Grades Pre-K through 8

Motivating students can be challenging. Stride uses games and rewards to inspire students to master difficult math, language arts, reading, and science concepts.

Stride’s adaptive technology guides each student to practice where he or she needs it most—and then serves up a variety of content that’s lively and engaging, rich with a spirit of community and competition.

Stride features include:

- Deep content to further strengthen skills
- Translations for 60+ languages
- Integrated with Renaissance STAR Assessments® for a comprehensive approach to improving student outcomes
- “Help Me” feature that recommends targeted skill review activities
- Fun and engaging games for students to choose from
- Technology-enhanced items to help students prepare for high-stakes testing
- Teacher dashboards to help better assess student proficiency
- Easy to read student progress bars

How Stride Works:

1. **Answer Questions** to practice concepts.
2. **Review Skills** through your choice of activities.
3. **Earn Coins and Bonus Chests** for correct work.
4. **Play Games** for a fun and engaging “brain break.”
5. **Compete with Points** to top your best score or become a point leader in your class or grade.
Study Shows Significant Math and Reading Improvements

A recent statewide study* in Alabama found Stride was successful in improving academic achievement in targeted schools:

- Students who used Stride improved math benchmark pass rates by **15 percent**.
- Stride students also improved reading benchmark pass rates by **10 percent**.
- Stride students who were economically disadvantaged improved math pass rates by **23 percent**.
- Special education students using Stride improved reading benchmark pass rates by **57 percent**.
