Be Confident in a Fully Digital Education Experience

We've got you covered. Flexible digital solutions give you what you need when you need it.

The comprehensive online teaching and learning environment from Stride gives teachers access to a fully digital education experience. Our platform provides students with:

- Age-appropriate interfaces for K–5 and 6–12
- A smart video-based tool for live class sessions via Newrow
- Powerful integrated resources and tools
- And a highly interactive K–12 core digital curriculum where most required materials are provided via digital delivery.

24/7 SUPPORT FOR FAMILIES AND TEACHERS
Access live technical support and academic support with our certified teachers 24/7 via chat, phone, and video conference.
What Teachers LOVE about Stride Learning Solutions

Interactive Tools
- Reading Fluency Tool
- Digital Whiteboard
- KID-FRIENDLY, easy-to-navigate tool
- INTERACTIVE SPACES
- Ability to Modify the Daily Path
- NEWSELA INTEGRATION

Writing Components
- TEACHER-GENERATED FEEDBACK WITH NOTES
- A Uniform Learning Platform
- Flexibility and Variety of Assignments

Immediate Feedback
- Digital Library
- GAMIFIED LEARNING
- SCREEN SHARE
- Ability to Differentiate Instruction

Distance Learning Tools
- Smooth Transition from Face-to-Face to Online
- One-to-one Online Library

Our Teacher-friendly Learning Environment

The Stride Learning Solutions platform is designed to help ease the transition to online learning for teachers, no matter your technology comfort level. A streamlined system with built-in flexibility supports teachers in making online teaching success a reality.

Our dynamic, unified system helps teachers:
- Manage student schedules
- Create class announcements
- Rearrange scope and sequence
- Customize lessons: hide, skip, add new
- Schedule live class sessions via Newrow
- Track student progress
- Utilize the gradebook
- View assessment results, including item analysis reports
- Access more than 20K leveled eBooks through the Big Universe™ digital library
- Personalize learning with the Stride Skills Arcade rewards-based, adaptive practice tool
- Feel confident and supported in online learning through Stride Training
Live Virtual Instruction with the Newrow platform optimizes teaching and learning with:

• A digital whiteboard for engaging, interactive lessons
• The ability to add live lesson links to student schedules and landing pages
• Recording capabilities
• Screen sharing to facilitate easier lesson delivery
• Breakout rooms for small group work and conferencing
• Live quizzes

Course and Class Management

Curriculum is key to the online classroom experience. In the K–5 and 6–12 platforms, teachers have the ability to modify courses to suit their needs. This includes rearranging the scope and sequence, and hiding, skipping, or adding new lessons. These tools provide teachers with flexibility in assigning lessons to each student’s daily plan.
Live Class Session Scheduling and Management

Teachers have flexibility in scheduling new sessions or managing existing sessions. The scheduling tool lets you specify a whole class session or identify specific students for targeted skill work in a small group.

Report and Tracking

A variety of key reports enable teachers to track student and class progress, assessment scores, logins, and more.
