# Overall Designation and Findings

The purpose of monitoring is to assess the strengths and areas needing improvement at each virtual school. Each year, local education agencies (LEAs) monitor the instructional, fiscal, and operational practices within their virtual schools using a state-defined series of common practices and statutory requirements. This report reflects the LEA's findings during the monitoring process. The monitoring strands and assurances can be viewed within the [Monitoring Domains](#) section of this report. Below is the LEA's overall findings and areas of notability.

## School Overall Designation

**Overall Findings:** TNVA is the first state wide virtual school established in 2011. Since that time, the school, working with Union County, has become one of the largest state wide school across the state. Accountability has always been one of the priorities of TNVA and it showed during this monitoring process.

**Strengths:** TNVA is strong in the following areas: testing, truancy, and special populations. Many of the structures that TNVA set forth are used by other virtual schools not only in the state of Tennessee but across the country.

**Notable Areas for Improvement:** One of TNVA's most needed are for improvement is in academics. Each year, TNVA strides to become better from the year before but with a bigger influx of online students in the past few years it has become more difficult. TNVA is now an ATSI school that is working with the state and Union County to improve test scores. Each administrator and teacher at the school is working tirelessly to improve test scores to an acceptable level.

**Plan to Address Notable Areas for Improvement:** TNVA has worked with STRiDE (parent company) to have the curriculum more Tennessee standard specific. STRiDE is in the process of having its curriculum state approved by the textbook adoption committee. Each administrator wants each teacher to know their students and how their students are performing. Every week, data meetings are held to discuss students gain or decline in achievement data. If the student is declining, then a meeting is held with the teacher, parent/guardians, and administration to provide all support needed to make the student successful.

## Domain 1 Findings: Instruction

<input type="checkbox"/> Meeting Expectations	<input checked="" type="checkbox"/> Approaching Expectations	<input type="checkbox"/> Below Expectations
Strengths:	TNVA strengths are delivering instruction virtually, providing materials to be successful, helping students that are falling behind, innovative daily schedule to keep students engaged, and state testing. Score of 77%	
Notable Areas for Improvement:	TNVA notable area of improvement should be test scores for all students and providing a proper state approved curriculum.	

## Domain 2 Findings: Fiscal Management

<input checked="" type="checkbox"/> Meeting Expectations	<input type="checkbox"/> Approaching Expectations	<input type="checkbox"/> Below Expectations
Strengths:	TNVA does not charge for tuition and has always been a free public school. The school takes a look at what exceeded previous years expectations and makes certain that funds are available to continue that process. Score of 100%	
Notable Areas for Improvement:	N/A	

## Domain 3 Findings: School Operations

✓ Meeting Expectations	☐ Approaching Expectations	☐ Below Expectations
<b>Strengths:</b>	<p>TNVA has one of the most robust plans to address truancy for virtual schools that mirrors the LEA's plan accordingly. The enrollment process changed this last year with accordance to out of district transfers making the process easier for families to enroll while providing guidance on rules and policies. Another strength is the reporting of student information from the LEA Skyward SIS system comparing to the STRIDE enrollment system to almost 100% accuracy. With special populations enrollment growing, TNVA has had to adapt to new types of disabilities and adapt strategies to meet the virtual world.</p> <p><i>Score of 100%</i></p>	
<b>Notable Areas for Improvement:</b>	<p>Following up on recorded lessons are posted in the Online School.</p>	

## Results Snapshot

The school received the following totals:

## Domains and Strands At-a-Glance

The purpose of monitoring is to assess the strengths and areas needing improvement at each virtual school. This report reflects the current state of the virtual school being monitored.

