	Reading
Modeled	Teacher reads aloud, modeling how good readers read fluently and with expression. Books too difficult for students to read themselves are used. Examples: reading aloud and listening centers
Shared	Teacher and students read books together, with the students following as the teacher reads and then repeating familiar refrains. Books students can't read by themselves are used. Examples: big books, partner reading
Interactive	Teacher and students read together and take turns doing the reading. The teacher helps students read fluently and with expression. Instruction-level books are used. Examples: choral reading and readers theatre.
