August 22, 2022

*Dear OHVA Students and Families,

Welcome to the 2022-2023 school year! We celebrated 20 years of Hope last year and are ready to begin our 21st school year at OHVA! I am so excited that you chose to partner with OHVA this year to ensure the very best education for your child(ren). We have worked hard to develop an academic plan that will serve every student. But even more we have worked hard to develop a partnership with you and a culture of hope for our students. We firmly believe that every student can achieve and succeed. We want to work with you. Please feel free to reach out to your teachers, support staff or administration for clarification or needs.

The past three years have held new challenges in education. The pandemic brought online learning to the forefront. However, a solid, tried and true online school such as OHVA, has demonstrated academic growth rather than learning loss for our students. We continue this year proving that e-schools are held to a higher level of “Accountability” than most schools. We know that you want what is best for your child and that is the reason you have chosen to attend a school that is outside the normal traditional brick-and-mortar setting. If you didn’t want what was best for your student, you wouldn’t have exercised the right to choose schooling through an e-school. While we are certainly not the traditional route for education, we still hold ourselves accountable to the state of Ohio, our Board of Trustees and even more importantly, to our students. With this in mind we want to assure you that we are holding ourselves accountable in all areas. OHVA has always taken great pride in meeting all compliancy requirements. Holding ourselves accountable shows everyone that we take our responsibilities seriously. There has been much focus in the press on e-schools and making sure that students are schooling as they should. We have taken measures to make sure that we can demonstrate that our students work hard to succeed in their academics. We will need to work closely with you as parents to assure we meet the expectations set before us by the state of Ohio. We are not trying to be inflexible but we know that this year will be a year when our processes and policies are scrutinized. We have no fear of this we just will need your help making sure it happens. Our partnership will be important.

We want to share an update on our school theme for Positive Behavior Interventions and Support (PBIS) that we began to develop in past years, with your input.

Accountable • Respectful • Engaged

We also want to inform you that we have a required School Safety Plan on site with a local law office. This will be put in use should the need arise. Staff will be trained in the latest safety protocol and will continue throughout the year to make sure we all remember that safety is essential in all schools.

Of course, above all else, we want to demonstrate our accountability to our students. Every department has worked carefully using the data collected last year and the year before to help shape its academic plan for the coming year. Looking carefully at state standards, the curriculum and needs demonstrated in diagnostic and interim assessments, staff will provide supporting lessons at each grade level through ClassConnect. It is important that students participate in these lessons to support the learning going on at home. These lessons should be a support for students and a benefit to the family as well, and will help students learn the expected skills throughout the year. We understand that each family has different needs. It will be important for you to communicate with the staff assigned to you should you need something done differently. However, remember that we are also accountable to the state to make sure our students are thriving academically so we will need to make sure students are held accountable throughout the year.

We are excited to connect with our amazing students to “GO BIG” this year with social connections, learning opportunities, and ways to showcase their talents and skills. There will be a variety of events for interaction, social connections, and ways to serve our communities, such as Back to School Picnics, OHVA Cares Service Learning, Online Learning Day, Student Expo Days for students to demonstrate their work, and Zoo Days are returning in May to celebrate at the year’s end.

Again, we are excited by the upcoming year and the academic plans that have been developed. We know that working together we will be able to do what we all are working toward, creating the best learning environment possible for our students and demonstrating through accountability that Ohio Virtual Academy has hard-working students who are destined for success.
