It is our goal to consistently improve student performance year over year. Virtual schools are unique and need an open mindset for learning. Building relationships with each student and family is a goal that is critical to implementing change. Setting expectations for improvement and striving to overcome the obstacles of this form of distance learning is imperative to our success. Active engagement of students, consistent review of instructional practices, identifying areas of need, and providing support for students within the virtual environment will continue to help our students reach their potential.

Sincerely,

Kendall Schroeder
