Section: Learning Coach

We want to ensure that all enrolling families are aware of School Policies and Enrollment Expectations. Test School of Enrollment requires that each student has a designated adult, known as the Learning Coach, who will have the primary responsibility of being actively involved in all school related work and activities. Learning Coaches are the primary point of contact for all teachers and Academic Staff. If you choose to select someone other than yourself as the Learning Coach, please note that Legal Guardians are still ultimately responsible in ensuring adherence to school policies.

A Learning Coach actively monitors, assists, and motivates the student on a daily basis to ensure academic progress and adherence. The role and responsibilities of the Learning Coach varies based on the student's grade level.

Grades K- 5th

In grades K-5, the Learning Coach works side-by-side with a student to facilitate progress through daily lessons. While the teacher oversees all facets of the instructional experience for each subject, the Learning Coach's constant guidance and support through each lesson is critical for a young learner. The Learning Coach communicates regularly with the student's teacher and establishes proper scheduling, pacing and advanced preparation for lessons. A K-5 Learning Coach ensures that the student is making adequate progress in all courses and meeting program expectations. Learning Coaches of K-5 students can expect to spend 3–6 hours per day supporting their child's education.

Grades 6th- 8th

In Middle School students begin to develop more independence and take a more active role in their learning. The support of a Learning Coach is critical during this transition. A Middle School Learning Coach is responsible for working closely with the student's teacher(s) to monitor all aspects of a child's online schooling experience. The Learning Coach ensures that the student is engaged in schooling each day, meeting program requirements and deadlines, staying on track with scheduling and pacing, and collaborating with his teacher when additional support is needed. While students begin to gain independence in Middle School, they still need consistent guidance and support from a Learning Coach to ensure academic success. Learning Coaches of Middle School students can expect to spend 2–4 hours per day supporting their child's education.

Grades 9th- 12th

In High School the Learning Coach is referred to as the student's Mentor. The Mentor helps the student stay on task and ensure the student is following through on his or her assignments while the student is expected to manage his or her own time and schedule directly. High School courses are taught by teachers specifically experienced in their respective subjects, so the student has a different teacher for each subject. These teachers are responsible for reviewing all student work and providing instructional feedback. The student is expected to move at a consistent pace with her or his class in each subject.

Please review the Acknowledgement of Expectations and School Policies document before selecting the student's Learning Coach to ensure you fully understand this role and its responsibilities.
