

## Training Options for Teachers

**Our priority is to make sure your online or blended learning program starts off right.**

Lean on Stride Learning Solutions to prepare classroom teachers for effective online learning. With Stride Training Options, teachers accustomed to teaching in a traditional brick-and-mortar setting have a pathway to expand their knowledge and meet their students' needs in new and exciting ways.

Training Options for Teachers are designed to prepare instructors to navigate online courses and supplemental digital resources; present content in an engaging manner; leverage built-in assessments, tools, and data to personalize learning for each student; and address parent questions.

### Key Areas:

#### PREPARATION & PLANNING

- Goal setting
- Lesson planning
- Curriculum mapping
- Connecting with families
- Motivation & engagement
- Content knowledge
- Designing context for learning
- Understanding formative assessments

#### BUILDING RELATIONSHIPS

- Project-based learning
- Culturally responsive teaching
- Career readiness education

## Key Areas (continued):

### PROFESSIONAL PRACTICE

- Observation & feedback
- Peer review
- Parental involvement
- Communication
- Utilizing support staff
- Teacher authenticity
- Virtual classroom management
- Video-first protocols

### DATA-DRIVEN PRACTICES

- Standards mastery
- Assessment tools
- Using data to inform
- Student data conferences
- Research-based best practices
- Measure impact of interventions

## Sample Professional Learning Modules (PLMs):

- **Virtual Attendance and Scheduling**

In this session for administrators and teachers, we share best practices regarding attendance, engagement expectations, and scheduling in an online school. Virtual schools should not mirror the brick-and-mortar school day. Attendees learn to craft a school day that is manageable, engaging, and **provides students with a high-quality education.**

- **Data-Driven Instruction in an Online Environment**

This session provides teachers with guidance for implementing data-driven instruction in the virtual classroom. We present an overview of the various types of data available from digital curriculum and discuss methods for using that data to guide instruction.

- **Addressing Common Parent/Guardian Challenges**

This session looks at some of the typical barriers Learning Coaches face as they manage their responsibilities in the Stride environment. We share active listening techniques and highlight practical and age-appropriate strategies to address some common challenges Learning Coaches face as they support their students.

## A Variety of Delivery Options:

- Coaching & Consulting—Customized to fit your needs
- Targeted Webinars—Single topic delivered by a presenter; 60–90 minutes
- Personalized Workshops—half-day to full-year support
- On-Demand Training—Asynchronous, independent learning, and development

## **Our professional learning team helps school districts get the most out of their online or blended program.**

Stride Training Options are developed and facilitated by experienced teachers, administrators, and learning and development professionals who bring a wealth of knowledge of effective online and blended learning strategies. Designed specifically for the adult learner, our Training Options use the Learning Policy Institute's elements of effective professional development: active learning, job-embedded collaboration, modeling, coaching, expert support, feedback, and reflection.

Don't worry if you are new to online or blended learning. Be confident that Stride can help your team maximize digital learning success with the right tools, resources, and professional development. Our client success team will help you identify the right training model for your needs and support you through every step of implementation.

Reach out to discuss how Stride Teacher Training Options can help your school district make the transition to effective online schooling.