Each virtual school is monitored to determine an overall designation through a series of domains and strands as categorized below:

- Domain 1: Instruction
  - o [Assurances](#)
  - o [Strand 1.1: Instructional Practices & Procedures](#)
  
- Domain 2: Fiscal Management
  - o [Assurances](#)
  - o [Strand 2.1: Fiscal Budgeting](#)
  
- Domain 3: School Operations
  - o [Assurances](#)
  - o [Strand 3.1: Attendance](#)
  - o [Strand 3.2: Enrollment](#)
  - o [Strand 3.3: Staffing & Operations](#)
  - o [Strand 3.4: Technology & Instructional Materials](#)
  - o [Strand 3.5: Special Populations](#)

## Designation Methodology

The LEA will assign the virtual school a designation level based on the percentages of applicable indicators and assurances as indicated in the table below. Use the tables and formula below to calculate the school designation level.

Designation Levels		
<b>Meeting Expectations =</b> 80-100% of Indicators Met	<b>Approaching Expectations =</b> 60-79% of Indicators Met	<b>Below Expectations =</b> Below 60% of Indicators Met

**Formula for calculating school designation levels:**

$$\text{Designation Level} = \left( \frac{\text{Sum of Indicator Ratings} + \text{Sum of Assurance Ratings}}{\text{\# of Applicable Indicators} + \text{\# of Assurances}} \right) \times 100$$

### Assurance Rating Table

Each monitoring domain has associated assurances that are drawn from Tennessee statutes and Tennessee State Board of Education (SBE) rules. The included assurances are indicators of statutory and regulatory compliance and are not an exhaustive list of statutes, rules, or regulations that govern virtual schooling. For each assurance, the LEA's director of schools or their designee will choose either yes or no signifying compliance or non-compliance. If non-compliant assurances are identified, the LEA's director or schools or their designee must provide a statement outlining the steps the LEA and/or virtual school will take to come into compliance with the non-compliant assurance. The LEA will assign a numeric value to each assurance based on the tables below.

<i>Compliant with Assurance</i>	<i>Non-compliant with Assurance</i>
– The LEA's director of schools or their designee attests that the virtual school is fully compliant with the listed assurance.	– The LEA's director of schools or their designee attests that the virtual school is not fully compliant with the listed assurance.

Numeric Value of Assurance Ratings	
<i>Compliant with assurance = 1</i>	<i>Non-compliant with Assurance = 0</i>

## Indicator Rating Table

LEAs will rate how the virtual school aligns to each applicable indicator within the monitoring strands. The LEA will assign a numeric value to each applicable indicator based on the tables below. Certain indicators may not be applicable to the virtual school; these indicators should not have a numeric value assigned and should be marked as “Indicator Not Applicable”.

<i>Fully Meets the Indicator</i>	<i>Partially Meets the Indicator</i>	<i>Does Not Meet the Indicator</i>	<i>Indicator Not Applicable</i>
<ul style="list-style-type: none"> <li>– School provides evidence that aligns <b>fully</b> with the elements addressed in the indicator</li> <li>– Provided evidence shows fulfillment or compliance of the indicator</li> <li>– One or more pieces of evidence are provided</li> </ul>	<ul style="list-style-type: none"> <li>– School provides evidence that aligns <b>partially</b> with the elements addressed in the indicator</li> <li>– Provided evidence shows progress towards fulfillment or compliance of the indicator</li> <li>– One or more pieces of evidence are provided</li> </ul>	<ul style="list-style-type: none"> <li>– School does not provide evidence that satisfies the elements addressed in the indicator</li> <li>– School provides evidence that does not address the indicator</li> <li>– School does not provide evidence</li> </ul>	<ul style="list-style-type: none"> <li>– The indicator is not applicable due to grade-level configuration</li> <li>– The indicator is not applicable due to absence of previous year accountability data</li> <li>– The indicator is not applicable due to LEA policy</li> </ul> <p><b>Note: LEA must enter rationale when choosing indicator not applicable.</b></p>

<b>Numeric Value of Indicator Ratings</b>			
<i>Fully Meets the Indicator = 1</i>	<i>Partially Meets the Indicator = .5</i>	<i>Does Not Meet the Indicator = 0</i>	<i>Indicator is Not Applicable = No Numeric Score</i>

## Accountability Data

School accountability data is taken directly from the Tennessee State Report Card and reflects the prior year's data. Schools that opened in the current academic year will not have state report card data; the LEA should put N/A in this section for these schools.

