d. HOS Update – Dr. Joel Medley

- Family Success Champion Pilot was shared with the board as it is a new venture that K12 is putting out in limited schools. This program keeps an “enrollment” contact with has helped promote engagement for new enrollment.
- Projected enrollment for SY1920 was shared with the board along with the proposed grade level caps. A board member mentioned the possibility of halting enrollment growth and, after discussion, that was delegated to the next Academic Committee meeting.
- An update on the Academic goals were shared as the last page of the HOS update. When the second quarter is completed, these will be revised accordingly based upon the data. For instance, one goal is that 80% of full-year students would show growth on NWEA’s MAP assessments; however, the 2nd administration of that computer adaptive assessment does not occur until February.
- A very brief update of state testing was shared as the first day had been completed. As more details became available, they would be shared with the board for participation as well as results.
