IV. DISCUSSION ITEMS:
   a. HOS Update – a brief update was provided by Joel Medley as the school was in final stages for the start of year two. Topics included the school’s theme for the year, plans for the professional development offered to the teachers, and a short update on special education audit by DPI. This presentation was short in order to give maximum time for the Academic Plan and Testing presentations by the school.

She expressed the new benefits package was in compliance with the Affordable Care Act, and many of the health care items would offer a decrease in out of pocket costs to the staff. The rate increase for the new plan will be approximately 13.7% compared to our previous plan, and it was noted the state had notified LEAs that participate in the state plan to expect a 16% increase. Additionally, Blue Cross and Blue Shield, the recommended provider, provides coverage statewide. available and was distributed in the board packet. Mrs. Zambrano is recommending the board approve the invoices and benefits.

c. Testing Data and Academic Plan – Presented by Marcia Simmons, Gina Little, and Jill Curtis. Preliminary EOC/EOG Data was shared with the board, which showed in all but one subject NCVA outperformed the local school district of Durham County Schools compared to their data from the previous year. Some subjects outperformed the previous year’s state average. The academic team will provide additional interventions, which they believe, will enable the students to reach their full potential. The additional interventions include small group instruction, gated strong start, block scheduling in the high school grades, and data-driven instruction. The academic team is enhancing the academic plan to include items such as Aimsweb and USA Test Prep for benchmarking, extending the 10 point grading scale to the elementary grades, utilizing a new and enhanced LMS called D2L and a new homeroom model whereby all teachers will have regular interactions with the students.

d. Mrs. Simmons demonstrated the new LMS entitled D2L. She showed the new platform now has a single point of login for all academic materials, emails, calendars, assignments and grades. A new feature called My Plan would focus the students at the moment of login of their academic status. Dr. Moody inquired about student growth data, and Mrs. Simmons informed him the state had not released the official results yet, and we are migrating to a new platform, USA Test Prep, which will give us those details.

e. Dr. Moody informed the board that we are reviewing vendors, which provide Executive Board Training; the Executive Director will prepare a white paper with a comparison once it is completed.
