Boost your balanced literacy program with our digital reading platform for students in grades K–12

High-interest literature is critical to sparking a student’s love for reading, especially in the formative years. With Big Universe™, you can access thousands of leveled eBooks and balanced literacy tools through our affordable, supplemental platform, which is available 24/7 on any smartphone, tablet, laptop, or other computer. What’s more, research* shows students who used Big Universe demonstrated greater improvement in reading skills than students who did not use it.

17,000+ leveled eBooks

- Quality nonfiction and fiction leveled eBooks support K–12 cross-curricular teaching and differentiated instruction
- The Big Universe library includes a wide variety of topics—plus Spanish titles, nonfiction—fiction pairs, and Hi-Lo
- Personal bookshelves allow students to save their favorite eBooks

Embedded assessments provide instant results

- Our Reading Fluency tool uses advanced speech recognition technology to listen to students as they read aloud, retell the story, and respond to questions—and then accurately and efficiently scores students on oral fluency, reading comprehension, and reading level.
- Benchmark assessments and checkpoint progress monitoring make it easy for teachers and students to track reading growth over time.
- The Big Universe platform includes robust management tools for importing SIS data, reporting, content filtering, and other functions.
