the flag at half-mast because it may sensationalize the death and encourage suicide contagion. Avoid canceling school for the funeral. Any school-based memorials (e.g., small gatherings) will include a focus on how to prevent future suicides, prevention resources available, and healthy coping mechanisms.
- External Communication
 - The Head of School or designee will be the sole media spokesperson. Staff will refer all inquiries from the media directly to the spokesperson. The spokesperson will:
 - Keep the school suicide prevention coordinator informed of school actions relating to the death.
 - Prepare a statement for the media including the facts of the death, postvention plans, and available resources. The statement will not include confidential information, speculation about victim motivation, means of suicide, or personal family information.
 - Answer all media inquiries. If a suicide is to be reported by news media, the spokesperson can encourage reporters to follow safe messaging guidelines (e.g., not to make it a front-

page story, not to use pictures of the suicide victim, not to use the word suicide in the caption of the story, not to describe the method of suicide, and not to use the phrase “suicide epidemic”) as this may elevate the risk of suicide contagion. They should also be encouraged not to link bullying to suicide and not to speculate about the reason for suicide. Media should be asked to offer the community information on suicide risk factors, warning signs, and resources available including the Idaho Suicide Prevention Hotline number.

906.0 STUDENT GENDER IDENTITY AND SEXUAL ORIENTATION (LGBTQ)

As a virtual school program, the issues faced by our students and the interactions of our students/ personnel occur in a unique and different setting. Accordingly, the school’s creation and fostering of a safe educational environment free of discrimination for all students, regardless of protected classification, sexual orientation, gender identity, or gender expression, is a situation different from that of a traditional educational setting, though held with the same high regard.

The purpose of this policy is to enhance the safe learning environment for our students, ensure the privacy and confidentiality of our students and to ensure that our student have equal access to all of our school’s programs and activities.

Actions by any employee, contrary to the terms and provisions of this policy, will result in an investigation by the Non-Discrimination Coordinator and further may result discipline, up to and including possible termination. In the instance of a certificated employee, such may also result in the ITCA’s report to the Idaho Professional Standards Commission.

Safe School Setting

It is ITCA’s responsibility to safeguard all students when in our educational setting. This responsibility includes our LGBTQ students.

Discrimination, harassment, sexual-harassment, intimidation, bullying or cyber-bullying complaints involving LGBTQ students shall be handled in accordance with this policy as well as the school’s applicable discrimination and harassment policies. Such situations will be handled in the same manner as any other situation of alleged discrimination, harassment, sexual harassment, intimidation, bullying, or cyberbullying and shall be investigated by the school’s Non-Discrimination Coordinator.

Student Records, Privacy, and Confidentiality

Disclosure of a student's sexual orientation, gender identity, gender expression, or gender assigned at birth, depending upon circumstance, may be a disclosure of confidential information. Any disclosure of this information must be in accordance with ITCA policies and procedures regarding student privacy.

A student’s educational record shall, in no instance, include indication of a student’s sexual orientation or transgendered status.

ITCA official records are required to use a student’s legal name. In instances where law, rule or regulation requires ITCA to use a student's legal name or legal gender, the student’s legal name and

birth gender shall be utilized. In meeting this requirement, ITCA's personnel will seek to act to avoid the unintentional revelation of a student's transgender status. In day-to-day school contacts, ITCA personnel will use the name and pronoun consistently asserted by the student in the educational setting school, regardless of the student's legal name and birth assigned gender. A student is not required to legally change their name, gender, or official school records as a prerequisite to the school's day-to-day use of a name and the pronouns consistent with the student's identity.

Any ITCA employee's deliberate and/or continued refusal to use the name and gender by which the student identifies is a violation of this policy. Further, ITCA employees are not to disclose a student's transgender status or sexual orientation to other individuals, regardless of setting, including the other school personnel unless there is a legitimate educational need to know or unless the student has approved disclosure.

When contacting the parent/guardian of a transgender student, school personnel should use the student's legal name and the pronoun corresponding to the student's gender assigned at birth unless the student or parent/guardian has specified otherwise.

Change of Official School Records

ITCA records required to include the student's legal name and/or gender will be changed by ITCA upon the student/parent/legal guardian or former student's presentation of appropriate documentation to the ITCA Office.

Any current or former student may present to the Non-Discrimination Coordinator, Head of School, or designee responsible for student records a copy of a court order or birth certificate identifying a change the student's legal name and/or gender. The student's records will be changed accordingly.

School Activities

ITCA will provide all students the chance to partake in any school-related activities segregated by gender in a manner that is consistent with the student's consistently asserted school-associated gender identity.

To the extent that a student participates, whether with ITCA or any other Idaho Public School through a dual enrollment or other avenue and such activity is under the purview of the Idaho High School Activities Association (IHSAA), the student's participation and/or eligibility for such activity shall be subject to IHSAA rules and regulations, specifically Section 11, Nondiscrimination Policy.

School Trips

In no instance shall a transgender student ever be deprived of the right to partake in an overnight trip because of the status of the student as transgender. In no instance shall any student be denied the right to partake in an overnight trip because of a student's sexual orientation.

For ITCA school-related overnight trips, a student shall be assigned sleeping rooms that correspond to the student's consistent school-asserted gender identity or to a private sleeping room.

No student shall be required to sleep in a private room or in an assigned room conflicting with his or her consistently asserted school gender identity. Further, no student will be required to use a private room due to the student's sexual orientation.

Dress Codes

Due to the virtual nature of our educational program, the day to day attire of a student is not a matter for which the school addresses. However, in the situation of a school-related activity or event, the school's approach to any individual student's choice of attire shall be entirely gender neutral and shall give no consideration to traditional concepts or stereotypes of what is or is not appropriate clothing through the consideration of gender.

The only limitation with regard to a student's choice of attire shall be that the student's attire shall not be a disruption to the educational environment, be obscene, threatening, lewd, or vulgar.

School Dances

Same sex couples shall be entitled to the same consideration and treatment at school dances and school activities as applies to any other couple. Same sex couples shall in no manner otherwise be singled out for different or negative treatment of any nature.

Staff Professional Development

ITCA, through its Non-Discrimination Coordinator, may conduct Professional Development activities to aid the school's staff in compliance with this policy as well as the identification and prevention of discrimination against LGBTQ students in the educational setting.

If the school's Administration determines that Professional Development activities are warranted due to a particular event or a particular student, all confidentiality requirements shall be honored, and the student's name and/or disclosure of the individual student's status shall not be made.
