

Draw Your Morning Routine

What do you do to get ready for the day? Think about everything you do from the moment you wake up to the time you're ready to learn. Do you zoom out of bed? Munch on breakfast? Pick out your favorite outfit? Draw it all out!

Draw each step of your morning routine in order. Then **write a short sentence** to tell what you're doing.

Example:

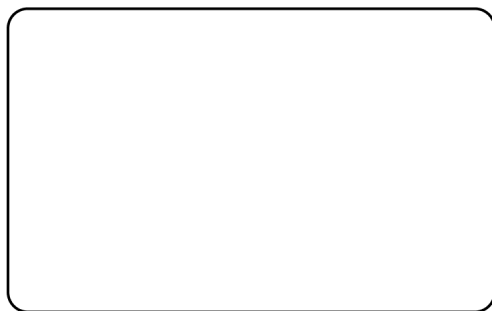

(picture)

I brush my teeth after I wake up.

(sentence)

Parent Tip: Encourage your child to share their drawing and explain each step out loud. Talking about each step helps build language skills and makes the routine feel fun and familiar.
