

College Credit Plus

Sample 15-Hour Pathway (Part Time)

English Composition 1
College Algebra
Survey of Biology
Introduction to Theatre
General Psychology

What is a Pathway?
it is important for CCP students to take those courses that will most likely accelerate their progress toward a degree or certificate program. Many colleges have several CCP Pathways available outlining some of the most common college courses that fit directly into specific degree programs. While these recommended pathways are available, other course options do exist. Students should speak directly with their CCP Advisor to discuss course options.

Sample 30-Hour Pathway (Full Time)
