INTERMEDIATE LITERATURE B

Intermediate Literature B sharpens reading comprehension skills, engages readers in literary analysis, and offers a variety of literature to suit diverse tastes. Through a varied selection of stories, plays, and poems, many of which highlight exemplary virtues, students develop skills of close reading and literary analysis while considering important human issues and challenging ideas. They come to appreciate the writer's craft as they consider the feelings, thoughts, and ideas of characters, and make connections between literature and life. Students also learn to read for information in nonfiction texts.

NOVELS
This program allows students to read any three novels of their choice from a selection of award-winning works by renowned authors, from a variety of genres: fantasy, science fiction, historical fiction, realistic fiction, and mystery.

These novels are listed in order of increasing difficulty as measured by the Lexile scale, a system that measures reading difficulty by sentence length and vocabulary (see www.lexile.com). Lexile ratings roughly correspond to grade levels as indicated below.

<table>
<thead>

Intermediate Language Skills B

Intermediate Language Skills B offers a systematic approach to the development of written and oral communication skills, designed to give students the essential building blocks for expressing their own ideas in standard (or formal) English.

Composition

This course builds on the skills introduced in Intermediate Composition A. In this writing program, students continue to practice writing essays in various genres. They analyze the conventional five-paragraph essay structure, and then move on to learn the form and structure of a variety of essays they will encounter in their academic careers including: essays of definition, cause-and-effect essays, and research papers. In writing each essay, students go through a process of planning, organizing, and revising, and they learn to examine their own writing with a critical eye, paying attention to ideas, organization, style, and correctness. Throughout the course, students write in response to prompts similar to those they will encounter on standardized tests.

GRAMMAR, USAGE, AND MECHANICS
The Grammar, Usage, and Mechanics program addresses many grammatical topics, with reinforcement activities in sentence analysis, sentence structure, and proper punctuation. Students analyze syntax and diagram sentences in order to understand how words, phrases, and clauses function in relation to each other. Frequent exercises and regular practice help students absorb the rules so they can confidently apply them in their own writing.