#### Assurances

1. The virtual school uses technology to deliver a significant portion (majority) of instruction to its students via the Internet in a virtual or remote setting.

Yes       No

If not, what is the school's plan to come into compliance?

[Click or tap here to enter text.](#)

2. The virtual school provides access to a sequential curriculum that meets or exceeds the academic standards adopted by the State Board utilizing state-approved textbooks and instructional materials unless a waiver has been granted to the LEA in accordance with T.C.A. § 49-6-2206 and State Board Rule 0520-01-18.

Yes       No

If not, what is the school's plan to come into compliance?

TNVA is utilizing the same state-approved curriculum and textbooks at Union County Public Schools. We utilize K12/Stride curriculum as supplemental curriculum and materials. It is our intention to apply for the K12/Stride curriculum to become a state-approved curriculum.

3. The virtual school provides instructional materials and ensures access to necessary technology, such as a computer, printer, and Internet connection, to each family with a student enrolled in the virtual school.

Yes       No

If not, what is the school's plan to come into compliance?

Click or tap here to enter text.

4. The virtual school provides the same length of time for learning opportunities per academic year that is required under T.C.A. § 49-6-3004 for public school students (minimum of 180 days of instruction and 6.5 hours per day).

Yes                       No

If not, what is the school's plan to come into compliance?

## Appendix A: Glossary of Terms and Acronyms for Virtual School Monitoring

The acronyms and nomenclature below are used throughout the framework.

Terms	Acronym/Short Term	Meaning
Academic Achievement		The percentage of students performing on grade level or above on state assessments as well as the improvement in this percentage from one year to the next.
Advanced Placement	AP	Early post-secondary courses offered that allow students to engage with highly rigorous course work.
Annual Measurable Objective	AMO	Yearly targets for improving performance based on prior year results.
Assurances		Statements aligned to Tennessee statutes, rules, and/or guidance that virtual schools and LEAs operating virtual schools must comply with.
Asynchronous Virtual Instruction		An instructional model that provides students access to on-demand instruction that is fully virtual/online. This model allows students to access instructional materials and progress at their own pace and does not require students to attend regularly scheduled (daily/every other day) virtual classes with a teacher.
Bisynchronous Virtual Instruction		An instructional model that utilizes both asynchronous and synchronous virtual instruction.
Career & Technical Education	CTE	Career & Technical Education consists of nationally recognized career clusters with the goal of preparing students for success at the postsecondary level and in their chosen careers.
Chronically Absent		Tennessee public school students are considered chronically absent if they are absent for 10 percent or more instructional days for any reason, including excused absences and out-of-school suspensions.
College and Career Readiness		See Ready Graduate
CTE Concentrator		A student who concentrates in CTE by at least 2 sequenced courses in a single career and technical education program or program of study.

Terms	Acronym/Short Term	Meaning
Dual Credit	DC	Statewide (SWDC) and Local Dual credit (LDC) courses are high school course aligned to a postsecondary institution's course and exam. Students who pass the exam earn credits that are accepted and/or recognized by the postsecondary institution.
Dual Enrollment	DE	Postsecondary course taught either at the postsecondary institution or at the high school, by postsecondary faculty or credentialed adjunct faculty.
Early Post-Secondary Opportunities	EPSO	A course and/or exam that give students a chance to obtain postsecondary credit while still in high school.
Economically Disadvantaged	ED	Students identified as participants in federal/state income/nutrition programs (e.g., TANF, SNAP), or students that meet categorical eligibility through their status as foster care, homeless, migrant, and/or runaway students.
English Learner	EL	Student identified by the LEA that have a native language other than English. EL student needs and placement can range across a spectrum of ESL/ELL services.
Graduation Rate		Measures the percentage of students that are graduating in four years and whether this percentage is increasing from one year to the next.
Hybrid Virtual Instruction		An instructional model that provides students access to virtual instruction and requires students to periodically attend class in-person within a brick-and-mortar location.
Individual Learning Plans	ILP	A document that describes an EL student's academic and language needs and goals.
